

PUBLIC NOTICE

Stateline Wind Project

Receipt of Preliminary Request for Amendment 7

Summary:

Date Notice Issued: April 27, 2022

Site Certificate Amendment Request: FPL Energy Stateline II, Inc (certificate holder of the Vansycle II Unit at the Stateline Wind Project, or certificate holder) seeks approval from the Energy Facility Siting Council (EFSC or Council) to amend the approved turbine specifications (specifically the minimum above-ground blade tip height and the hub height) for Vansycle II wind turbines, if repowered.

Facility Location: The facility is located in northern Umatilla County, north and east of Helix, Oregon.

Information Only: Please note, this notice is to provide early notification of preliminary Request for Amendment 7 (pRFA7). There is no comment period associated with this phase of the review.

Review Process: Certificate holder requests review under the Type B amendment process, which is being evaluated by Oregon Department of Energy (Department) staff.

Introduction: On April 19, 2022, the Oregon Department of Energy (Department), staff to the Energy Facility Siting Council (EFSC or Council), received preliminary Request for Amendment 7 (pRFA7) for the Stateline Wind Project site certificate. In pRFA7, the certificate holder includes a request that the amendment be processed under Type B review per OAR 345-027-0357(8).

Description of Facility (Approved/In Operation):

The Stateline Wind Project consists of two geographic units. Stateline 1 & 2 (Unit 1) is composed of 186 wind turbines and has a peak generating capacity of up to 123 megawatts (MW). Vansycle II (Unit 2) consists of 45 wind turbines with a peak generating capacity of up to 119 MW. There are two certificate holders for the Stateline Wind Project site certificate, based on the two geographic units of the facility. The certificate holder for Stateline 1 and 2 is FPL Energy Vansycle, LLC (FPL Vansycle); the certificate holder for Vansycle II is

FPL Energy Stateline II, Inc. (FPL Stateline), both of which are wholly-owned subsidiaries of NextEra Energy Resources, LLC (NEER) (certificate holder owner).

Description of Amendment Request: pRFA7 seeks Council approval to amend the approved turbine specifications for the Vansycle II wind turbines, if repowered. The certificate holder indicates in pRFA7 that further refinement of design and associated engineering resulted in a proposed repowered configuration that would require a decrease in minimum above-ground blade tip height (from 59 to 50 feet), and an increase in hub height (from 295 to 315 feet). An amendment to Condition 137(a) and (c) of the current site certificate would be required if the proposed change in turbine specifications is approved by Council.

Facility Location: The approved facility is located in northern Umatilla County, north and east of Helix, Oregon, as presented in Figure 1, *Stateline Wind Project: Vansycle II Unit Regional Location*. The communities closest to the facility include City of Helix, Oregon, and Touchet, Washington. The site boundary is located within northern Umatilla County, approximately 20 miles north of the city of Pendleton and Interstate I-84 and east of the Town of Milton-Freewater and State Highway 11. A map of the facility and site boundary are included at the end of this notice. Specific locational maps can be found at:

<https://www.oregon.gov/energy/facilities-safety/facilities/Pages/SWP.aspx>

and on ODOE's online mapping tool:

<https://tinyurl.com/EFSCmap>.

Current and Next Review Phase: The current preliminary request for amendment phase consists of staff reviewing the request to ensure there is information adequate for Council to make findings or impose conditions on all applicable Council standards. Once the amendment request is determined complete by staff, staff will issue a Public Notice and Draft Proposed Order (initial staff recommendation), notifying members of the public of a comment period.

If staff determines that the Type A review process should be maintained, there will be a public hearing in front of Council in the vicinity of the facility and the comment period will conclude at the close of the hearing. If staff determines Type B review process is justified, the comment period will be a written comment period only and will conclude on the date indicated in the Draft Proposed Order Public Notice.

Receipt of this Notice:

Please note that you may be receiving this notice for multiple reasons:

1. You own property within or adjacent to (within 500 feet) the property which is the subject of this amendment request. You will automatically receive all future notices on this facility.
2. You have requested to receive paper notices on the Stateline Wind Project. If you wish to be removed from this mailing list, please contact Chase McVeigh-Walker.
3. You have previously signed up via GovDelivery/ClickDimensions or by contacting the Department to receive notices related to Stateline Wind Project or all Council project-related notices. You will automatically receive all future notices per your request, unless you unsubscribe via ClickDimensions or by contacting Department.

More Information:

Please contact Chase McVeigh-Walker, Senior Siting Analyst, at the phone, email address or mailing address listed in this notice.

More information about the facility and updates on the review process is available using any of the following options.

1) Oregon Department of Energy’s webpage:

More details on Stateline Wind Project including the certificate holder’s pRFA7 are available online at:

<https://www.oregon.gov/energy/facilities-safety/facilities/Pages/SWP.aspx>

Additional resources to help you participate in the state siting process can be found at:

<http://www.oregon.gov/energy/facilities-safety/facilities/pages/default.aspx>

2) Updates by email/mail:

Subscribe to ClickDimensions, a self-managed, automated email system that sends notices and updates on the Stateline Wind Project as well as any or all other energy facilities and events under Council jurisdiction. For more information, please visit: <https://tinyurl.com/ODOE-EFSC>.

To receive notices by U.S. Mail, please contact Chase McVeigh-Walker.

3) In hardcopy:

Hard copies of pRFA7 and the Type B Review Amendment Determination Request are available for public inspection at the following location at no cost. Hard copies will be provided at reasonable cost upon request to the Department.

Oregon Department of Energy
550 Capitol Street NE Salem, OR 97301

Please contact Chase McVeigh-Walker if you wish to arrange a time to review hard copies. Hard copies will be provided at reasonable cost upon request to the Department.

Accessibility information:

The Oregon Department of Energy is committed to accommodating people with disabilities. If you require any special physical or language accommodations, or need information in an alternate format, please contact Nancy Hatch at 503-428-7905, toll-free in Oregon at 800-221-8035, or email to nancy.hatch@energy.oregon.gov.
