Background

Oregon's state forests provide habitat for a variety of species, including some listed as endangered or threatened under the federal Endangered Species Act. An HCP can serve as a more holistic and cost-effective way to comply with the Endangered Species Act. The Board of Forestry has directed the ODF to consider an HCP. ODF is currently developing the HCP, in collaboration with technical and policy guidance from other state and federal agencies. ODF is also seeking stakeholder engagement in this process.

Meeting Purpose

- Hear updates on the development of the draft HCP
- Hear and discuss updates on the HCP Conservation Strategy
- Learn about the information that will be presented to the Board of Forestry in October to help the Board make a decision whether to move forward with an HCP
