

# Oregon CIE Maps: Status of sponsored efforts March 2023

Community information exchange (CIE) efforts are developing across Oregon, largely sponsored by Medicaid coordinated care organizations (CCOs), health systems, and health plans. Community partners, including CBOs, clinics, local public health departments (LPHAs), and others participate in these efforts throughout the state. There are two main CIE efforts in Oregon —Connect Oregon (powered by Unite Us) and findhelp (formerly Aunt Bertha, also known locally as Health Klamath Connect).

Connect Oregon (powered by Unite Us)

findhelp (formerly Aunt Bertha)

These maps do not reflect level of CIE adoption by organizations. At this time, OHA is not a participant in CIE.
