

ENERGY FACILITY SITING COUNCIL

Radioactive Materials Enforcement Rulemaking Advisory Committee Committee Membership as of 11/07/2022

At its meeting on August 27, 2021, the Energy Facility Siting Council approved the use of a Rules Advisory Committee (RAC) to assist in the development of proposed rules for its Radioactive Waste Materials Rulemaking Project. The RAC will assist in the development of proposed rules by identifying issues, discussing policy alternatives, and providing input on draft rule language. The RAC will also be asked to provide recommendations on whether any proposed rules will have a fiscal impact, what the extent of that impact will be and whether the rules will have a significant adverse impact on small businesses.

The RAC is intended to represent interests that are likely to be affected by the proposed rules. The Energy Facility Siting Council has delegated management of the individuals and organizations approved to participate in the RAC to the Oregon Department of Energy's Nuclear Safety and Emergency Preparedness Division. The list below includes all organizations and representatives on the RAC as of the date indicated above. The list may be updated to include additional organizations as the process moves forward.

Organization	Representative	Email
Association of Oregon Counties	Branden Pursinger	bpursinger@oregoncounties.org
Confederated Tribes of the Umatilla Indian Reservation	Mason Murphy	masonkmurphy@ctuir.org
