How Are We Doing

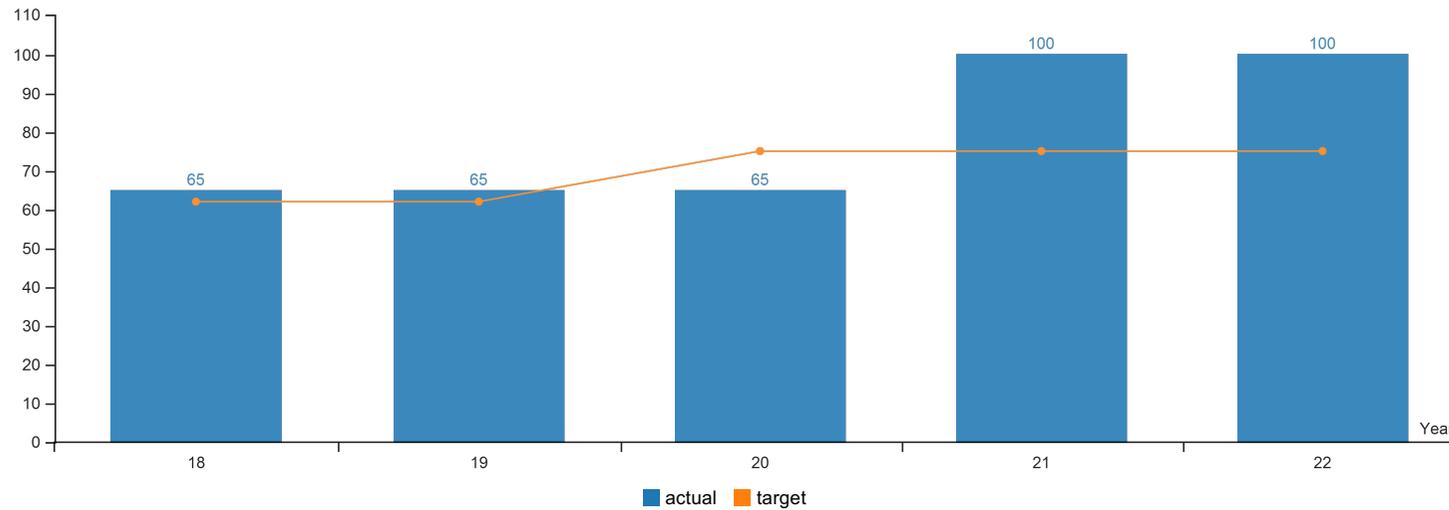

The OBMI went live with a new database in 2021 that is increasing our productivity and decreasing our licensure process time. All licensure procedures are completed without paper and fully on line.

Factors Affecting Results

The OBMI processes 100% of applications that are submitted within five days, provided all required documents are accurate and complete with the application. If required documentation is not provided, we attempt to contact the applicant by telephone or email and indicate information that is missing from the application which is often criminal background or education documentation. For initial license applications, we must submit fingerprints to the Oregon State Police (OSP) for a background check. When we receive an initial license application, we immediately release the fingerprints (electronically) to the OSP. The OSP turn-around time for results can take an average of fourteen days and during these past two years, turn around time was a month or more in many cases. We accommodated by passing an Administrative rule that provided an expedited process. Results are delivered electronically through a web-based program. For initial licenses, the Board's application process effectively begins not when we receive the application, but when we receive the background check from the OSP.

How Are We Doing

As of January 1, 2021, OBMI instituted a new and completely online Self-Service Portal. While this new system is working very efficiently, there were a few IT problems that have caused some applicants delays and application issues; however all of those problems have been resolved. We have detailed information on our website on how to navigate the Portal and all renewal applicants are sent multiple automated renewal email reminders.

Factors Affecting Results

Some existing License and Permit holders, in the early stages of the roll-out, had difficulty navigating and were frustrated. We have re-doubled our efforts to accommodate more help for those people. All of the IT issues have been resolved.
