INSTRUCTIONS

Effective January 1, 2023, Motor carriers located in the Clackamas, Multnomah and Washington counties with a medium-and/or heavy-duty vehicle powered by a 1996 or older diesel engine will not be able to renew or register their vehicle unless equipped with approved retrofit technology certified by Oregon Department of Environmental Quality (DEQ) or qualifies for one of the exemptions.

This form is to be completed when applying for Diesel Retrofit Compliance vehicle exemption per HB 2007 (2019) prior to the 2023 registration or renewal.

Enter your ACCOUNT NUMBER, BUSINESS NAME, TELEPHONE NUMBER, and complete ADDRESS. If you do not have a file number, this form must be accompanied by an APPLICATION FOR MOTOR CARRIER PERMIT, ODOT FORM 735-9075.

For more than five vehicles, you may attach a list that follows the same format and includes the same information. Failure to do so may delay your application.

Vehicle Information

In order for each power unit to be considered for vehicle exemption, carriers are required to provide all information requested on this form. PLEASE TYPE OR WRITE CLEARLY. Please provide the COMPLETE vehicle identification number. The codes listed below must be used when indicating vehicle body style, fuel type, and vehicle make. Be sure to select your vehicle exemption reason, the definitions of which can be found below. A "fillable" version of this form (ready to be completed on-screen and printed on a local printer) is available on the internet at: <https://www.oregon.gov/ODOT/MCT/Pages/FormsandTables.aspx>

Exemption is valid when the license plate that is exempt is attached to the vehicle. If a license plate has not yet been placed on a vehicle and the vehicle will operate in Oregon, ODOT can issue a Temporary Enrollment Document. To obtain a Temporary Enrollment Document write "**Issue Temp**" in the Base License No box. After a license plate has been issued and placed on the vehicle, you must contact ODOT CCD to finalize your vehicle(s) exemption status. The Temporary Enrollment Document is not valid if the vehicle is displaying a license plate.

Exemption Information

1. Motor vehicles registered as farm vehicles under the provisions of ORS 805.300;
2. Motor vehicles used exclusively as training vehicles;
3. Heavy-duty trucks operated for 5,000 miles or fewer on Oregon highways during one calendar year;
4. Carriers with a fleet size of five or fewer heavy-duty trucks;
5. Motor trucks used primarily to transport logs, as defined in ORS 801.355;
6. Engine newer than 1996

Vehicle Exemption Amendment

Should your vehicle eligibility change, you are required to notify CCD prior to renewing your registration for the next calendar year.

Signature

The application must be signed by the owner, partners, a corporate officer, a manager/ member of a limited liability company (LLC), the general partners in a limited liability partnership, a partner in a limited liability partnership, or an agent with accompanying power of attorney.
