

## OREGON OCEAN RESOURCES MANAGEMENT

**196.405 Definitions for ORS 196.405 to 196.515.** As used in ORS 196.405 to 196.515, unless the context requires otherwise:

- (1) “Council” means the council established in ORS 196.438.
- (2) “Exclusive Economic Zone” has the meaning set forth in Proc. 5030 whereby the United States proclaimed jurisdiction over the resources of the ocean within 200 miles of the coastline.
- (3) “Panel” means a project review panel established under ORS 196.453.
- (4) “Plan” means the Oregon Ocean Resources Management Plan.
- (5) “Territorial sea” means the waters and seabed extending three geographical miles seaward from the coastline in conformance with federal law.
- (6) “Territorial Sea Plan” means the plan for Oregon’s territorial sea. [1987 c.576 §6; 1991 c.501 §2; 2003 c.744 §1]

**196.407 Policy.** It is the policy of this state to:

- (1) Work with the States of Washington and California to explore the possibility of development of communication information systems including a computerized system of coastal and marine resource information.
- (2) Work with the States of Washington and California to develop compatible programs of ocean oil spill response, damage assessment and compensation.
- (3) Cooperate and coordinate with adjacent states to develop a regional approach to obtaining fisheries information. [1989 c.895 §2; 2003 c.744 §2]

**196.408 Duties of state agencies.** (1) State agencies shall, to the maximum extent practicable, coordinate development of coastal and ocean information systems with those in adjacent states.

- (2) State agencies with responsibility for oil spill and hazardous material response, damage assessment and compensation in the marine environment shall, to the maximum

extent practicable, coordinate Oregon's plans, programs, policies and techniques with those of adjacent states.

(3) State agencies which have jurisdiction over water areas, the seabed and resources adjacent to offshore rocks and islands may coordinate with adjacent states and federal agencies to develop programs and regulations to manage uses and activities of ocean areas adjacent to coastal cliffs and offshore rocks and islands managed within the National Wildlife Refuge System.

(4) The State Department of Fish and Wildlife may coordinate with fishery managers in adjacent states to develop a uniform fish catch and monitoring system. [1989 c.895 §3; 2003 c.744 §3]

**196.410 Legislative findings for offshore oil and gas leasing.** The Legislative Assembly finds:

(1) Oregon's territorial sea encompasses all the rocks and islands of the Oregon National Wildlife Refuge, borders all beaches, headlands and rocky intertidal areas and includes areas heavily used for commercial and recreational fishing. Navigation lanes for barges and vessels pass through the area.

(2) Oregon's territorial sea is rich in marine life. Its renewable resources support significant portions of the coastal economy. It is a dynamic, hazardous marine environment within which oil spills cannot be contained.

(3) Oregon's nearshore zone is extremely high in biological productivity, reflected by the variety and value of commercial and sport ocean fisheries catch. The Oregon coast provides a significant habitat for migrating seabirds and mammals. Oregon is unwilling to risk damaging sensitive marine environments or to sacrifice environmental quality to develop offshore oil and gas resources. [1989 c.895 §4]

**196.415 Legislative findings for ocean resources management.** The Legislative Assembly finds that:

(1) The Pacific Ocean and its many resources are of environmental, economic, aesthetic, recreational, social and historic importance to the people of this state.

(2) Exploration, development and production of ocean resources likely to result from both federal agency programs in federal waters of the outer continental shelf and initiatives of private companies within state waters will increase the chance of conflicting demands on ocean resources for food, energy and minerals, as well as waste disposal and assimilation, and may jeopardize ocean resources and values of importance to this state.

(3) The fluid, dynamic nature of the ocean and the migration of many of its living resources beyond state boundaries extend the ocean management interests of this state beyond the three geographic mile territorial sea currently managed by the state pursuant to the federal Submerged Lands Act.

(4) Existing federal laws, the Coastal Zone Management Act of 1972, the Coastal Zone Act Reauthorization Amendments of 1990, the Magnuson Fisheries Management and Conservation Act of 1976, as amended, and the Outer Continental Shelf Lands Act of 1978, recognize the interests of coastal states in management of ocean resources in federal waters and provide for state participation in ocean resources management decisions. The Coastal Zone Act Reauthorization Amendments of 1990 require that all federal coastal activities affecting natural resources, land uses and water uses in the coastal zone must be consistent with the federally approved Oregon Coastal Management Program.

(5) The 1983 Proclamation of the 200-mile United States Exclusive Economic Zone has created an opportunity for all coastal states to more fully exercise and assert their responsibilities pertaining to the protection, conservation and development of ocean resources under United States jurisdiction.

(6) It is important that the State of Oregon develop and maintain a program of ocean resources management to promote management of living and nonliving marine resources within state jurisdiction, to insure effective participation in federal agency planning and management of ocean resources and uses which may affect this state, and to coordinate state agency management of ocean resources with local government management of coastal shorelands and resources.

(7) While much is known about the ocean, its composition, characteristics and resources, additional study and research is required to gain information and understanding necessary for sound ocean planning and management. [1987 c.576 §3; 1991 c.501 §3; 2003 c.744 §4]

**196.420 Policy.** It is the policy of the State of Oregon to:

(1) Conserve the long-term values, benefits and natural resources of the ocean both within the state and beyond by giving clear priority to the proper management and protection of renewable resources over nonrenewable resources;

(2) Encourage ocean resources development which is environmentally sound and economically beneficial to adjacent local governments and to the state;

(3) Assert the interests of this state as a partner with federal agencies in the sound management of the ocean resources within the United States Exclusive Economic Zone and on the continental shelf;

(4) Encourage research, study and understanding of ocean processes, marine life and other ocean resources;

(5) Encourage research and development of new, innovative marine technologies to study and utilize ocean resources; and

(6) Ensure that the Ocean Policy Advisory Council will work closely with coastal local governments to incorporate in its activities coastal local government and resident concerns, coastal economic sustainability and expertise of coastal residents. [1987 c.576 §4; 1991 c.501 §4; 2003 c.744 §5]

**196.425 Oregon Ocean Resources Management Program.** To ensure the conservation and development of ocean resources affecting Oregon consistent with the purposes of ORS 196.405 to 196.515, a program of ocean resource planning and management is established. This program shall be known as the Oregon Ocean Resources Management Program and is part of Oregon's coastal management program. The Oregon Ocean Resources Management Program consists of:

(2) The Ocean Policy Advisory Council or its successor;

(3) Those portions of the Oregon Ocean Resources Management Plan that are consistent with ORS 196.405 to 196.515; and

(2) The provisions of ORS 196.405 to 196.515 do not change statutorily and constitutionally mandated responsibilities of other state agencies.

(3) ORS 196.405 to 196.515 do not provide the Land Conservation and Development Commission with authority to adopt specific regulation of ocean resources or ocean uses. [1987 c.576 §7; 1989 c.325 §1; 1991 c.501 §21; 2003 c.744 §7]
