ABOUT THIS GUIDE

This User Manual is designed to help you become familiar with the ORBITS application and to supplement ORBITS Training materials.

Numerous items and instructions appear throughout this guide. These conventions are designed to make it quick and easy to find information.

Each Window appears in the guide with step-by-step instructions for completing various processes. Each Window contains the following information:

- Window Title
- Menu Path
- Screen Print
- Description
- Technical Info
- Processes (with step-by-step instructions)

Menu paths begin with uppercase letters and contain an arrow → between each selection. For example: Administration → Admin Tables → Agencies.

Field names begin with uppercase letters and are printed in bold type. For example: Select a **Bien**.

Command buttons are enclosed in brackets (< >) and in bold type. For example: Click **<Update>**.

Key combinations that you should press appear in uppercase letters with bold type. If joined with a plus sign (+), press and hold the first key while you press the remaining one(s). For example: Press **CTRL+U**.

Pop-up window names begin with uppercase letters. For example: 'The Copy Report Parameters pop-up.'

Technical Information appears in italics within parenthesis and starts on a new line directly following a topic. For example: 'Select a window from the **Sub Sched Name** drop-down. (*Only items setup on the Available Checklist Items tab appear in the drop-down.*)'

GETTING STARTED IN ORBITS

Access to ORBITS is a two-step process:

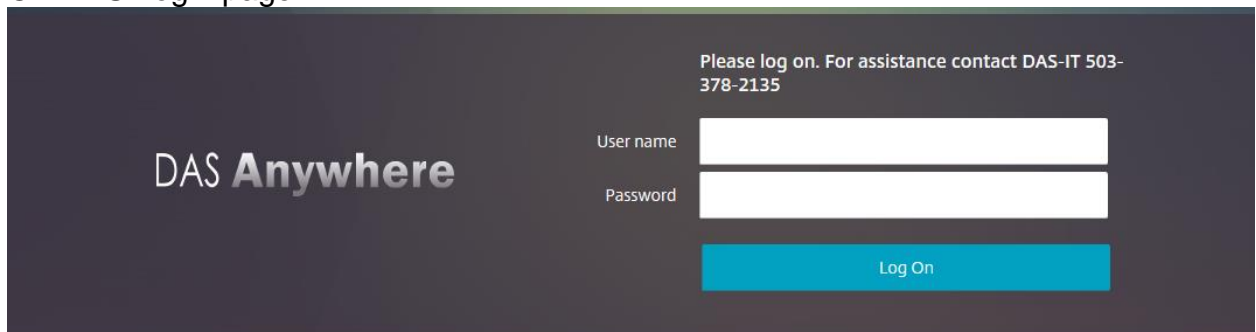

- **CITRIX** – users must first “log in” through this front-end software product. This product allows ORBITS to be accessed from any computer with Internet access, 24 hours a day; 7 days a week.
- **ORBITS** – once the login to CITRIX is complete, the ORBITS Logon Screen appears.

CITRIX

CITRIX is a front-end software product that is used to access ORBITS. This product allows ORBITS to be accessed from any computer with internet access, 24 hours a day, and seven days a week.

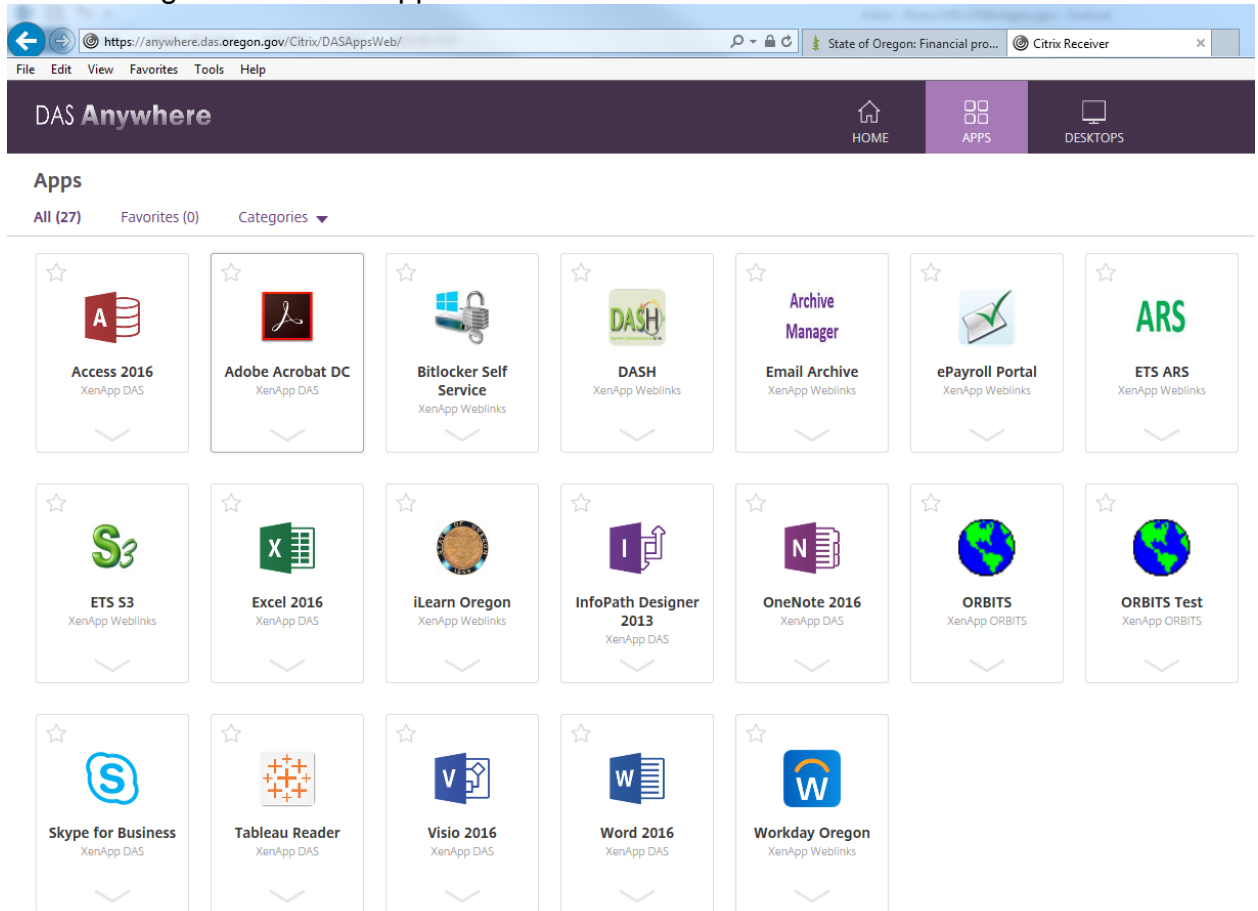

Accessing Citrix via the Internet

1. Access the Internet using **Internet Explorer (IE)** or **Firefox**.
(This is your web browser which may be found on your desktop or in your Programs listing.)
2. Type in the Citrix address: <https://anywhere.das.oregon.gov> and press **<Enter>**. You may also access this through the SABRS Website. <http://www.oregon.gov/DAS/CFO/Pages/SABRSMainPage> and click on the ORBITS Login page link.

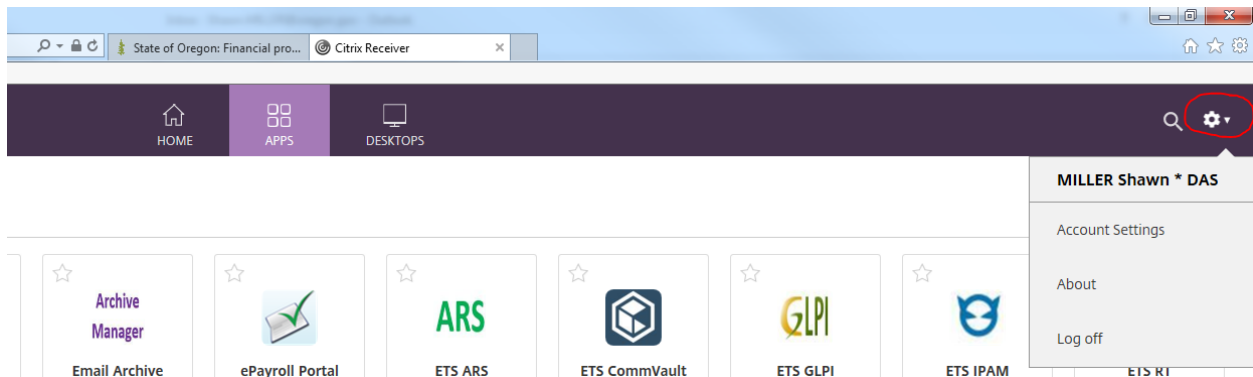

3. Type in your **Username** (RACF-ID) and Citrix **Password**.
These fields are case sensitive.
4. Click **<Log On>** or press **Enter**.

5. Click “APPS” at the top of the screen then select the ORBITS application. The ORBITS logon screen will appear after about 10 seconds.

Changing your Citrix Password

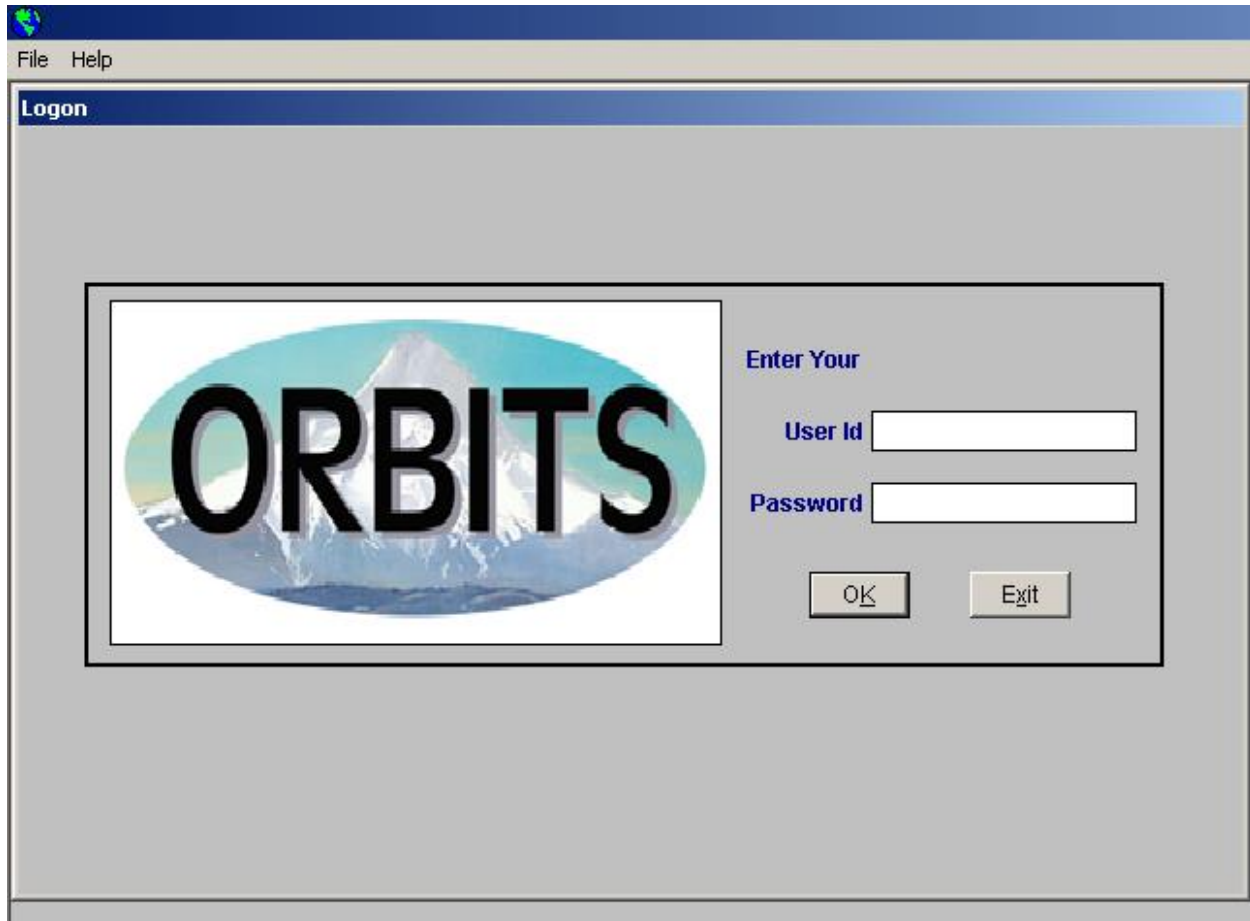

How to change your Citrix password:

1. Login to Citrix.
2. Type your Citrix username “typically this is your RACF ID” unless you are DAS or ETS Desktop supported Agency then it will be the same as your desktop login.
3. Choose The Gear Symbol in the upper right → Account Settings→Change Password

NOTE that the Passwords for **CITRIX** Must:

- Passwords must be a minimum of 8 characters.
- Password must have a combination of **alpha** and **numeric** character
- The password must meet 3 of the 4 Complexity Requirements below:
 - Uppercase characters (A through Z)
 - Lowercase characters (a through z)
 - Numerals (0 through 9)
 - Non-alphabetic characters (such as: !, \$, #, %)
- Passwords should not contain personal information or be a repeating character or use sequential characters. "xxxxxx", "12345678"
- Every 90 days you will be prompted to change your password within 7 days of expiration.
- Every time your password expires, it will need to be renewed as unique as there is no recycling of passwords
- You have 3 opportunities to put in your password, and then you will be locked out (3 strikes and you are out).

ORBITS Logon Screen

This is the first window that appears when the ORBITS application is selected to run. Users must have a valid User ID/Password combination to log in to the ORBITS application from this screen.

Menu Path: n/a

Logging into ORBITS:

1. In the **User ID** field, type your assigned User Id (your RACF-ID). This field is case sensitive.
2. In the **Password** field, type your password. This field is case sensitive.
3. Click <OK>.

Change Password

The screenshot shows a standard Windows-style dialog box titled "Change Password". It features a blue title bar with a close button (X) on the right. The main area is light gray and contains four text input fields stacked vertically. The first field is labeled "User ID" and contains the text "ORBIT02". The other three fields are labeled "Old Password", "New Password", and "Retype New Password" and are currently empty. At the bottom of the dialog are two buttons: "OK" and "Cancel".

This window is used to change your ORBITS password. Users may change their password at any time, but are required to change their passwords at intervals set by the System Administrator.

Menu Path: **File → Change Password**

Changing your ORBITS password:

1. In the **Old Password** field, enter the password you are currently logged in with.
2. In the **New Password** field, enter a new password.
 - a. ORBITS Passwords must:
 - i. be 6-8 characters long
 - ii. have an alpha first and last character
 - iii. contain at least 2 alpha characters and 1 numeric and or/special character (1, 2, #, @, \$)
 - iv. differ from your User ID (may not be a reverse or circular order of your User ID)
 - v. differ from previous password by at least 3 characters.
(Uppercase/lowercase does not quality as character changes.)
3. In the **Retype New Password** field, enter your new password.
4. Click **<OK>**.

INTRODUCTION TO ORBITS

Application Standards

Using ORBITS is much like using any other Windows-based software application. The functions and commands of the application can be executed by using the mouse or keyboard.

Command Buttons

Command Buttons appear at the bottom of each window. A single mouse click on a command button executes the associated command. If a command button has an underlined letter, you can also execute the command by selecting the **ALT+** the underlined letter. For instance, in most windows **ALT+U** executes the Update command button.

<Update>

This button is used to save newly entered or modified data. The appearance of this command button is controlled in Window Security Control. On many screens, pressing <Enter> also updates records.

<Insert>

This button is used to insert a new row or add a new record to a window (table). For example: Click <Insert> on the Budget Request Detail screen to add a new row of data (account and appropriated fund) to the budget. The appearance of this command button is controlled in Window Security Control.

<Delete>

When this button is selected, the current (highlighted) row is deleted. For example: Click <Delete> to remove a specific line of data on the Budget Request Detail screen. Many windows provide you with a warning pop-up to make sure you wish to delete the highlighted record(s). If you accidentally delete a record, you may <Undo> to reverse the process until an update has occurred. The appearance of this command button is controlled in Window Security Control.

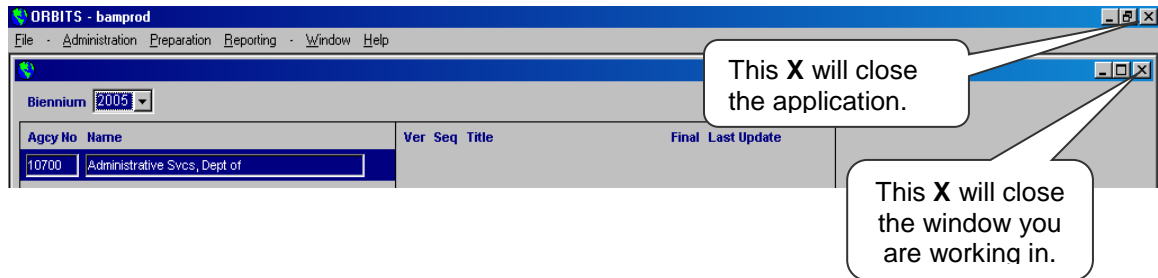

<Undo>

This button reverses any changes made since the last update occurred on the open window. (If multiple changes have been made, all are lost – not just the last change.) After clicking <Undo>, the user is prompted with the following message: ‘All changes since last update will be lost. Do you wish to undo?’ Clicking <Yes> executes the undo, clicking <No> cancels the undo.

<Exit>

The **<Exit>** button closes the window you are working in. (Selecting **<Exit>** from the **File** menu or from the **Welcome Screen** closes the application.)

<Notepad>

Clicking **<Notepad>** navigates you to the **Notepad** window. (See **Notepad** window for further information.)

Formatting Data Entry

Each ORBITS window has been specifically formatted to meet the needs of the data for that window. The formatting affects both the appearance of a window, along with the calculations applied to data entered on a window.

- Budget amounts are entered as whole numbers
- FTE amounts are the only amounts entered with decimal places
- Negative amounts are entered with a minus sign first and then the number
- Do not enter commas, dollar (\$) signs or other symbols.

Vertical and Horizontal Scroll Bars

When there is more data than space available on a window, the vertical and/or horizontal scroll bars appear. Clicking on the up and down arrows at the right side of a window, or left and right arrows at the bottom of a window, enables the user to scroll through all of the data in the window.

Drop-down Boxes

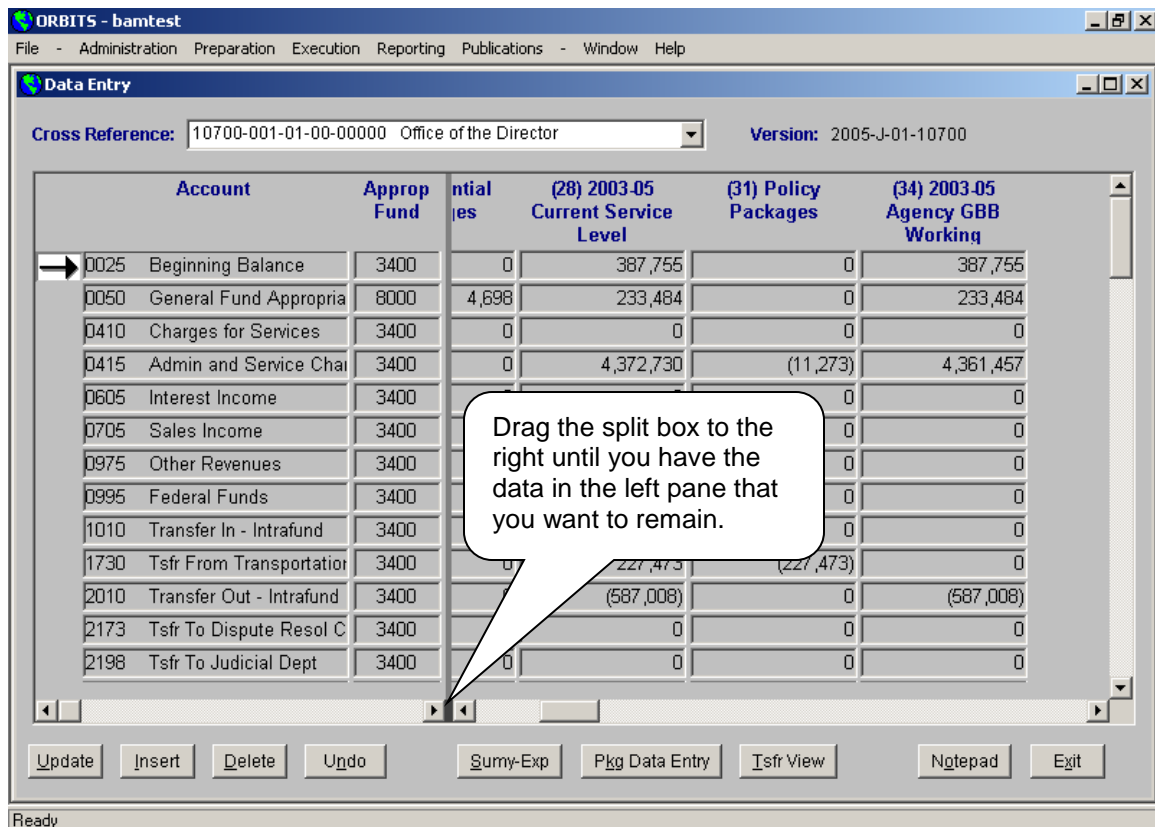

An arrow appearing in a particular field indicates a drop-down. A drop-down box provides the user available options to select for that field.

Split panes

Splitting panes allows you to select data that remains visible when scrolling in a window. For example, row labels remain visible when you scroll through columns to the right. This feature is available for any window when the horizontal scroll bar appears.

1. At the left end of the horizontal scroll bar, point to the split box. 
2. When the pointer changes to a split pointer,  drag the split box to the right to the position you want.
3. This allows you to scroll through all the columns on the right-side of the split box while still being able to see the row label.

The screenshot shows the 'Data Entry' window in the ORBITS - bamtest application. The window title is 'ORBITS - bamtest' and the menu bar includes 'File - Administration Preparation Execution Reporting Publications - Window Help'. The 'Data Entry' window has a 'Cross Reference' dropdown set to '10700-001-01-00-00000 Office of the Director' and a 'Version' of '2005-J-01-10700'. The main area contains a table with the following data:

Account	Approp Fund	ntial es	(28) 2003-05 Current Service Level	(31) Policy Packages	(34) 2003-05 Agency GBB Working
0025 Beginning Balance	3400	0	387,755	0	387,755
0050 General Fund Appropria	8000	4,698	233,484	0	233,484
0410 Charges for Services	3400	0	0	0	0
0415 Admin and Service Char	3400	0	4,372,730	(11,273)	4,361,457
0605 Interest Income	3400			0	0
0705 Sales Income	3400			0	0
0975 Other Revenues	3400			0	0
0995 Federal Funds	3400			0	0
1010 Transfer In - Intrafund	3400			0	0
1730 Tsfr From Transportator	3400	0	227,473	(227,473)	0
2010 Transfer Out - Intrafund	3400		(587,008)	0	(587,008)
2173 Tsfr To Dispute Resol C	3400		0	0	0
2198 Tsfr To Judicial Dept	3400		0	0	0

A callout box points to the split box on the horizontal scroll bar with the text: "Drag the split box to the right until you have the data in the left pane that you want to remain." The status bar at the bottom shows 'Ready' and several buttons: Update, Insert, Delete, Undo, Summy-Exp, Pkg Data Entry, Tsfr View, Notepad, and Exit.

3220	3400	152,322	<input type="checkbox"/>	253,870	0	406,192	117,944	(288,248)

This report is intended to be used to track the current Budget Execution cycle. It has multiple selection options that will allow the user to customize their view of this window. A user may look at the data by Detail or Summary Cross Reference, they can select specific Categories or Accounts and they may request the data with or without a Straight Line Projection calculated.

This window displays the Actuals to Date from the SFMA Datamart Budget Actuals table and the Legislatively Approved Budget from the M01Version in ORBITS. Below is an explanation of each column.

- Account: This displays accounts that have records on the SFMA Datamart Budget Actuals table.
- Appd Fund: This displays those Appropriated Funds that contain data on the SFMA Datamart Budget Actuals table.
- Actuals-To-Date: Values are retrieved from the SFMA Datamart Budget Actuals table for the Account and Appd Fund.
- No Adj: This is a checkbox that allows the user to eliminate the Manual Adjustment column from input. When checked this column will be grayed and protected.

- **Straight Line Adjustment:** This is a calculated field. If the Straight Line Adjustment Filter is checked in the Master Data Window the system will calculate as follows. $(\text{Actuals to Date/No of Months elapsed in the biennium} * 24) - \text{Actuals to Date})$. For example; Account 3110 Actuals to Date = $(1,042,909/9) * 24) - 1,042,909) = 1,738,182$.
- **Manual Adjustment:** This field is an enterable field, if the “No Adj” checkbox is blank. Agencies have the option of making an adjustment here rather than using the straight line or if they want to adjust the straight line.
- **Biennial Projection:** This is a calculated field. Adds the Actuals to date + Straight Line Adjustment + Manual Adjustment.
- **Legislative Approved (LAB):** This is pulled from the M01 version on ORBITS, column 36.
- **LAB minus Bien Projection:** Calculated field that subtracts the Bien Projection column from the LAB column.

To create a new record:

1. Select **Cross Ref Level** = Detail from the drop down.
(Insert is only allowed when Detail is selected.)
2. Select a **Cross Reference No** from the drop-down.
(This drop-down lists active detail cross references numbers for the agency).
3. Click **<Insert>**.
4. Select an **Account** from the drop-down.
5. Select an **Appropriated Fund** from the drop-down.
6. Type the **Dollar amount(s)** in Manual Adjustment column.
(This is the only column that is available for input.)
7. Click **<Update>** to save your changes.

To modify a record:

1. Select **Cross Ref Level** = Detail from the drop down.
(Insert is only allowed when Detail is selected.)
2. Select a **Cross Reference No** from the drop-down.
(This drop-down lists active detail cross references numbers for the agency).
3. Find the record that you want to update.
4. Type the **Dollar amount(s)** in Manual Adjustment column.
(This is the only column that is available for input.)
5. Click **<Update>** to save your changes.

Budget Request Checklist

Preparation → Budget Request Checklist

Schedule	Status
Open Budget Request	Not Complete
Data Entry	Not Complete
Package Data Entry	Not Complete
Transfers / Special Payments View	Not Complete

Agency: Administrative Svcs, Dept of
Version: 2017-A-01-10700

Access:
Agency: Open
LFO: Closed

Exit

The Budget Request Checklist operates as an access point to allow navigation to various sub schedules that comprise the budget request process.

Navigating from the Budget Request Checklist:

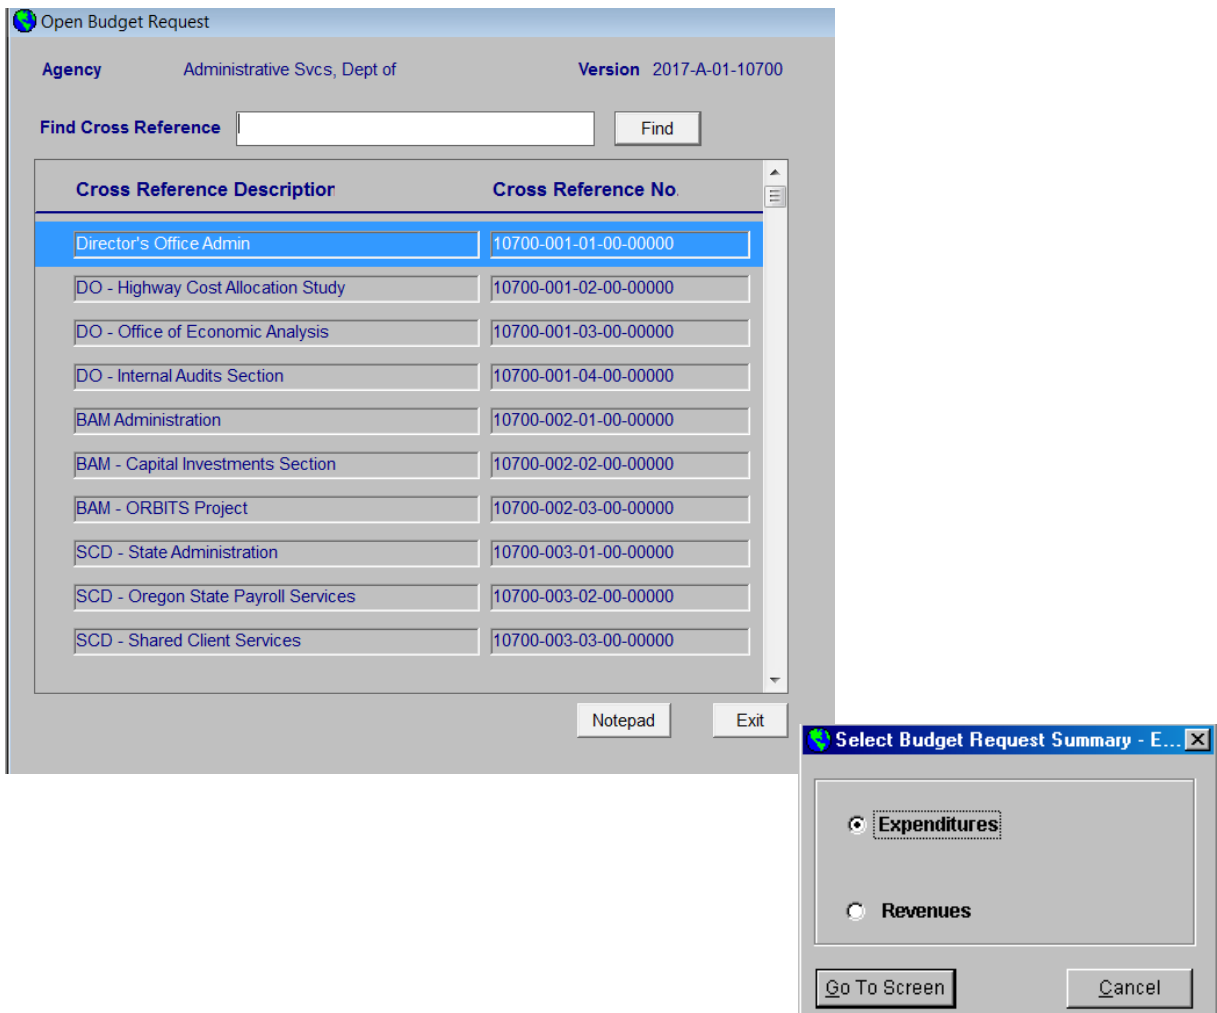

1. Click on the button of the desired **Schedule** to proceed to the associated window.
2. The **Access** drop-downs are used to control the access of other User Types to the version displayed on the Budget Request Checklist. (The 'owner' of this version is set up in the Version Types window.) In the above example, if the owner of this version wanted to limit the access for Agcy users, they would do so by selecting Closed from the **Access** drop-down.

Selecting Open Budget Request

When the Open Budget Request item is selected, the Open Budget Request pop-up appears. (*w_open_budget_request_v3*)

1. To locate a specific Cross Reference number, enter the Cross Reference number in the **Find Level or Cross Reference** field and click **Find** or double-click on the desired Cross Reference number.
2. The '**Open Budget Request Summary - ...**' window appears.

3. Select **Expenditures** or **Revenues** for the desired Budget Request Summary screen.
4. Click **<Go To Screen>**. (You will then be presented with the selected Budget Request Summary screen.)

Budget Request Detail

Preparation → Budget Request Checklist → Open Budget Request → [Expenditures or Revenues] → <Detail>

The screenshot shows the 'Budget Request Detail' window. At the top, it displays 'Agency: 10700 Administrative Svcs, Dept of' and 'Version: 2017A0110700'. Below this is a 'Cross Reference' dropdown menu set to '10700-030-01-00-00000 Chief Operating Office'. The 'Account Type' is 'E-Expenditure' and the 'Catg Group' is '3000 - Personal Services'. The main table has columns for '(03) 2011-13 Actuals', '(06) 2013-15 Leg Adopted Budget', and '(09) 20 Emerg Boal'. The table lists several accounts with their respective values in the 'Actuals' and 'Adopted Budget' columns. Below the table is an 'Appropriated Fund' section with a dropdown for '3400 Other Funds Ltd' and a summary row for 'All Funds'.

Account	(03) 2011-13 Actuals	(06) 2013-15 Leg Adopted Budget	(09) 20 Emerg Boal
3110 - Class/Unclass Sal. and Per Diem	1,203,570	2,838,543	
3160 - Temporary Appointments	28,277		
3170 - Overtime Payments	31		
3190 - All Other Differential	21,458		
3210 - Empl. Rel. Bd. Assessments	216	720	
3220 - Public Employees' Retire Cont	180,073	416,415	
3221 - Pension Obligation Bond	76,275	146,181	
All Funds :	1,203,570	2,838,543	1

The Budget Request Detail window is one of two windows used to input and analyze detail budget amounts into the Actuals, E-Boards, Leg Adopted/Approved and Base Budget columns. This window is best used to review budget data and making a small number of changes. The Data Entry window is better suited for inputting new and/or large numbers of accounts.

The columns displayed are established by the System Administrator on the Column Labels window, but can be customized by the user on the Select Column User tab.

Entering a new record:

1. Select a **Cross Reference** from the drop-down.
(This drop-down lists active detail cross references for the Agency).
2. Select an **Account Type** from the drop-down.
3. Select a **Catg Group** from the drop-down.
4. Click **<Insert>**.
5. Select an **Account** from the drop-down.
(This drop-down is limited based on the Account Type and Category Group selected.)
6. Select an **Appropriated Fund** from the drop-down.
7. Type the **Dollar amount(s)** in the appropriate column(s).

8. Click **<Update>** to save your changes.

Navigating from this window:

1. Click **<Tsfr View>** to navigate to the Transfers/Special Payments View window.
2. Click **<Pkg Detail>** to navigate to the Package Detail window.
3. Click **<Data Entry>** to navigate to the Data Entry window.
4. Click **<Notepad>** to navigate to the Notepad window.

Buttons: Sumy-Rev, Detail, Tsfr View, Pkg Detail, Attachment, Data Entry, Notepad, Exit

The Budget Request Summary – Expenditures window is a view-only window that displays summary expenditure information for a specific Agency/Version/Cross reference. The data is aggregated to the category and fund type level. The columns displayed are established by the System Administrator on the Column Labels window, but can be customized by the user on the Select Column User tab.

Navigating from this window:

1. Click **<Sumy-Rev>** to navigate to the Budget Request Summary – Revenue window.
2. Click **<Detail>** to navigate to the Budget Request Detail window.
You may also navigate to the Budget Request Detail window by double-clicking in the Budget Request Summary window.
3. Click **<Tsfr View>** to navigate to the Transfers/Special Payments View window.
4. Click **<Pkg Detail>** to navigate to the Package Detail window.

5. Click **<Attachment>** to create an attachment file.
By clicking here, you are automatically taken to an Excel spreadsheet to enter the data for your attachment.
6. Click **<Data Entry>** to navigate to the Data Entry window.
7. Click **<Notepad>** to navigate to the Notepad window.

Buttons: Sumy-Exp, Dgtail, Tsfr View, Pkg Detail, Attachment, Data Entry, Nglepad, Exit

The Budget Request Summary – Revenues window is a view-only window that displays summary revenue information for a specific Agency/Version/Cross reference. The data is aggregated to the category and fund type level. The columns displayed are established by the System Administrator on the Column Labels window, but can be customized by the user on the Column Labels – Select Column User tab.

Navigating from this window:

1. Click **<Sumy-Exp>** to navigate to the Budget Request Summary – Expenditures window.
2. Click **<Detail>** to navigate to the Budget Request Detail window.
(You may also navigate to the Budget Request Detail window by double-clicking in the Budget Request Summary window.)
3. Click **<Tsfr View>** to navigate to the Transfers/Special Payments View window.
4. Click **<Pkg Detail>** to navigate to the Package Detail window.
5. Click **<Attachment>** to create an attachment file.
(By clicking here, you are automatically taken to an Excel spreadsheet to enter the data for your attachment.)

6. Click **<Data Entry>** to navigate to the Data Entry window.
7. Click **<Notepad>** to navigate to the Notepad window.

The **Column Labels** tab on the Budget Request – Column Labels window is used to define the column titles by version type for columns 1 – 38 on the Budget table. These titles will appear on reports and windows.

Defining the Column Title for a specific version:

1. Select the **Bien** to setup from the drop-down.
2. Select the **Ver Type** from the drop-down.
(This drop-down lists versions created on the Version Types window.)
3. The **Locked** indicator is used to identify columns where data entry is not allowed.
4. The **Col Type** identifies what type of column it is; see the following descriptions:
 - a. **BD**: Budget Detail type– columns that are available for data entry on the Budget Request windows.
 - b. **CP**: Package – columns that are available for entry on the Package windows.
 - c. **CS** – Calc Sum – columns that are a result of a formula. (No direct input is allowed.)
 - i. If this **Col Type** is selected a **Formula** is entered.

Column Labels – Select Column Standard Tab

Administration → Admin Tables → System Titles & Column Controls → Column Labels → Select Column Standard Tab

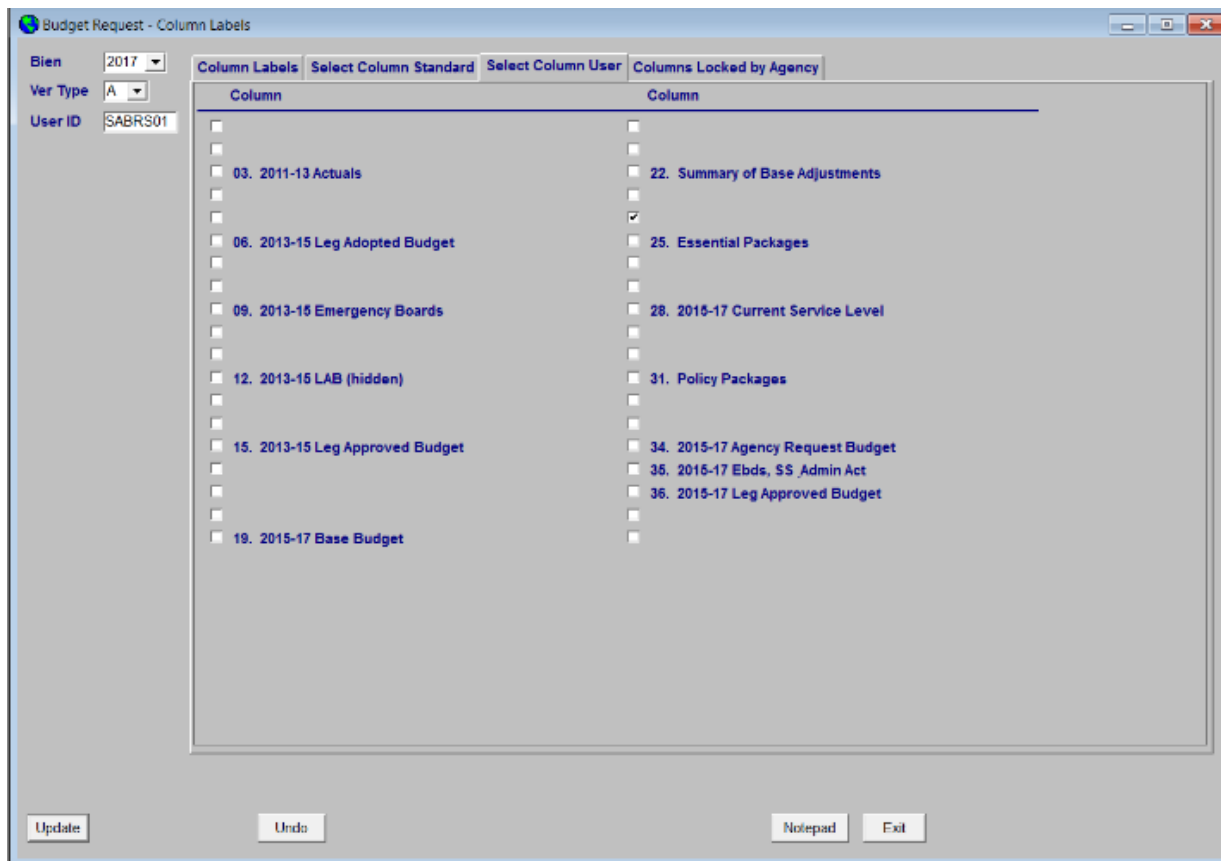

The **Select Column Standard** tab is used to define the standard columns visible to users within a specific version. Only columns defined here appear in the Budget Request Summary, Budget Request Detail and Data Entry windows. (A user may customize their column view in the 'Select Column User' tab.)

Creating the Standard Column View:

1. Select the **Bien** to setup from the drop-down.
2. Select the **Ver Type** from the drop-down.
(This drop-down lists version types created on the Version Types window.)
3. Standard column are selected by marking the **Column Checkbox** next to the column number/name. (Columns that are not checked here will not appear by default in any windows that contain columns (Data Entry window.))

Column Labels – Select Column User Tab

Administration → Admin Tables → System Titles & Column Controls → Column Labels
→ Select Column User Tab

The **Select Column User** tab is where users can customize which columns are visible for a specific Version in the Budget Request Summary, Budget Request Detail and Data Entry windows for their User ID. Any settings here on this tab override the Select Column Standard tab settings.

This is useful when you are entering data into a single column, you can customize your view to display only that column. To return to the 'Select Column Standard' view, uncheck all columns.

Personalize Standard Column for Users by Version:

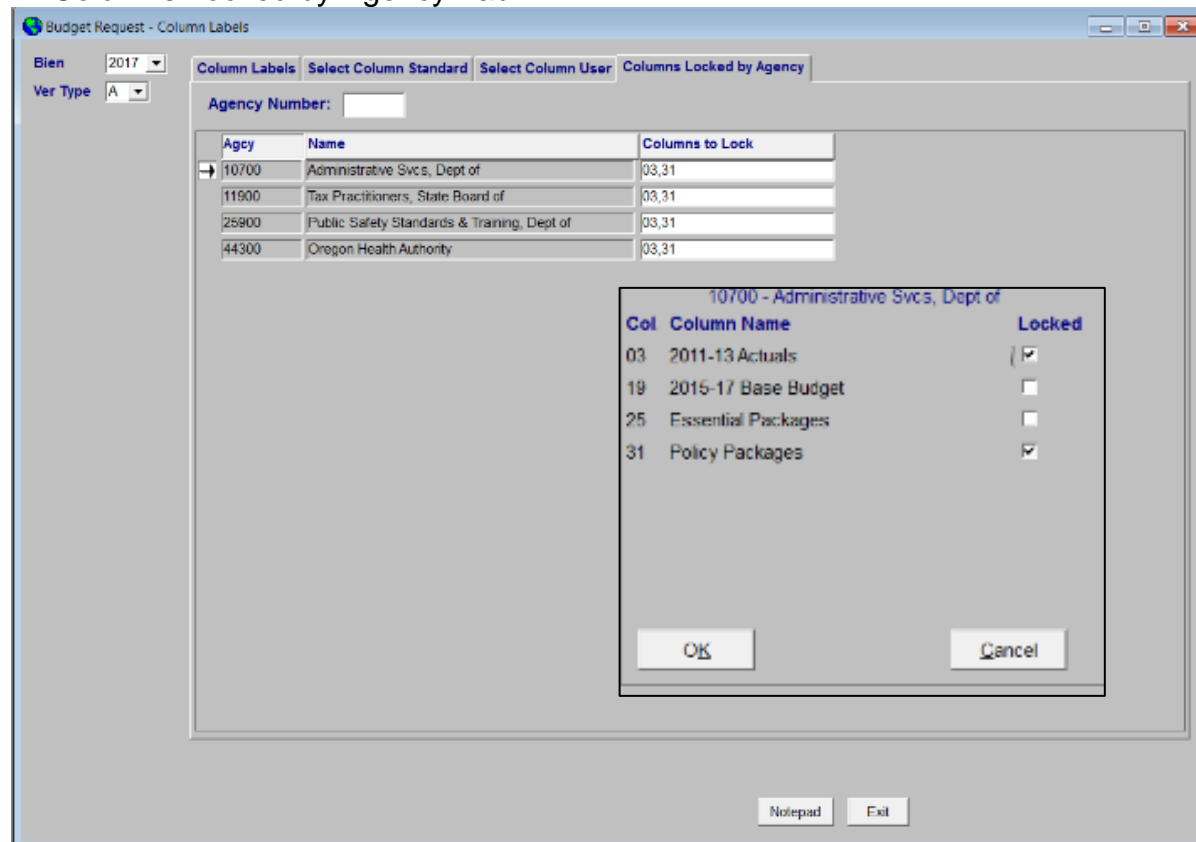

1. Select the **Bien** to setup from the drop-down.
2. Select the **Ver Type** from the drop-down.
(This drop-down lists Version types created on the Version Types window.)
3. The **User ID** defaults to the User ID that you are logged in as and cannot be modified.
4. Mark the **Column Checkbox** indicator next to the column numbers/names for a custom column view.
(This will override the columns that have been setup in the 'Select Column Standard' tab. In order to revert back to the Standard Column Selection view,

the user must uncheck all columns selected in the Select Column User tab for each version.)

5. Click **<Update>** to save your changes.

Column Labels – Columns Locked by Agency Tab

Administration → Admin Tables → System Titles & Column Controls → Column Labels → Columns Locked by Agency Tab

The **Columns Locked by Agency** tab on the Budget Request – Column Labels window is used to ‘lock’ column(s) from data input by Biennium, Agency and Version. By ‘locking’ a column, users are not allowed to enter data into the selected column.

Locking Columns by Agency:

1. Select the **Bien** to setup from the drop-down.
2. Select the **Ver Type** from the drop-down.
(This drop-down lists version types created on the Version Types window.)
3. The **Columns to Locked** box displays the column numbers for those columns that are locked for your agency.
4. If you click on the box a pop-up window will be displayed. This pop-up window will provide you with the Column name and number of all columns that are available for input. Those columns that are locked will have a checkmark in the box.

The Data Entry window is one of two windows used to input and analyze detail budget amounts in the Actuals and Base Budget columns only. This window is best used for inputting new and/or large numbers of accounts.

The columns displayed are established by the System Administrator on the Column Labels window, but can be customized by the user on the Select Column User tab.

When inputting changes to existing records, the users can arrow down or press **Enter** to move to the cell directly below. Upon exiting a cell and moving to another row, the record is automatically updated.

When the user reaches the last record in the table, the system will prompt the user to select another record, or choose Insert to input a new record.

To create a new record:

1. Select a **Cross Reference No** from the drop-down.
(This drop-down lists active detail cross references numbers for the agency).
2. Click **<Insert>**.
3. Select an **Account** from the drop-down.
4. Select an **Appropriated Fund** from the drop-down.

5. Type the **Dollar amount(s)** in the appropriate column(s).
6. Click **<Update>** to save your changes.

To modify a record:

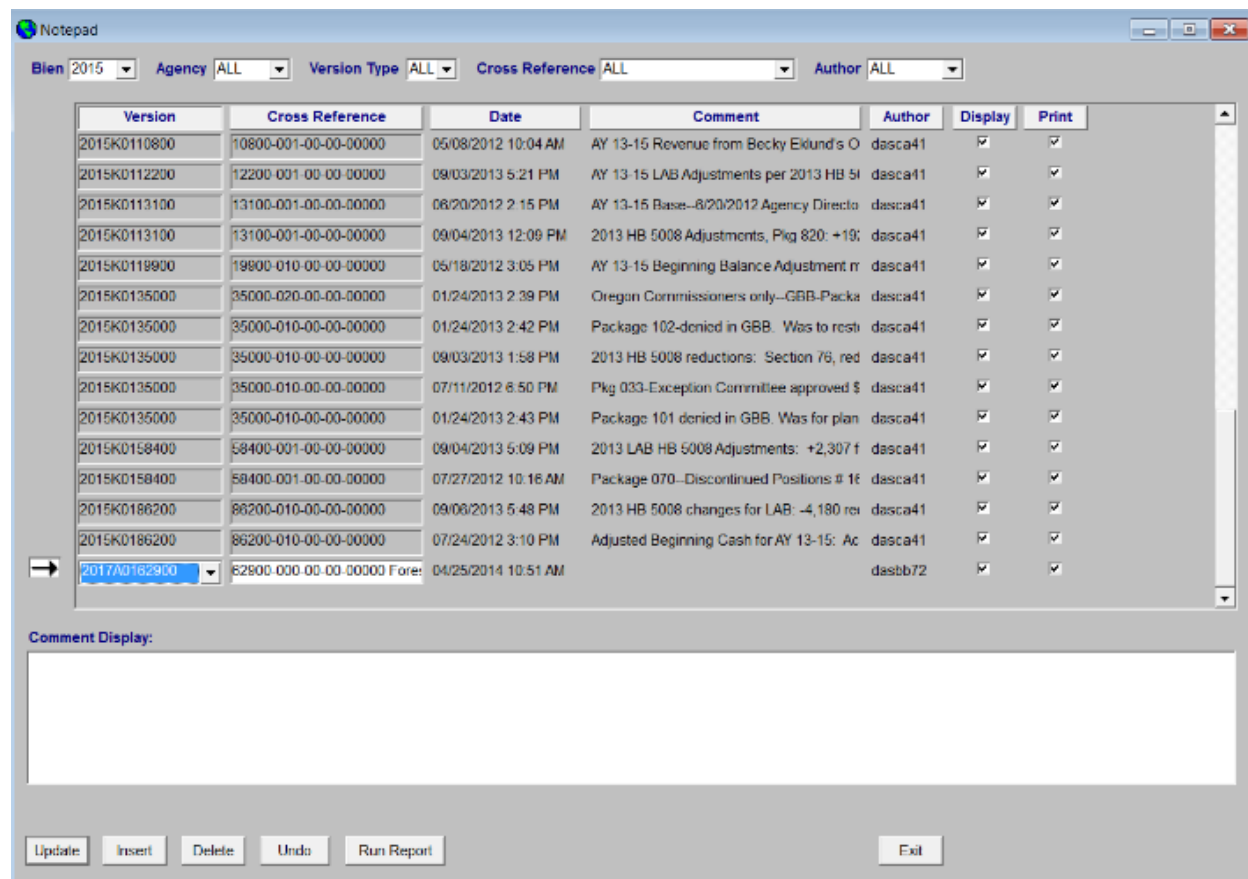

1. Select a **Cross Reference No** from the drop-down.
2. Highlight the row you wish to modify.
3. Make any necessary modifications.
4. Click **<Update>** to save your changes.

Navigating from this window:

1. Click **<Sumy-Exp>** to navigate to the Budget Request Summary – Expenditures window.
2. Click **<Pkg Data Entry>** to navigate to the Package Data Entry window.
3. Click **<Tsfr View>** to navigate to the Transfers/Special Payments View window.
4. Click **<Notepad>** to navigate to the Notepad window.

Notepad

Preparation → Notepad

Notepad is used to record text attached to a Version and Cross Reference that can be printed at any time.

Notes may be printed using the **NPR001A – Notepad Entries** report.

Create a new Notepad entry:

1. Select the **Bien**.
(This drop-down lists Biens that that have Versions in Version Control.)
2. Select an **Agency**.
(This drop-down lists Agencies that have Versions for the Bien selected.)
3. Select a **Version Type**.
(This drop-down lists versions that exist for the Bien and Agency(s) selected.)
4. Select a **Cross Reference**.
(This drop-down lists Summary Cross References for the Bien and Agency(s) selected.)
5. Select an **Author**.
(This drop-down lists User IDs that have Notepad records for the Bien/Agency/Version Type/Cross Reference selected.)
6. Click **<Insert>**.

7. Select a **Version**.
(This drop-down lists the Versions available for the Bien/Agency/Version Type/Cross Reference listed above.)
8. Select a **Cross Reference**.
(This drop-down lists Summary Cross References for the previously selected Version.)
9. The **Date** field is automatically populated on **<Insert>**.
10. The **Comment** field displays the beginning of the entry in the **Comment Display** field.
11. The **Author** field is automatically populated on **<Insert>** with your User ID. This may be assigned using the Reassign User ID window.
12. Mark the **Display** indicator if this entry should be available to all users who have security for that agency. (See the table below.)
13. Mark the **Print** indicator if this entry should appear in the Notepad Entries report. (See the table below.)
14. Click in the **Comment Display** box to type your Notepad entry.
15. Click **<Update>**.

The table below shows the combinations of the Display and Print indicators and their corresponding results.

Display indicator	Print Indicator	Results
X		Displays for all Users (w/ security for that agency)
X	X	Displays/Prints for all Users (w/ security for that agency)
	X	Displays/Prints for owner only
		Displays for owner only

Package Data Entry

Preparation → Package Data Entry

The screenshot shows the 'Package Data Entry' window. At the top, there are dropdown menus for 'Cross Reference' (10700-030-01-00-00000 - Chief Operating Office), 'Bud Cycle' (Prep), and 'Package' (ESS - 010 - 10 - Non-PICS Partl Svc / Vacancy Factor). The 'Version' is 2015-A-01-10700. Below these is a table with three columns: 'Account', 'Approp Fund', and '(26) Essential Packages'. The table contains the following data:

Account	Approp Fund	(26) Essential Packages
3221 Pension Obligation Bond	3400	17,081
3260 Mass Transit Tax	3400	(3,333)
3455 Vacancy Savings	3400	19,324

At the bottom of the window, there are several buttons: Update, Insert, Undo, Sumry-Exp, Data Entry, Tsfr View, Zero Plg Values, Notepad, and Exit.

The Package Data Entry window is one of two windows used to input and analyze budget amounts in packages. This window is best used for inputting new and/or large numbers of accounts.

When inputting changes to existing records, the users can either arrow down or select enter to move to the cell directly below. Upon exiting a cell, the record is automatically updated.

When the user reaches the last record in the table and presses **<Enter>**, the system inserts a blank row. If no change is made, the user may exit. If a change is attempted, the user is prompted to save their changes prior to exiting.

This window is specifically designed to display either the Essential or Policy Package column. The Select Column User functionality does not drive which columns are viewed on this screen.

NOTE: If a specific cross reference number has not been assigned any packages, the number will not appear in the cross reference drop-down field.

To create a new record:

1. Select a **Cross Reference** number from the drop-down.
(This drop-down lists active detail cross references for the Agency where at least one package has been assigned.)
2. Select a **Package** from the drop-down. If the package is designated as Locked on the Packages window, the package appears in the Package drop-down to allow the user to view any dollars that have been recorded against it but the <Insert> button is protected.
(This drop-down lists Packages that have been assigned to the select Cross Reference number).
3. Click **<Insert>**.
4. Select an **Account** from the drop-down.
5. Select an **Appropriated Fund** from the drop-down.
6. Type the **Dollar Amount(s)** in the column.
7. Click **<Update>** to save your changes.

Navigating from this window:

1. Click **<Sumy-Rev>** to navigate to the Budget Request Summary – Revenues window.
2. Click **<Data Entry>** to navigate to the Data Entry window.
3. Click **<Tsfr View>** to navigate to the Transfers/Special Payments View window.
4. Click **<Notepad>** to navigate to the Notepad window.

The Package Detail window is one of two windows used to input and analyze budget amounts in packages. This window is best used to review package data and making a small number of changes. The Package Data Entry window is better suited for inputting new and/or large numbers of accounts.

The columns displayed are established by the System Administrator on the Column Labels window, but can be customized by the user on the Select Column User tab.

To create a new record:

1. Select a **Cross Reference** from the drop-down.
(This drop-down lists active Detail Cross References for the Agency.)
2. Select a package from the **Pkg Desc** drop-down.
(This drop-down lists Packages that have been assigned to select Cross Reference number.) If the package is designated as Locked on the Packages window, the package appears in the Package Desc drop-down to allow the user to view any dollars that have been recorded against it but the <Insert> button is protected.
3. Select an **Account Type** from the drop-down.

4. Select a **Catg Group** from the drop-down.
5. Click **<Insert>**.
6. Select an **Account** from the drop-down.
7. Select an **Appropriated Fund** from the drop-down.
8. Type the **Dollar Amount(s)** in the appropriate column(s).
9. Click **<Update>** to save your changes.

Navigating from this window:

1. Click **<Tsfr View>** to navigate to the Transfers/Special Payments View window.
2. Click **<Pkg Data Entry>** to navigate to the Package Data Entry window.
3. Click **<Notepad>** to navigate to the Notepad window.

Printer Setup

File → Printer Setup

This window is used to select a printer for printing from ORBITS. ORBITS automatically selects the default printer designated for Windows. Using this window is only necessary when you wish to select a different printer than you normally print to.

Selecting a Printer:

1. Select a Printer from the available list of printers. (ORBITS automatically selects the default printer designated for Windows.)
(This drop-down lists the printers you have setup in Start → Settings → Printers.)
 - a. If the printer you wish to select is not available, contact your Internal Technical Support Staff.
2. Click **<OK>**.

04/25/14 11:27 AM Page 1 of 448 RDV0064 - Agency Worksheet - Revenues & Expenditures RDV0064

When reports are generated, they are displayed in the 'Report Viewer'.

Viewing Reports:

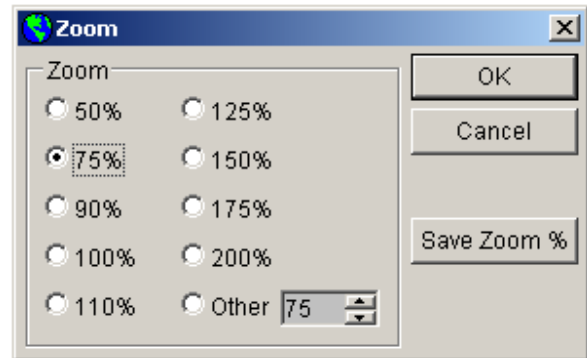

1. Click **<Re-Run>** to generate the report again.
(If the report contains a Selection Criteria window, you are prompted with the Selection Criteria window again. You may then make new selections or run the report again with the same criteria.)
2. Click **<Print>** to print the report. (See Printing Reports)
3. Click **<** or **>** to navigate page-by-page or **<<** or **>>** to navigate to first or last page.
4. Click **Page _ of _** for the Page pop-up. You may then select a specific page to navigate to.
5. Click **<Zoom>** to change the zoom. (See Updating the Zoom %)
6. Click **<Save as Extract>** to export the report to an Excel file. (When this is selected, the selected report is then opened in Excel.)

Updating the Zoom %:

The Zoom window allows you to select a new zoom for your current report or save a default zoom for all reports.

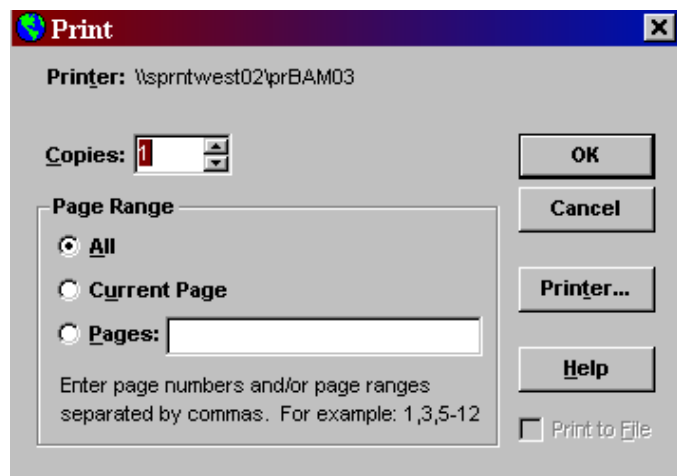

1. Click the radio button next to the **Zoom** percentage you wish to view. If you wish to enter a custom percentage, select the **Other** radio button and enter a custom percentage or use the up/down arrows to scroll to the desired percentage.
2. Click **<OK>** to use this setting for the current open report only – or click **<Save Zoom %>** to Save this setting as your default zoom.
 - a. When reports are selected, the zoom will default to the settings selected here. To modify, repeat the above steps.

Printing Reports

This pop-up appears after selecting **<Print>** from the report viewer.

1. Select the number of **Copies**.
2. Select the radio button for your desired **Page Range**.
 - a. If **'All'** is selected, all pages of the report are printed.
 - b. If **'Current Page'** is selected, only the page which has focus is printed.
 - c. If **'Pages:'** is selected, enter the page numbers and/or page ranges to print.
3. Click **<Printer>** to select a printer other than the printer identified at the top of the window. (The default windows printer is always selected.)
4. Select **<OK>** to print.

The Transfers / Special Payments View window is a view only window designed to let agencies view all Transfers in and out.

The AUD001 – Interagency Revenue Transfers and Special Payments and AUD004 Transfers and Special Payments reports may also be used to display this information.

To view Transfers/Special Payments:

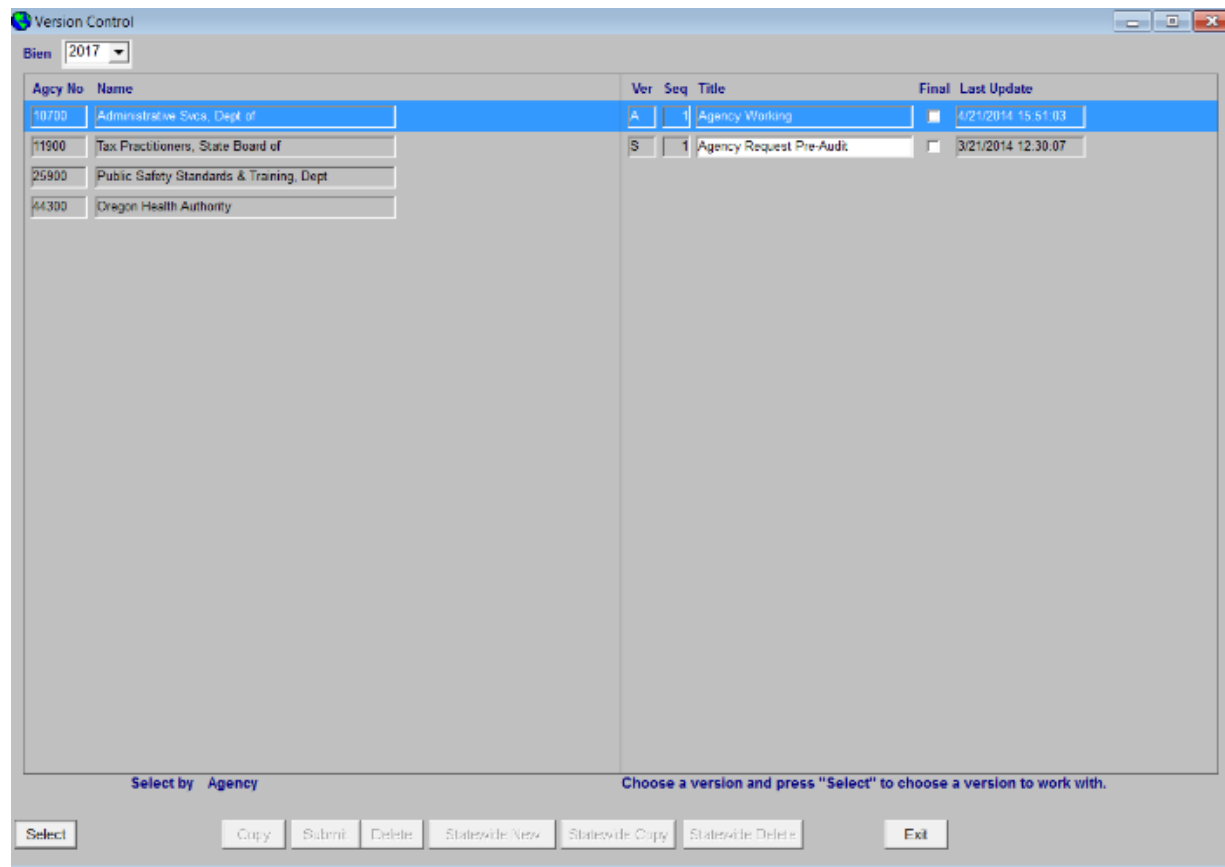

The Agency and Version default to the Agency/Version you are attached to.

The ‘**Transfers Generated by Agency**’ section displays summary of transfers and special payment transactions generated by the agency.

The ‘**Transfers External to Agency**’ section refers to summary of transfers and special payment transactions generated by other agencies.

Version Control

Welcome Screen → <Version> or File → Version Control

This window is utilized when the user needs to select a new and/or different version to work with. It may also be used to copy or delete versions. Agencies can copy the A, J and K Versions to the Summary Versions S, T and U.

When logging into ORBITS, the application defaults to the last Version selected by the user. This version identifier appears at the top of the Welcome Screen and includes the biennium, version type, version sequence number and agency number.

This window lists all agencies/versions a user is authorized to access.

Access to all command buttons on this window are controlled by the settings in the Version Authorization window.

Selecting a Version:

1. Select the **Biennium** from the drop-down. (*Will default to the Bien from the Version the user is currently attached to.*)
2. Highlight the **Agcy No** or **Name** for the desired agency. (*ORBITS only displays the agencies that have been assigned to the user in their Security Profile.*)

3. Double-click on the **Ver, Seq and Title** of the version you wish to select. (Or, you may highlight **Ver, Seq and Title** and click **<Select>**.
(ORBITS only displays the version types that the User is authorized to select.)
4. Click **<OK>**.

Marking a Version 'Final':

(Agencies may mark a Version as 'Final' prior to submitting for audit. This process is optional.)

1. Prior to marking a version final, the Open Budget Request sub-schedule on the Budget Request Checklist must be set to Complete.
2. Select a **Biennium**.
3. Highlight the **Agcy No** or **Name** of the desired agency.
4. Highlight the **Ver, Seq and Title**.
5. Mark the **Final** indicator.
 - a. If any **Schedules** on the Budget Request Checklist window are not set to **Complete** an error appears: 'Version is not in balance and cannot be set to 'Final'. Check the Budget Request Checklist and make sure all items have been to set to complete.' Click **<OK>** to close the pop-up window.
 - i. This error will continue to appear until all of the Schedules on the Budget Request Checklist window are marked Complete.

Using the <Copy> functionality:

1. Select the **Biennium** from the drop-down.
(Will default to the *Bien* from the version the user is currently attached to.)
2. Click on **Agcy No** or **Name** to highlight the desired agency.
(Only agencies assigned to the User in their Security Profile appear.)
3. Select the **Version, Sequence and Title** to select it as the source.
4. Click **<Copy>**.
5. Complete the pop-up window.
 - a. Select the **Target Agency** from the drop-down.
(This drop-down lists Agencies from the Agency window)
 - b. Select the Version from the **Target Version Type** drop-down.
(This drop-down lists Target Versions from the Version Submit Path based on the Source Target. This will list either the S, T or U versions)
 - c. Type in a Title in the **Target Version** Title field or let it default.
 - d. Select the appropriate sequence number in the **New Version** field.

The screenshot shows a 'Copy Version' dialog box with the following fields and options:

- Source Version: 2005-A-01-10700 Agency Working
- Target Agency: Administrative Svcs, Dept of
- Target Version Type: C Actuals Audit
- Target Version Title: Actuals Audit
- New Version: 2005-C-05 -10700
- Copy Options:
 - Roll-up
 - Copy Narrative
 - Copy Positions
- Buttons: OK, Cancel

6. Click **<OK>**.

Note: The new version contains the same financial data as the version from which it was created but the data will be aggregated to a summary level.

Using <Delete> functionality:

Agencies can delete versions based on Version Authorization. (*Only versions S, T and U may be deleted.*)

1. Select the **Biennium** from the drop-down.)
2. Highlight the **Agcy No** or **Name** of the desired agency.
3. Highlight the **Ver, Seq and Title**.
4. Click **<Delete>**.

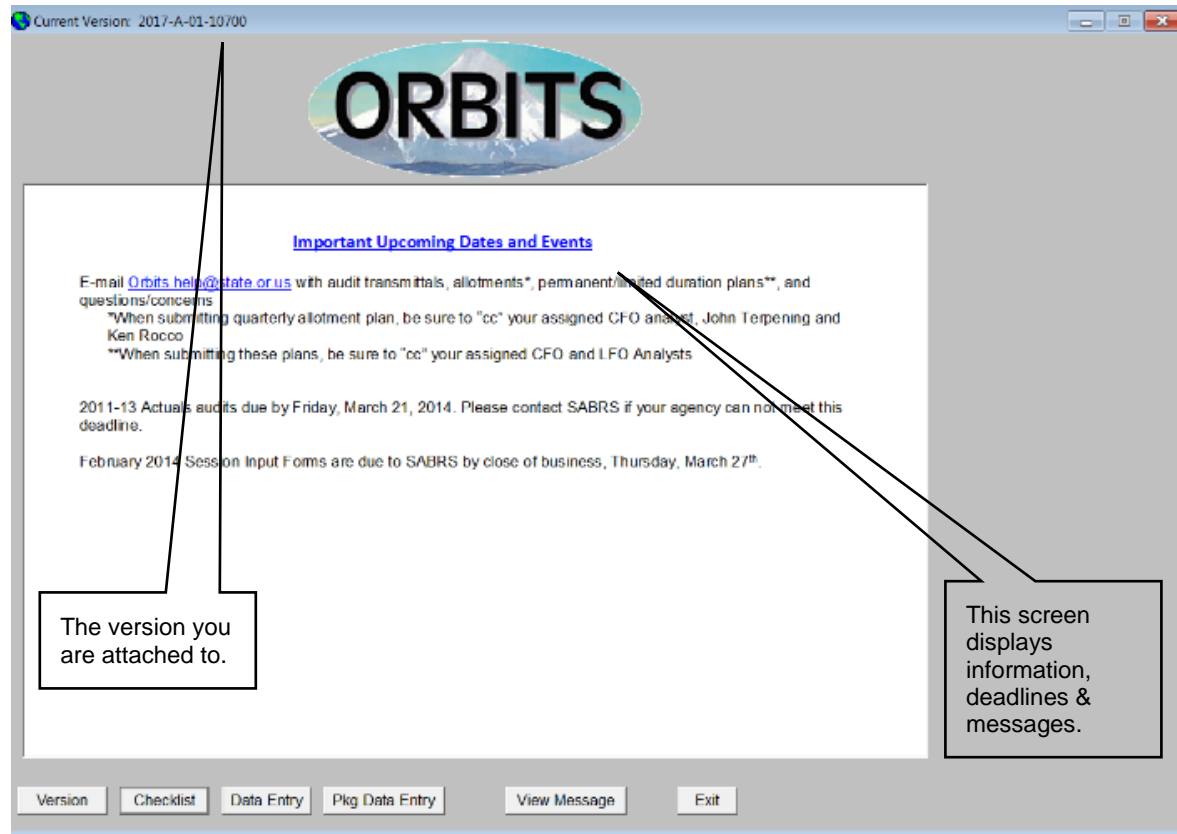

- a. A Popup window (Delete Version) appears. This popup shows the version to be deleted with a final warning message.

5. Click **<OK>**.

Caution: This action is irreversible. When a version is deleted from the Budget table the corresponding records in the Package table are also deleted.

Welcome Screen

System messages, budget related notices and announcements regarding new or improved functions, windows and reports appear on this window. (Only SABRS may update the System Message and save the changes to this window.)

If the user has previously logged in and selected a version (that is still valid) – this is the first window the user is presented with. If the user has never logged in or had been logged into a version that is no longer valid – the Version Control window appears first.

Navigating from this window:

1. Click **<Version>** to navigate to the Version Control window.
2. Click **<Checklist>** to navigate to the Budget Request Checklist.
3. Click **<Data Entry>** to navigate to the Data Entry Window.
4. Click **<Pkg Data Entry>** to navigate to the Package Data Entry Window.
5. Click **<View Message>** to open the System Message.
After clicking **<View Message>**, the system message is opened in Word. This allows users to view the entire message and utilize as a word document, if desired.
6. Click **<Exit>** to close the application.

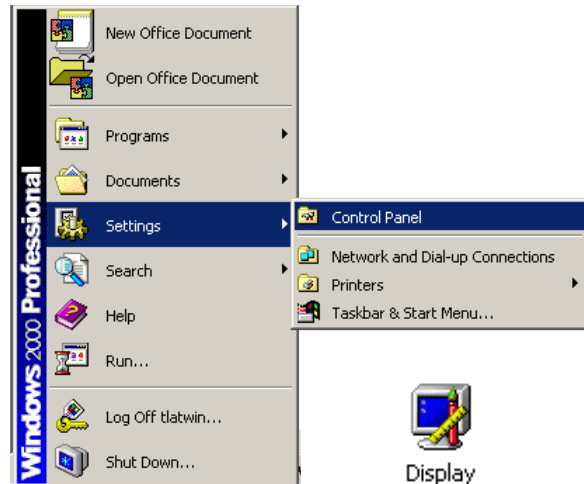

TROUBLESHOOTING

Printing

If a report prints out with a gray or black field, it is caused by the color schemes used for Windows on the machine. Any of the schemes that come with Windows or any that do not use the color palette for customizable colors work correctly with the ORBITS reports.

To Change the Scheme for windows:

1. Click Start → Settings → Control Panel.
2. Double-click on the **Display** icon.
3. Click on the **Appearance** tab.
4. Select a **Scheme** from the drop-down.
5. Click **<OK>**.

‘Hung up’ in a window

If you get ‘hung up’ in a window due to invalid data, clicking **<Undo>** often clears the problem. (This will undo all actions since the last update.)

Window Appearance

If you accidentally change the appearance of a window – don’t panic –close and reopen the window to restore the default settings.

ORBITS Connectivity Issues (Timeout)

Have you ever experienced any of the following error messages while in ORBITS?

- ORA-02396: exceeded maximum idle time, please connect again.
- ORA-01012: not logged on.
- ORA-03114: not connected to ORACLE.
- ORBITS error message “There is no column setup by the current user...”
- You are unable to see your versions on the Version Control Screen?

If you answer ‘yes’ to any of these you have probably experienced the **Time Out** syndrome! For security purposes timeouts are set as follows:

- Citrix – 55 minutes
- Oracle – 60 minutes

Unfortunately, when a time out occurs in the client server environment it won’t “kick you out” of ORBITS the way the mainframe will exit you from ABIS. If the ORBITS application is active on your desktop for 60 minutes and you have not used the application, Oracle will time you out. This will generate the above mentioned error messages but will not “kick you out” of ORBITS because Oracle only controls the data.

Here's a diagram of how your PC, Citrix, ORBITS and Oracle relate to each other.

If you won't be using ORBITS for a few minutes we recommend that you:

- Minimize the ORBITS application.
- Minimize the Citrix NFuse screen.

To use ORBITS after it has been minimized:

- Click on the **ORBITS** button at the bottom of your screen to maximize the application.
- The Citrix server can be left minimized.

If ORBITS is not maximized within 55 minutes the following error message will appear on your screen.

- Press **<OK>** to stay logged on to the ORBITS application.
- If you ignore this message, Citrix will time out and log you off of the ORBITS application. To use the ORBITS application once you have been logged off you will need to follow these steps.
 1. Click on the **Citrix** button at the bottom of the screen to maximize the Citrix server.
 2. Click on the **BAMPROD** icon. This will take you back to the Citrix Login Screen.
 3. Enter your **Username** and **Password** for Citrix.
 4. Click the **Log In** button.
 5. Click on the **BAMPROD** icon again. This will take you to the ORBITS application.
 6. Enter your **User ID** and **Password** for ORBITS.
 7. Click the **OK** button.
