Introduction

In January 2023, Governor Kotek sent a letter to state agencies outlining 11 specific expectations related to operations of Oregon state government. The purpose of this report is to update Governor Kotek on progress made in meeting seven of these expectations.

This is the fourth report the Department of Administrative Services (DAS) has produced on this topic. The first three reports, dated June 1, 2023, Sept. 30 2023, and Dec. 31, 2023, are available on the DAS [Strategic Initiatives and Enterprise Accountability website](#).

This report focuses on seven of the 11 measures. We focus on these measures to provide detail about the structure that has been put in place to support agencies, what agencies have done to meet the expectations, and some preliminary data on outcomes.

Since September, Oregon state agencies have made the following progress:

Tracking in Place for Audits Enterprise-Wide – We are tracking 203 internal audit recommendations, 30% of which have been closed, and 89 Secretary of State recommendations, 47% of which have been closed.

Measuring Employee Satisfaction – This expectation asked agencies with more than 75 employees to conduct an employee engagement survey. This resulted in 33 agencies¹ administering the Gallup Q12 Employee Engagement Assessment from August through December 2023. The enterprise response rate was 60% and the mean engagement score was 3.76 out of 5, with 5 being the most engaged. This baseline number will allow us to compare changes over time with future annual assessments.

Steady Rate of Employee Performance Feedback – In December we reported that the enterprise was at 93% compliance with employee performance feedback. Last quarter, this stayed steady at 93%, and 46 out of 70 agencies achieved 90% or higher.

Successful Agency Information Technology Strategic Planning – As of January 31, 100% of the requisite reporting agencies, boards and commissions have submitted information technology strategic plans for approval by the State Chief Information Officer, and all but one have been approved.

Succession Plans Submitted – All but four of the required 75 agencies submitted a succession plan for review and feedback, a 95% rate of submission.

Decreased Days to Fill Vacancies – The average time it took to fill vacant positions has decreased from an average of 75 days to 68 days last quarter.

Steady Vacancy Rate – In the last quarter, the state vacancy rate for positions that were vacant for more than 6 months increased very slightly from 5.07% to 5.2%, while the rate for all vacancies decreased from 13.5% to 13.0%.

Increased Participation in Required Trainings – In the second quarter of required training, Customer Service Training achieved 98.6% compliance (an increase from December's reported 95.3%), Foundational Training for Managers achieved 79.2% compliance (steady compared to December's 79.6% compliance) and 92% of agencies are meeting the goal of 100% participation in the Uplift Your Benefits training for new employees within 30 days of hire, (increased from December's 75%).

Future reports will outline progress on additional measures as they reach deliverable deadlines. In September 2024, we anticipate that we will have enough data on the measures adopted so far, to report on trends.

Overview of the Measures Covered in this Report

1. Audit Accountability

State agencies report to DAS on audit recommendation status twice a year. The reports are due by May 31 and November 30 of each year.

Goals/objectives: These reports will track recommendations resulting from Secretary of State audits and agency internal audits completed starting Jan. 1, 2023 going forward.

2. Measuring Employee Satisfaction

All agencies greater than 75 FTE will use the Gallup Q12 survey to facilitate an anonymous annual employee satisfaction survey.

Goals/objectives: State agencies engage with employees to capture employee satisfaction at an agency and enterprise level. Results will help identify any areas for improvement and what is working well in the retention and satisfaction of state employees.

3. Performance Feedback for Employees

Each agency will maintain compliance rates of 90% or higher of completion of quarterly performance feedback meetings between managers and employees.

Goals/objectives: Executive Branch employees receive consistent and regular feedback from managers. Managers are empowered with the right tools and training to produce outcomes, provide support, assess performance and provide feedback to the staff they manage, according to the [statewide values and competencies](#).

4. Managing Information Technology Progress

Agencies of 50 FTE or larger are to develop and maintain a business-driven and enterprise-aligned information technology (IT) strategic plan supporting the organization's strategic priorities.

Goals/objectives: Agency IT, program and executive leadership partner in the development of IT strategic plans that operationalize the agency's vision, values, strategic priorities and modernization roadmap—aligning with [Cloud Forward](#), the [Modernization Playbook](#), [Oregon's Data Strategy](#) and the [EIS Strategic Framework](#) by Dec. 31, 2023, for review and approval by the State CIO.

5. Succession Plans

All agencies will develop and submit an annual succession plan.

Goals/objectives: Agencies will create, implement and sustain viable succession plans to maintain a skilled workforce that continues to provide critical services to Oregonians.

6. Agency Hiring Practices

Each agency will maintain an average of 50 days or less time-to-fill for their open competitive recruitments.* They will also actively manage their vacancies, reporting quarterly the reason for each budgeted vacancy they have in their department.

Goals/objectives: State agencies need to compete with the private sector for top candidates and get their positions filled expediently. Recruitments that go beyond 50 days risk losing top candidates. Such delays are often within the control of the recruiter and hiring manager.

* After the Legislature grants positions or after they become vacant.

7. Developing New Employees and Managers

All agencies will develop a **new employee orientation** program and be able to demonstrate that 100% of their employees participate in it within 60 days of hire.

Goals/objectives: Executive Branch employees will be welcomed, informed of state government values and agency procedures, and prepared to start work.

All new state employees will participate in DAS' **customer service training** within 60 days of hire.

Goals/objectives: New employees align with and provide excellent service to customers.

All agencies will ensure that new managers in state government complete the **foundational training program**.

Goals/objectives: New managers are prepared to effectively manage.

All employees new to state government will participate in **benefits education** (Uplift Your Benefits), within 14 days of hire so that it informs employee benefit choices.

Goals/objectives: Employees gain an awareness of their benefits and resources to aid their decisions. Employees understand and feel more confident in choosing benefits that are tailored to their needs and priorities. Employees understand the value of their benefits package.

Status of Initiatives as of Mar. 31, 2024

Audit Accountability

Agencies are required to report the status of recommendations for all audits performed by the Secretary of State and agency internal auditors, completed on or after Jan. 1, 2023. This reporting period includes audits concluded by Oct. 31, 2023. For this submission, 58 agencies completed reports with 34 of those agencies having no audit data meeting the reporting requirements.

Internal Audit Recommendations

For this reporting period, 38 internal audits were completed across 19 agencies resulting in 203 recommendations. A total of 60 recommendations have been closed; 55 recommendations were implemented and 5 closed due to the agency disagreeing with the recommendations.

Secretary of State Audit Recommendations

Secretary of State made a total of 89 recommendations to 16 agencies, in 23 audits. Of the 89 recommendations, 42 have been closed; 3 were no longer relevant, and there were none where the agency disagreed.

Of the 89 Secretary of State recommendations, 47% of those have been closed, compared to 30% of internal audit recommendations. Due to the limited availability of data, the reason for this variance is unclear, but this will continue to be reviewed in future submissions.

Please note that some audits, such as the Statewide Single Audit, will cross over multiple agencies so duplicate audit report titles are listed in the appendix.

Past Due Recommendations

Two agencies had recommendations that were past their target implementation date. These agencies were able to provide explanations which can be found in appendix A.

Measuring Employee Satisfaction

Measuring Employee Satisfaction | Gallup Q12 Survey

Between August and December of 2023, 33 state agencies conducted the Gallup Q12 Employee Engagement survey, giving Oregon state government the ability to look across the enterprise to identify themes and areas where we can provide resources and assistance to agencies to improve employee satisfaction, performance and productivity. This measure was required for all agencies over 75 FTE and all required agencies complied.

- Overall response rate was 60%, with 23,301 employees participating.
- Overall engagement mean was 3.76, with the highest engagement possible being 5.
- Oregon Department of Energy conducted a separate Q12 in May & June of 2023, with 35 permanent employee respondents and an overall engagement mean of 4.05.

Oregon's response rate of 60% was lower than the 73% response rate of similar sized State and Local Governments organizations in Gallup's database (147 organizations).

Oregon's engagement mean of 3.76 was higher than the 3.70 engagement mean of similar sized State and Local Governments in Gallup's database (147 organizations).

As agencies share results with their employees and develop plans to increase engagement, DAS will provide updates to the Governor and agency leaders.

Performance Feedback for Employees

Performance Feedback for Employees | Quarterly Check-Ins

Oregon state government has moved from a yearly performance management process to the Performance Accountability and Feedback (PAF) model requiring managers to conduct quarterly check-ins with their employees. The expectation is that each agency will achieve a 90% or higher quarterly check-in completion rate.

This reporting period is for Oct. 1 – Dec. 31, 2023, where managers observe and monitor performance. In January 2024, managers meet with each employee to provide feedback on the employee's goals and expectations and then document the check-in no later than January 31, 2024.

- Overall PAF check-in compliance was 93%, with a total of 24,904 check-ins completed out of the 26,856 check-ins required.
- Of the Executive Branch agencies required to complete check-ins, 46 of the 70 (65%) met or exceeded 90% completion for this quarters check-ins.
- An additional eight agencies (12%) had a check-in completion rate between 80% and 89%.

Of the 70 agencies required to complete check-ins for the quarter, only eight agencies did not reach at least 80% compliance. These agencies were Land Use Board of Appeals, Department of State Lands, Oregon Board of Dentistry, State Board of Massage Therapists, State Board of Parole and Post-Prison Supervision, Board of Naturopathic Medicine, Oregon Board of Optometry, and State Board of Examiners for Speech-Language Pathology and Audiology. DAS – Chief Human Resources Office and the Strategic Initiatives and Enterprise Accountability office reached out to the eight agencies in February to clarify any questions about the process and offered assistance if needed.

Managing Information Technology Progress

Implementation status as of Jan. 31, 2024:

The requisite reporting agencies, boards and commissions have successfully completed the finalization of their IT strategic plans, securing approval from the State Chief Information Officer (CIO), with the exception of one agency. It is noteworthy to acknowledge the efforts dedicated to addressing outdated systems, enhancing accessibility, equity, usability, fortifying security measures, and advancing data transparency in planned technology investments within the agencies. Moreover, there is a deliberate emphasis placed on addressing critical interrelated issues such as housing, homelessness, mental health and education for the benefit of Oregonians.

It is important to recognize that a revision of the IT-specific strategic plans will be necessary following the update of each agency's business strategic plans, which are due in mid-2024.

Next Steps:

In collaboration with Assistant State Chief Information Officers collab Agencies will publish of completed IT Strategic Plans to the [Oregon Transparency](#) website and or [Oregon Open Data Portal](#) to make the information readily accessible.

Succession Planning

Process

In early 2023, the Workforce Development division within the Chief Human Resource Office at DAS developed an online guide to assist agencies with their succession planning. This site included development information and tools in the areas of a planning guide, recruiting, onboarding, and agency and budget planning. A template was also developed to help agencies get started.

In October 2023, Workforce Development began meeting with agencies to offer assistance and guidance if requested. An updated template was developed to support agencies and ensure each report met the required criteria.

Throughout the third quarter of 2023, Workforce Development tracked receipt of succession plans, completed an assessment of each plan based on the four criteria, and held face to face virtual meetings with agencies to offer feedback and discuss the written reviews. Agencies that submitted prior to Dec. 31, 2023, were invited to resubmit their plans up to the deadline, to make any adjustments they deemed necessary.

As we reviewed each plan, we identified trends in missing or inaccurately represented criteria. We found the evaluation section and the competency development section to be the top areas where we can provide clarity. We have begun updating our tools and templates to aid agencies as they begin their 2024 Succession Plans. Agencies that have submitted a plan, regardless of missing criteria, have met the first expectation. Moving forward, DAS Workforce Development will continue to assist agencies as they fine tune their plans and adjust/evaluate annually.

SUCCESSION PLAN CRITERIA

STEP 1 ASSESS: Assess and communicate the agency's or team's mission and vision for the current and future workforce.

STEP 2 IDENTIFY: Identify critical and highly critical positions and competencies.

STEP 3 DEVELOP: Create employee plans for competency development.

STEP 4 EVALUATE: Adjust competencies, employee goals and recruitment strategies, if necessary.

DAS Next Steps

Identify Trends

The Workforce Development Office is working to identify trends within the submitted plans to better identify the areas that DAS CHRO can assist agencies as they work to reduce their critical and highly critical positions.

Tools and Resources (provide support)

Based off trends found in the plans, DAS CHRO will build tools and resources that align with the agency's needs to build competencies and eliminate pinch point positions.

Moving Forward

DAS is developing strategies and timelines moving forward for the next iteration of the Succession Plan process. This will include communication plans, timelines, and expectations as we move into 2025.

Agency Hiring Practices

Time to Fill Positions

It is the Governor’s expectation that the average time to fill positions does not exceed 50 calendar days. To measure this, we use the Workday report called, “Time to Fill - Job Posting Start Date to Offer/Job Filled Date” and analyze progress over time. Time to fill is calculated from the date a job announcement posts to the date when the selected candidate accepts the job offer. The report includes agencies within the Executive Branch. It does not include atypical requisitions such as executive recruitments (agency heads), evergreens (positions that are in continuous recruitment), recruitments with legally required assessments prior to job offer, or requisitions opened briefly for position management and internal reorganization transactions.

The statewide average time to fill is trending downward with a Q4 average of 68 days. Efforts to streamline the recruitment process are aiding in reducing this number. Proactive measures such as forecasting recruitment timelines, conducting sourcing and outreach to job seekers, expediting interviews, reference checks and job offers, continue to accelerate the process. The statewide average time to fill over the last four quarters is displayed on the table to the right.

Quarter (2023)	Statewide Avg. Time to Fill
Q1: January – March (Baseline)	79 days
Q2: April – June	74 days
Q3: July – September	75 days
Q4: October – December	68 days

Time to Fill Quarterly Comparisons

The data here shows how many agencies achieved a 50-day (or less) average time to fill. The data is shown by count of agencies that had jobs posted each quarter, by percent of agencies included in a particular quarter and by percent of total agencies that have been reported in all quarters.

Quarter (2023)	# of agencies included	# of agencies that met 50-day goal	% of agencies that met 50-day goal	% of all agencies that met 50-day goal
Q1	49	4	8%	7%
Q2	49	15	31%	25%
Q3	55	23	42%	39%
Q4	52	17	33%	29%

Vacancy Rates

In accordance with the Governor’s expectations, agencies are required to monitor and report vacancy rates on a quarterly basis. DAS tracks “Budgeted Vacancies” through Workday to analyze total vacancies. Additionally, to align with statutory legislative vacancy reporting([ORS 291.263](#)), vacancies open for six months or longer are also reported. Prior to tracking the vacancy rates for the purposes of this report, Oregon state government had a baseline total vacancy rate of 18.4%.

Efforts to streamline and accelerate the recruitment process across the enterprise is decreasing the time to fill to align with the Governor’s expectation which in turn decreases the vacancy rate.

Quarter (2023)	Total positions	Total vacancies*	Vacancies >6 month	Total vacancy rate	>6mo vacancy rate
Q2	42,310	6,217	2,837	14.7%	6.7%
Q3	43,096	5,865	2,185	13.5%	5.1%
Q4	43,891	5,732**	2,283	13.0%	5.2%

*Total vacancies number is calculated by finding each agency’s average number of vacancies across each month in the quarter and then finding the sum of those averages.

**Q4 Total vacancies count includes October and November only; December data was not available due to an unforeseen circumstance.

The total vacancy rates include limited duration but exclude seasonal vacancies. The >6 month rates include both limited duration and seasonal positions and align with the legislatively mandated reporting to Oregon’s Legislative Fiscal Office.

Developing New Employees and Managers

Customer Service Training

The online self-pace customer service course is automatically assigned to all new hires to Oregon state government or employees who transfer from the Legislature, Judicial Department, Inside Oregon Enterprises, Oregon Travel Information Council, Secretary of State, Treasury, or a semi-independent agency to the Executive Branch. The expectation is that 100% of all new employees complete the training within 60 days of being hired.

This reporting period is for Oct. 1 – Dec. 31, 2023. Of the 1,055 new hires hired during this period:

- 1,003 employees completed the training within 60 days of being hired.
- 36 employees haven't completed the training but are still within the 60 days.
- 16 employees completed the training after 60 days of being hired.

The enterprise achieved 98.6% compliance.

Foundational Training Program

This training program is automatically assigned to all new managers to the Executive Branch or current Executive Branch employees who are promoted into a permanent or limited duration supervisory management position. The expectation is that 100% of all new managers enroll into a cohort within five business days of being hired.

This reporting period is for Oct. 1 – Dec. 31, 2023. Of the 149 new managers hired during this period:

- 118 new managers were enrolled in a cohort within five days of being hired.
- 31 new managers were not enrolled in a cohort within five days of being hired.

The enterprise achieved 79.2% compliance.

Performance Accountability & Feedback (PAF) Training

These trainings are automatically assigned to all new managers to the Executive Branch or current Executive Branch employees who are promoted into a permanent or limited duration supervisory management position. The expectation is that 100% of all new managers will complete the three online self-paced PAF modules within 30 days of being hired or position start date.

This reporting period is for Oct. 1 – Dec. 31, 2023. Of the 149 new managers hired during this period:

- 122 new managers completed the training within 30 days of being hired.
- 12 new managers haven't completed the training but are still within the 30 days.
- 15 new managers completed the training after 30 days of being hired.

The enterprise achieved 89% compliance.

Uplift Your Benefits

Agencies continue to improve new employee participation in the Uplift Your Benefits workshop, collectively averaging 92% participation within 30 days of hire. Agencies are aligning their new employee onboarding plans to include timely participation of new employees in the benefits workshop. Workday assigns the workshop to all new employees as mandatory which is instrumental in having the success rate so far.

In September, Uplift began notifying the managers of new employees that had not taken the workshop within 21 days, to remind the manager that their employee had not yet completed the requirement. Data is inconclusive as to whether this step is helping close the gap for participation, and we will continue to monitor.

In the last quarter of 2023 there were 49 agencies, boards and commissions that hired at least one new employee, resulting in a 92% completion rate as reflected in the chart. There are 55 new employees who are still within the 30-day window, still eligible to complete the workshop.

Recent surveys from Uplift participants show 42% of new employees report that they have never had access to the range of benefits offered by Oregon state government. A key outcome of Uplift Your Benefits is that employees are more confident in choosing their benefits and understand the range of choices they have. Uplift workshop satisfaction surveys are consistently at 4.5 out of 5 stars for participant satisfaction.

A seasoned employee shared this feedback about the workshop: "I took this workshop to see what it was all about, I've worked for the agency for 22 years and do most of the hiring at our office, along with our own brief NEO presentation. This is a great introduction for new employees and answers a lot of the questions new hires have. Thank you for doing this!"

Technical Changes to the measures

Managing Information Technology Progress **The following changes have been made to adapt this measure to the needs of the enterprise:**

1. We will ask agencies to sequence updates to the IT Strategic Plan to coincide with their Agency Strategic Plan, so the next progress report will be due June 1, 2025
2. Working alongside Assistant State CIOs in organizations employing fewer than 50 FTE will integrate IT strategies into their agency strategic plan, starting June 1, 2025.
3. Agencies will publish an Annual Progress Report on their IT Strategic Plan to the [Oregon Transparency](#) website by June 1, 2025.

IT Strategic Plan Annual Progress Report Outline:

1. **Executive Summary:** A brief overview of the progress made against the strategic plan.
2. **Strategic Objectives:** Outline each strategic objective from the plan and an update on progress made toward each.
3. **Metrics and Targets:** Report on the outcomes established to measure progress toward each objective. Includes both current performance metrics and any trends observed.
4. **Initiatives:** Details of the initiatives or projects undertaken to support the strategic objectives. Including updates on the status of each initiative, any challenges encountered, and how they are being addressed.
5. **Resource Allocation:** Description of resources such as budget, personnel, and technology allocated to support the strategic plan.
6. **Risks and Mitigation Strategies:** Identification of any risks that may impact the achievement of the strategic objectives and outline of the strategies in place to mitigate them.
7. **Next Steps:** Provide insight into the next steps to be taken to further progress toward the strategic objectives, including any adjustments to the plan based on current performance and conditions.
8. **Conclusion:** Summarization of the overall progress against the strategic plan and highlights of any significant achievements or areas for improvement.

Conclusion

Governor Kotek issued these 11 expectations to agencies a little over one year ago and we're pleased to see improvement from the baseline in all measures. As we continue to make progress and improvements, we look forward to working with the Governor's office to deepen our understanding of the key drivers of improving customer service to Oregonians and building on what we have put in place so far.

These key expectations have been instrumental in defining our focus for the past year and have helped us make improvements in ways that make operations run smoothly. This benefits the people of Oregon in a number of ways, but predominantly in the way we provide services and support.

Past Due Recommendations

Agency / Board / Commission	Audit Report Title	Audit Source	Report Date	Past Due In Progress	Past Due Not Yet Started
Dept. of Revenue	Corporate Tax Section Settlements Audit	Internal Audit	03/01/23	4*	0
Oregon Liquor & Cannabis Commission	Performance measures: Set goals and measure progress to clarify expectations	Internal Audit	01/19/23	0	3**
Oregon Liquor & Cannabis Commission	Statewide Single Audit for Fiscal Year 2022	Secretary of State	07/27/23	1***	0
			Total	5	3

*The original target for completion gave the program inadequate time to complete the work required to close the recommendation. Department of Revenue has since adjusted the due date on these recommendations to 9/24/2024 and will continue to monitor them for timely completion against the adjusted date.

**Turnover among the executive team members led to the agency being unable to implement these recommendations within the planned timeframe. The recommendations are being addressed as part of the agency strategic planning process and will be completed by June 2024.

***The original implementation plans were impacted by turnover at the Accounting Manager level in March 2023. Further analysis is needed to determine if the recommendation is still relevant.
