Oregon Administrative Rule (OAR) 345-021-0010(1)(z) requires proponents to provide information about the cooling tower plume, if the proposed project includes an evaporative cooling tower.

The Nolin Hills Wind Power Project (Project) is exempt from the requirements of OAR 345-021-0010(1)(z), since the Project does not include the development or use of evaporative cooling towers.
