OAR 333-150-0000, CUTUBKA 4-603.17

(A) Marka laga reebo sida ku cad 111 (B) iyo (C) ee qaybtaan, weelasha maran ee lasoo celiyay ee loogu tala galay nadiifinta iyo dib uga buuxinta cuntada waa in lagu nadiifiyaa dibna loogu buuxiyaa shirkad cuntada diyaarisa oo sharciyaysan. ^P

(B) Weelka cuntada gaarka ah loogu tala galay ee cabitaanada waxaa lagu buuxin karaa mar labaad goobta cuntada haddii:

(1) Qaabka weelka iyo qalabka biyoraacinta iyo nooca cabitaanka, marka dhammaantood si wadajir ah loo tixgaliyo, waxay keenayaan nadiifin waxtar leh oo guriga ah ama goobta cuntada;

(2) Goobaha biyoraacinta kahor inta aan mar labaad la buuxin weelasha lasoo celiyay ayada oo la adeegsanayo biyo nadiif ah, oo kulul kuwaas oo cadaadis isticmaalaya dibna aan usoo laabanayn ayaa la keenayaa taasoo qayb ka ah hannaanka qaybinta;

(3) Weelka isticmaaluhu leeyahay ee lagu soo celinayo goobta cuntada si dib loogu buuxiyo waxaa loo buuxinayaa si looga iibiyo ama loogu adeego kaliya isla isticmaalahaas; oo

(4) Weelkana waxaa dib ugu buuxinaya:

(a) Shaqaale ka tirsan goobta cuntada, ama

(b) Mulkiilaha weelka haddii hannaanka cabitaanka uu ku jiro hanaan wareejin oo wasakhda ka fog kaasoo uusan mulkiilaha weelku gudbin karin.

(c) Weelasha isticmaaleyaashu leeyihiin kuwaas oo aan cunto gaar ah ahayn waxaa laga buuxin karaa mashiin ama hannaan biyaha lagu iibiyo.

SABABAHA LA XIRIIRA CAAFIMAADKA BULSHADA:

Dib u buuxinta weelasha isticmaaluhu leeyahay ee cabitaanka waxay keenaan suurgalnimo ah wasakhawga qalabka ama shayga lagu buuxinayo taasoo ka imaanaysa weelasha sida aan saxda ahayn loo nadiifiyo ama howsha aan saxda ahayn ee qalabka. Si looga hortago wasakhawgaan iyo khataraha caafimaadka ee imaan kara ee isticmaalaha, dib u buuxinta weelasha isticmaaluhu leeyahay waxay ku kooban tahay cabitaanada aan khatarta keeni karin. Qalabka waa in loo naqshadeeyaa qaab ay uga hortagayaan wasakhawga qalabka waana in qaabab la keeno si loo nadiifiyo weelasha goobta yaala.

Alaabta dib loo buuxiyo ee Growler

Growler waa weel ama haan dib loo buuxin karo kaasoo khamriga tuubada lagu shubo gurigana loo qaato si loogu isticmaalo. Growler sida caadiga ah waa weelal dhalooyin ama biro ah waxayna qaadaan ilaa 64 wiiqadood oo khamri ah, wine, hard cider ama Kombucha.

Ayada oo ay jirto caanimada sii kordhaysa ee dib u buuxinta growler haddana waxaa jira khatar kordhaysa oo ku saabsan isugudbinta wasakhda.

Maadaama growlers-ka loo qaato guriga isticmaalaha, ma jirto damaanad ku saabsan in si sax ah loo nadiifiyay kahor inta aan dib u buuxinta loo soo celin.

Sharciiga Fayadhowrka Cuntada waxa uu shardi ka dhigaa hannaan wareejin "ka fog wasakhawga" ee cabitaanada, si growlers-ka dib loogu buuxiyo ayada oo aysan wax istaabasho ah aysan jirin oo u dhexeeya tuubada iyo haanta.

Inta badan growlers-ka waxaa laga buuxiyaa ayada oo la adeegsanayo tuubada buuxinta growler-ka taasoo u ogolaanaysa khamriga in laga buuxiyo ayada oo laga keenayo weelka salkiisa si loo yareeyo xunbada loona dedejiyo hannaanka buuxinta. Maadaama isticmaalka tuubada buuxinta ay u ogolaan karto wasakhda ka imaanaysa haanta in loo wareejiyo kan ku xiga, waa in la badalaa ama la dhaqaa, la biyoraaciyaa lana nadiifiyaa inta u dhexaysa markasta oo la isticmaalayo.

Dib u buuxinta kaddib, qaybaha kore ee growlers-ka la buuxiyay waa in lagu tirtiraa maro tirtire ah taasoo lagu kaydiyay milan nadiifiye ah.

Talooyinka:

- Diiradda saar gacmadhaqashada saxda ah kaddib marka aad gacanta ku qabato weelka isticmaalaha

- Haddii aad ka faa'iidayaanayso tuubooyinka buuxinta, hayso tuubooyin badan oo kayd ah (oo kuugu filan xiliga aad ugu mashquulka badan tahay) kuwaas oo u diyaarsan in aad isticmaasho
- Sii wad in aad isku badasho tuubooyinka nadiifka ah ee jeermiska laga diley buuxin walba

Aqbal kaliya growlers-ka nadiifka ah oo biyo raaci kahor inta aadan dib u buuxin

- Haddii aad biyoraacinayso growlers-ka macmiilka, u qoondee qasabad gaar ah howshaan kaliya (lama rabo qasabadda gacmaha lagu dhaqdo)
- Ka fogow taabashada dhalooyinka nadiifka ah iyo qalabka growlers-ka lasoo ceshay marka aad maamulayso aadna buuxinayso
- Howlaha ismaamulidda isticmaalaha, qasabadda biyoraacinta waa in la rakibaa (biyo qabow waa la aqbali karaa) ku shaqeyuhuna waa in uu balan qaadaa hanaan wasakh ka fog inta lagu jiro dib u buuxinta.

Way ku mahadsan yihiin Deschutes County Environmental Health ka qaybqaadashadooda wax ku oolka ah ee waraaqaan xaqiiqooyinka.
