Agenda:

10:30 – Introductions

10:35 – Overview of meeting

10:45 – Issues/potential specific standards for solar PV facilities

Staff will provide a brief overview of each issue followed by RAC discussion. Possible areas for discussion include if RAC members have concerns related to the issue; if the current standards are adequate to address the concerns, and what other measures, if any, are currently taken to address the issue.

- Impacts related to glare from panels and other system components.
- Impacts related to changes in microclimate near solar facilities.
- Other new or previously discussed issues RAC members would like to discuss.

12:00 – Lunch (provided for RAC members)

12:30 – Continuation of issues discussion

2:00 – Public comment

2:25 – Wrap up and next steps
