<sup>2</sup> Abortion estimates are based on reports for Oregon residents whether occurring in Oregon or another state. For years prior to 1985 (and in 1986-1987) abortion estimates were based on Oregon occurrences only, but included abortions obtained by out-of-state residents. Because some neighboring states do not report abortions to the state of residence (especially California), this results in minimal estimates for both abortions and pregnancies.

All rates are per 1,000 females.

<sup>1</sup> Pregnancy estimates are based on the total number of births and abortions. See also footnote (2) below regarding changes in estimating abortions.

<sup>2</sup> Abortion estimates are based on reports for Oregon residents whether occurring in Oregon or another state. For years prior to 1985 (and in 1986-1987) abortion estimates were based on Oregon occurrences only, but included abortions obtained by out-of-state residents. Because some neighboring states do not report abortions to the state of residence (especially California), this results in minimal estimates for both abortions and pregnancies.

<sup>3</sup> Percentage of pregnancies resulting in a live birth.

All rates are per 1,000 females.

<sup>1</sup> All rates per 1,000 females.  
<sup>2</sup> Total includes 111 pregnancies where county of residence was unknown.  
 § Pregnancy rate is significantly different from the state.  
 \* Detailed reporting of small numbers may breach confidentiality.

WARNING: Rates based on less than five events are unreliable.  
 NOTE: Includes births and reported abortions including those obtained out-of-state by Oregon residents. Because some states (e.g., California) do not record data on residence for abortion patients, not all out-of-state abortions are included.

— Quantity is zero.  
<sup>1</sup> All rates per 1,000 females.  
<sup>2</sup> Total includes 111 abortions where county of residence was unknown.  
 § Abortion rate is significantly different from the state.  
 \* Detailed reporting of small numbers may breach confidentiality.

WARNING: Rates based on less than five events are unreliable.  
 NOTE: Includes abortions obtained out-of-state by Oregon residents. Because some states (e.g., California) do not record data on residence for abortion patients, not all out-of-state abortions are included.

 1 The subtotals of an age group may not add to the total for that age group because of unstated characteristics such as marital status or race/ethnicity.  
 2 All rates per 1,000 births.  
 3 Less than five prenatal visits or care began in the third trimester.  
 4 Includes Asian, Native Hawaiian and Pacific Islander.  
 5 Includes any race.

WARNING: Rates based on less than five events are unreliable.  
 NOTE: Rates and percentages are calculated excluding missing and unknown values.
