OVIS
OREGON VETERINARIAN INFORMATION SYSTEM

An online application for the creation of electronic Certificates of Veterinary Inspection

The OVIS online app created by the Oregon Department of Agriculture is available free of charge for use by accredited veterinarians. The app is available for use online at https://oda.direct/OVIS. Help videos and additional materials are available at https://oda.direct/OVISHelp

Advantages of using OVIS:

- Create electronic documents that can be emailed to clients, attached to client profiles or printed out
- No need to send in paper documents. Electronic copies are automatically sent to ODA
- Easily upload animal information. This can include excel lists of official identification for livestock and images of horse

Get Started:

1. Create an account
- Go online to https://oda.direct/OVIS
  - OVIS supports, Chrome, Edge, Internet Explorer and Safari browsers
- Each accredited veterinarian must create an account for his or her own use

2. Wait for approval
- The Oregon State Veterinarian's office will approve accounts within 1-2 business days

3. Create authorized users
- Authorized users can use OVIS on the veterinarian's behalf but are unable to e-sign certificates or testing reports.

4. Use OVIS
- Using OVIS, veterinarians can create:
  - Small & Large Animal Certificates of Veterinary Inspection
  - Brucellosis Vaccination Records
  - Tuberculosis Test Records
  - Official Identification Reports
  - Equine Infectious Anemia and Brucellosis Lab Test Records
  - Veterinarian Supply Orders
