1 Oregon Revised Statute (ORS) 469.441 requires the Energy Facility Siting Council (Council) to  
2 periodically establish a schedule of fees to be paid for specified Notices and Requests. Attachment A  
3 to this Order includes that schedule of fees. ORS 469.421 requires a person submitting specified  
4 requests or notices, including those listed in ORS 469.441, to pay all expenses incurred by the Council,  
5 the Oregon Department of Energy (Department) related to the review and decision of the Council.  
6 Payment of the amount listed on the schedule of fees in Attachment A is required at the time that the  
7 notice or request is submitted. If actual costs exceed the fee, excess costs will be itemized with  
8 invoice(s) prepared by the Department. If costs are less than the fee paid, the Department shall  
9 refund the excess.

10  
11 In the case of an Application for a Site Certificate, ORS 469.421(3) requires the Department to  
12 estimate the costs expected to be incurred in processing the application. 25 percent of the total  
13 estimated fee is due at the time of application submittal, and monthly invoices will be issued for actual  
14 expenses. If total costs exceed the estimate, excess costs will be itemized with invoices prepared by  
15 the Department. If costs are less than the fee paid, the Department shall refund the excess.

16  
17 In the case of a Request to Amend a Site Certificate, the Department will issue monthly invoices for  
18 actual costs incurred. The amount will be due upon receipt of each billing statement.

19  
20 With this order, the Council sets the schedule of fees listed in Attachment A to be effective January 1,  
21 2023.
