A pair of decals will be issued for each IFTA-qualified vehicle. Application instructions are printed on the back of the decal.

Remember that a photocopy of the IFTA License or a legible electronic copy must be carried in each vehicle.

TO OBTAIN ADDITIONAL OREGON IFTA DECALS

Complete the form on the reverse side of this page using the fee chart provided. Your IFTA License fee is determined by the maximum number of IFTA-qualified vehicles operated in your fleet during the calendar year.

You will need to pay the difference between the IFTA License fee you previously paid and the IFTA License fee for the number of vehicles you now operate. Refunds are not given based on the length of operations or for a decrease in the size of your fleet.

Example Fee Calculation:

You previously paid an IFTA License fee of \$400 for 9 vehicles and you are now adding 2 more vehicles. The IFTA License fee for 11 vehicles is \$430 for the current year.

\$430	IFTA License fee for 11 vehicles
- \$400	IFTA License fee <i>previously paid</i> for 9 vehicles
= \$ 30	IFTA License fee <u>due</u> with form

IF YOU QUALIFY FOR THE FARM RATE

The IFTA License Farm Rate is an annual flat rate fee. No additional fee is due if you have paid this fee for the current calendar year and **more than half** of your IFTA-qualified vehicles are Oregon farm-plated.

If more than half of your IFTA-qualified vehicles are not farm-plated, you no longer qualify for the Farm Rate. Use the form on the other side of this page and enclose the difference between the fee for the total number of IFTA-qualified vehicles you now operate, and the \$50 IFTA License Farm Rate fee you previously paid. IFTA License fees will not be refunded regardless of the number of vehicles that may become farm-plated later this year.

Your qualification for the Farm Rate may be verified at any time. You will be charged additional IFTA License fees based on the total number of IFTA-qualified vehicles you operated if we find that you do not qualify for the Farm Rate.

WHAT IS AN IFTA-QUALIFIED VEHICLE

An IFTA-qualified vehicle is used, designed or maintained for transportation of persons or property and is one of the following:

- A power unit having two axles and a gross vehicle weight or registered gross vehicle weight exceeding 26,000 pounds,
- A power unit having three or more axles regardless of weight; or
- A power unit used in combination when the weight of such combination exceeds 26,000 pounds gross vehicle weight or registered gross vehicle weight. If a vehicle qualifies in combination, all operations must be reported for the license year.
