**Statement:** I certify that within 90 days of replacement, the old engine and chassis (where applicable) have been permanently disabled and made available for recycle. Disabling the engine consists of cutting or punching a three inch by three inch (3" x 3") hole in the engine block. Disabling the chassis consists of cutting completely through the frame/frame rails on each side of the vehicle/equipment at a point located between the front and rear axles. Photos of the disabled engine/chassis that are required pursuant to the Terms and Conditions of the DEQ award agreement are attached to this Certificate of Vehicle/Engine Destruction.
