¹ The tenth revision of the International Classification of Disease (ICD-10) does not distinguish between the types of firearms involved in legal intervention deaths. Although handguns were used in nearly all such deaths, they are not included here.

² Legal intervention is the intentional or unintentional death of a person resulting from the actions of a law enforcement agent. This figure may not include all such deaths, if the certifying medical examiner failed to note (on the death certificate) the involvement of a law enforcement agent.

³ Includes Chinese, Filipino, Japanese, Korean, Vietnamese and Other Asian.

⁴ Includes Guamanian, Hawaiian, Samoan and Other Pacific Islander etc...

⁵ Hispanics may be of any race. Therefore, Hispanics are included in the race totals (e.g., White, Indian); most were white. The category 'Hispanic' sums Hispanic decedents in all race categories.

⁶ The ICD-10, unlike ICD-9, does not distinguish between rifles, shotguns, and military (assault) weapons.

⁷ Because the ICD-10 does not include codes for the specific types of guns involved in legal intervention deaths, all such deaths are included here. However, nearly all legal intervention gunshot deaths involve handguns.

* Some categories are suppressed due to confidentiality.

— Quantity is zero.
