

Basic Health Program Blueprint

Introduction

Section 1331(a) of the Affordable Care Act directs the Secretary to establish a Basic Health Program (BHP) that provides a new option for states to offer health coverage for individuals with family incomes between 133 and 200 percent of the federal poverty level (FPL) and for individuals from 0-200 percent FPL who are lawfully present in the United States but do not qualify for Medicaid due to their immigration status. This coverage is in lieu of Marketplace coverage.

States choosing to operate a BHP must submit this BHP Blueprint as an official request for certification of the program.

States operating a BHP enter into contracts to provide standard health plan coverage to eligible individuals. Eligible individuals in such a state could enroll in BHP coverage and would not have access to coverage through the Health Insurance Marketplace. The amount of the monthly premium and cost sharing charged to eligible individuals enrolled in a BHP may not exceed the amount of the monthly premium and cost sharing that an eligible individual would have paid if he or she were to receive coverage from a qualified health plan (QHP) through the Marketplace. A state that opens a BHP will receive federal funding equal to 95 percent of the premium tax credit (PTC) and the cost-sharing reductions (CSR) that would have been provided to (or on behalf of) eligible individuals, using a methodology set forth in a separate funding protocol based on a methodology set forth in companion rulemaking.

Given the population served under BHP, the program will sit between Medicaid and the Marketplace, and while states will have significant flexibility in how to establish a BHP, the program must fit within this broader construct and be coordinated with other insurance affordability programs. Regulations for the BHP were finalized on March 12, 2014 and are available at <https://www.medicaid.gov/basic-health-program/index.html>.

The BHP Blueprint is intended to collect the design choices of the state and ensure that we have a full understanding of the operations and management of the program and its compliance with the federal rules; it is not intended to duplicate information that we have collected through state applications for other insurance affordability programs. In the event that a State seeks to make a significant change(s) that alter program operations described in the certified Blueprint, the state must submit a revised Blueprint to the Secretary for review and certification.

The BHP Blueprint sections reflect the final rule that codified program establishment standards, eligibility and enrollment, benefits, delivery of health care services, transfer of funds to participating states, and Secretarial oversight relating to BHP.

Acronyms List

BHP	Basic Health Program
CHIP	Children's Health Insurance Program
CSR	Cost Sharing Reduction
ESI	Employer Sponsored Insurance
EHB	Essential Health Benefits
FPL	Federal Poverty Level
IAP	Insurance Affordability Program
MEC	Minimum Essential Coverage
OMB	Office of Management and Budget
PTC	Premium Tax Credit
QHP	Qualified Health Plan
SHP	Standard Health Plan

Section 2: Public Input

TO BE COMPLETED FOLLOWING PUBLIC INPUT

This section of the Blueprint records the state’s method for meeting the public comment process required for Blueprint submission. This section applies only to the current Blueprint submission.

Date public comment period opened: Select date

Date public comment period closed: Select date

Please describe the public comment process used in your state, such as public meetings, legislative sessions/hearing, the use of electronic listservs, etc.:

Provide a list below of the groups/individuals that provided public comment:

If the state has federally recognized tribes, list them below. Provide an assurance that they were offered consultation and note if comments were received.

Federally Recognized Tribes in Oregon	State agency solicited input (Indicate with an “X” if input was solicited)	Input received (Indicate with an “X” if input was solicited)
Burns Paiute Tribe	<input type="checkbox"/>	<input type="checkbox"/>
Confederated Tribes of Coos, Lower Umpqua and Siuslaw Indians	<input type="checkbox"/>	<input type="checkbox"/>
Confederated Tribes of Grand Ronde	<input type="checkbox"/>	<input type="checkbox"/>

Cow Creek Band of Umpqua Tribe of Indians	<input type="checkbox"/>	<input type="checkbox"/>
Klamath Tribes	<input type="checkbox"/>	<input type="checkbox"/>

Provide a brief summary of public comments received and the changes made, if any, in response to public comments:

Section 3: Trust Fund

Please provide the BHP Trust Fund location and relevant account information.

Similar to our accounting of other federal funds, and consistent with state law, the BHP funds will be contained in a separate and distinct fund that rolls up to the state's appropriated fund 6400 (the state's legislatively mandated segregation of funds based on the source of revenue – for this purpose federal funds) as well as a separate grant. Funds will be deposited and expended out of the agency's treasury account listed and named below.

Additional expenditure and revenue codes will be established in order to meet the requirements of OMB A-87, A-133, and 45 C.F.R. Part 75. The BHP funding will be segregated within its distinct fund and would not be comingled with other funding.

CMS Primary Contact Name: Click or tap here to enter text.

CMS Primary Contact Phone: Click or tap here to enter text.

CMS Primary Contact Email: Click or tap here to enter text.

Please describe the process of appointing trustees:

The named appointees are assigned as trustees on the basis of their current positions within OHA. Based on existing procedures and the way the state oversees all financials, including federal funds, the appropriate lead fiscal representatives were named as Trustees for the BHP Fund. This allows the state to follow the same procedures, review, and oversight as is conducted for other state related business.

Provide a list of all responsibilities of Trustees:

The Trustees are assigned based on their current positions within OHA. The Trustees all go through extensive review, interviews, and minimum qualification assessments prior to being hired into their positions. Therefore, all Trustees listed have significant financial responsibility within the state and have the qualifications to make decisions related to this matter. Trustees provide oversight to ensure that all fund expenditures are made in an allowable manner. In addition, trustees will specify individuals with authority to make withdrawals from the fund to make allowable expenditures.

Has the state made any arrangements to insure or indemnify trustees against claims for breaches of fiduciary responsibility?

Yes

If yes, what are they?

Because the Trustees are appointed based on their current employment positions within OHA, they are indemnified against claims of breaches in fiduciary responsibility under Oregon Statutes 30.285.

Attestation	Completed (Indicate with an "X" to signal completion)	If No, Expected Completion Date (mm/dd/yyyy)	Marketplace Policy (Indicate with an "X" if Marketplace Policy applies)	Medicaid Policy (Indicate with an "X" if Medicaid Policy applies)
Eligibility Determinations and Enrollment				
320(c) Indicate the standard used to determine the effective date for eligibility.	<input type="checkbox"/>	4/1/2024	<input type="checkbox"/>	<input checked="" type="checkbox"/>
320(d) Indicate the enrollment policy used in BHP (the open and special enrollment periods of the Exchange OR the continuous enrollment process of Medicaid).	<input type="checkbox"/>	4/1/2024	<input type="checkbox"/>	<input checked="" type="checkbox"/>
335(b) Indicate the standard used for applicants to appeal an eligibility determination.	<input type="checkbox"/>	4/1/2024	<input type="checkbox"/>	<input checked="" type="checkbox"/>
340(c) Indicate the standard used to redetermine BHP eligibility.	<input type="checkbox"/>	4/1/2024	<input type="checkbox"/>	<input checked="" type="checkbox"/>
345 Indicate the standard to verify the eligibility of applicants for BHP.	<input type="checkbox"/>	4/1/2024	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Note: N/A = Not applicable; indicates that there are no choices available.

1. Please indicate whether the state will implement continuous eligibility and redetermine enrollees every 12 months as long as enrollees are under 65, not enrolled in alternative MEC and remain state residents.

Yes

If no, please explain redetermination standards. (These standards must be in compliance with 42 CFR 600.340(f).)

Click or tap here to enter text.

2. Please list the standards established by the state to ensure timely eligibility determinations. (These standards must be in compliance with 42 CFR 435.912 exclusive of 435.912(c)(3)(i)).

The integrated ONE system is designed with several automations to ensure timely eligibility determinations. For example, tasks are automatically assigned a priority level, which impacts the order in which tasks are worked by staff. Task priority levels are defined by levels 1 thru 3, with level 1 being the highest priority and 3 being the lowest. Tasks can change in priority depending on the case status and timelines. For example, new application tasks created for individuals without benefits are a P1. Tasks related to renewals begin at a P3 but move up in priority (and therefore the task queue) closer to the renewal date. Each task is also automatically assigned a due date and will move up in priority as it gets closer to the due date. Written requests for information (RFI) are also automatically assigned a due date to provide sufficient time for individuals to respond and for the agency to process the response in order to meet the processing timeframe requirements.

In addition to task logic, ONE is programmed to automatically run eligibility and authorize benefits in several situations, including but not limited to:

- Deny/discontinue medical when information requested has not been received by the due date (RFI and missing information batches)
- Deny medical when it is dependent on a long-term care request and a valid service record has not been received by the 45th day
- Reasonable compatibility income verification used for MAGI and non-MAGI programs

3. Please describe the state's process and timeline for incorporating BHP into the eligibility service in the state including the State's Marketplace (if applicable). Include pertinent time-frames and any contingencies that will be used until system changes (if necessary) can be made.

Oregon's eligibility system (ONE) determines eligibility for a variety of benefit programs, including Medicaid, TANF cash assistance, SNAP, and more. BHP eligibility will be incorporated into this system as a new eligibility category for health benefits delivered by the Oregon Health Plan. The ONE system is already capable of determining Medicaid eligibility for people who apply for health insurance coverage through the state's health insurance Marketplace and would similarly determine BHP eligibility for these individuals.

Oregon plans to implement the BHP between April and July 1, and will make modifications to existing eligibility and enrollment systems and Medicaid Management Information System (MMIS) in 2023 and 2024 to accommodate the changes. Specific timelines for these system changes are not yet determined.

4. Please describe the process the state is using to coordinate BHP eligibility and enrollment with other IAPs in such a manner as to ensure seamlessness to applicants and enrollees.

Oregon will coordinate BHP eligibility and enrollment procedures with the Marketplace in the same manner as the state currently does for Medicaid coverage.

In addition, Oregon intends to implement the BHP as between April and July 2024 in a manner that will minimize mid-year coverage disruptions of people who are already enrolled in Marketplace plans for the 2024 plan year. In order to accomplish this, Oregon will not require BHP-eligible individuals enrolled in Marketplace coverage to enroll in the BHP. Oregon further seeks confirmation from CMS & the Treasury

Department that BHP-eligible individuals who remain in Marketplace plans for the remainder of 2024 will not face financial penalties in the form of Premium Tax Credit recoupment. Oregon proposes the following to accomplish this goal:

1. People enrolled in Oregon’s temporary Medicaid expansion category covering people with income in the BHP eligibility range would be automatically moved to the BHP between April and July 1, 2024, pending an eligibility review. People in this category who are determined not eligible for BHP (e.g., because of affordable offer of ESI or income change), would be disenrolled from 1115 Medicaid waiver population and shifted to appropriate coverage.
2. Beginning sometime between April and July 1, 2024, Oregon will accept applications for BHP coverage through existing application portals and any new applicant in the 138-200% FPL category will go through eligibility determination and be enrolled in the BHP if determined eligible.
3. Individuals with existing Marketplace coverage will have the option, starting between April and July 1, 2024, to apply for BHP coverage. Those determined eligible for the BHP would be enrolled in the BHP and have their Marketplace coverage terminated in the same manner as if they moved from Marketplace coverage to Medicaid.
4. Marketplace enrollees not affirmatively choosing to change coverage will be able to retain their current Marketplace coverage (QHP) through the remainder of plan year 2024 and for up to two additional years (plan years 2025 and 2026) IF they comply with the rules governing auto reenrollment in their Marketplace coverage. All Marketplace enrollees who are allowed to retain their Marketplace coverage will retain their APTCs and shall not be subject to reconciliation on the ground that they were BHP-eligible. Other reconciliation rules (e.g, income calculations, caps on repayment) would continue to apply equally to the same extent as they would to other Marketplace enrollees.

One of the primary goals in Oregon’s implementation of a BHP is to reduce churn and improve continuity of coverage for people who regularly enroll and disenroll in Medicaid. The above enrollment structure is critical to minimizing any mid-year coverage disruptions that could occur among people already enrolled in Marketplace plans and who do not actively choose to enroll in the BHP. This structure is further necessary the Federally Facilitated Marketplace does not have the ability to automatically move someone off their Marketplace plan and into the BHP.

5. If the state is submitting a transition plan in accordance with 600.305(b), please describe the transition plan in the box below. The plan must include dates by which the state intends to complete transition processes and convert to full implementation.

Section 5: Standard Health Plan Contracting

This portion of the Blueprint collects information about the service delivery system that will be used in the state as well as how the state plans to contract within that system.

Delivery Systems

1. Please assure that standard health plans from at least two offerors are available to enrollees.
2. If applicable, please describe any additional activities the state will use to further ensure choice of standard health plans to BHP enrollees.

Not applicable

3. If the state is not able to assure choice of at least two standard health plan offerors as described in question 1, please attach the state's exception request. This exception request must include a justification as to why it cannot assure choice of standard health plan offeror and demonstrate that it has reviewed its competitive contracting process in accordance with 42 CFR 600.420(a)(i) - (iii).

To ensure continuity of coverage and care for people 0-200% FPL, the Oregon Basic Health Program will be administered by Coordinated Care Organizations (CCOs), Oregon's Medicaid managed care entities. A CCO is a network of all types of health care providers (physical health care, addictions and mental health care and dental care providers) who work together in their local communities to serve people who receive Medicaid coverage. The CCO model therefore promotes local organizations collaborating with one another as opposed to fostering competition. Accordingly, while some regions of the state have more than one CCO, most do not. The most populous areas of the state have more than one CCO, and thus while most regions of the state have a single CCO, nearly half of all Medicaid members are in areas with CCO choice. Because Oregon seeks to capitalize on the success of the CCO model, the state is proposing to utilize the existing CCO network and requests an exception to 42 CFR 600.420(a)(i) - (iii).

4. Is the state participating in a regional compact?

No

IF YES, please answer questions 5 - 9. If no, please skip questions 5 - 9.

5. Please indicate the other states participating in the regional compact.

N/A

6. Are there specific areas within the participating states that the standard health plans will operate? If yes, please describe.

N/A

7. If a state contracts for the provision of geographically specific standard health plans, please describe how it will assure that enrollees, regardless of location within the state, have choice of at least two standard health plan offerors. Please indicate plans by area.

N/A

8. Please assure that the regional compact's competitive contracting process complies with the requirements set forth in 42 CFR 600.410.

9. If applicable, please indicate any variations in benefits, premiums and cost sharing, and contracting requirements that may occur as a result of regional differences between the participating regional compact states.

N/A

DRAFT

Contracting Process

States must respond to all of the following assurances. If the state has requested an exception to the competitive process for 2015, the State is providing the following assurances with regard to how it will conduct contracting beginning in program year 2016.

The State assures that it has or will:

(These are mandatory elements. Each box below must be checked to approve Blueprint.)

	Assurance: (Indicate with an "X" to signal assurance)
Conducted the contracting process in a manner providing full and open competition including:	
45 CFR 92.36(b) Following its own procurement standards in conformance with applicable federal law.	<input checked="" type="checkbox"/>
45 CFR 92.36(c) Conducting the procurement in a manner providing full and open competition .	<input checked="" type="checkbox"/>
45 CFR 92.36(d) Using permitted methods of procurement.	<input checked="" type="checkbox"/>
45 CFR 92.36(e) Contracting with small, minority and women owned firms to the greatest extent possible.	<input checked="" type="checkbox"/>
45 CFR 92.36(f) Providing a cost or price analysis in connection with every procurement action.	<input checked="" type="checkbox"/>
45 CFR 92.36(g) Making available the Technical specifications for review .	<input checked="" type="checkbox"/>
45 CFR 92.36(h) Following policies for minimum bonding requirements .	<input checked="" type="checkbox"/>
45 CFR 92.36(i) Including all the required contract terms in all executed contracts.	<input checked="" type="checkbox"/>
Included a negotiation of the following elements:	
Premiums and cost sharing. (N/A)	<input type="checkbox"/>
Benefits.	<input checked="" type="checkbox"/>
Innovative features, such as:	
Care coordination and care management	<input checked="" type="checkbox"/>
Incentives for the use of preventive services	<input checked="" type="checkbox"/>
Maximization of patient involvement in health care decision making	<input checked="" type="checkbox"/>
Other (specify below) Click or tap here to enter text.	<input type="checkbox"/>
Meeting health care needs of enrollees.	<input checked="" type="checkbox"/>
Included criteria in the competitive process to ensure:	
Local availability of and access to providers to ensure the appropriate number, mix and geographic distribution to meet the needs of the anticipated number of enrollees in the service area so that access to services is at least sufficient to meet the standards applicable under 42 CFR Part 438, Subpart D, or 45 CFR 156.230 and 156.235.	<input checked="" type="checkbox"/>

	Assurance: (Indicate with an "X" to signal assurance)
Use of managed care or a similar process to improve the quality accessibility, appropriate utilization and efficiency of services provided to enrollees.	<input checked="" type="checkbox"/>
Development and use of performance measures and standards.	<input checked="" type="checkbox"/>
Coordination between other Insurance Affordability Programs.	<input checked="" type="checkbox"/>
Measures to address fraud, waste and abuse and ensure consumer protections.	<input checked="" type="checkbox"/>
Established protections against discrimination including:	
Safeguards against any enrollment discrimination based on pre-existing condition, other health status related factors, and comply with the nondiscrimination standards set forth at 42 CFR 600.165.	<input checked="" type="checkbox"/>
Established a Medical Loss Ratio of at least 85% for any participating health insurance issuer.	
The minimum standard is reflected in contracts	<input checked="" type="checkbox"/>

Standard Health Plan Contracting Requirements

States are required to include the standard set of contract requirements that will be incorporated into its Standard Health Plan contracts. Please reproduce in the text box below. Standard Health Plan contracts are required to include contract provisions addressing network adequacy, service provision and authorization, quality and performance, enrollment procedures, disenrollment procedures, noticing and appeals, and provisions protecting the privacy and security of personally identifiable information. However, we have given states a "safe harbor" option of reusing either approved Medicaid or Exchange contracting standards. If the state has adopted this safe harbor, it may fulfill this requirement by simply indicating that Medicaid or Exchange contracting standards will be used.

If the state has adopted this safe harbor, it may fulfill this requirement by simply indicating that Medicaid or Exchange contracting standards will be used.

Medicaid contracting standards will be used.

Coordination of Health Care Services

Please describe how the state will ensure coordination for the provision of health care services to promote enrollee continuity of care between BHP and Medicaid, CHIP, the Exchange and any other state administered health insurance programs.

Oregon's decision to deliver the Basic Health Program through the same managed care plans that serve Medicaid/CHIP members (called Coordinated Care Organizations, or CCOs) is designed to ensure continuity of care for enrollees moving between Medicaid/CHIP and the BHP. Using the same health plans will enable people to move seamlessly between programs when income fluctuates without actually navigating a change in plan enrollment or needing to identify new providers or sources of care. This decision is being made in order to accomplish one of Oregon's key policy objectives related to the BHP, which is to reduce churn and improve continuity of care for people leaving Medicaid.

Oregon will utilize a variety of strategies to ensure continuity of care when people move between the BHP and Marketplace-based coverage, based on how Oregon currently works to facilitate transitions between Medicaid and the Marketplace and on the state's strategies to connect people leaving Medicaid to Marketplace plans during the unwinding of federal continuous coverage provisions.

During the redetermination process, Oregon will perform extra work to connect people leaving Medicaid to a Marketplace plan that includes providers they regularly have used in the preceding 12-months. Oregon will examine claims/utilization data on members leaving Medicaid and being directed to the Marketplace to identify their regular sources of care. The Marketplace is then contracting with an outside vendor that provides eligibility processing and call center support to determine which Marketplace plans include the providers that they've used in the last year, and would then identify the lowest cost silver plans that include these providers. While this is a new effort being developed as part of our redetermination strategy, Oregon intends to duplicate this strategy to the extent possible upon the implementation of the BHP. Oregon has additionally been working with community-based organizations and partner agents who provide equity-focused outreach and enrollment assistance that focuses on the unique needs of members from communities that disproportionately experience social and health inequities.

Oregon's use of the HealthCare.gov Marketplace platform limits the state's ability to directly transfer complete member account files (that include pre-populated applications) between systems. For instance, while Marketplace enrollees who become eligible for the BHP when going through the open enrollment process may have complete information transferred directly to Oregon's ONE eligibility system that will process BHP applications, Oregon is not able to transfer complete information to HealthCare.gov in a manner that establishes a Marketplace application for members. Oregon will seek to add this capability to any state-based marketplace technology that is

considered in future years.

DRAFT

Section 6: Premiums and Cost-sharing

This section of the Blueprint collects information from the state documenting compliance with requirements for establishing premiums and cost-sharing. Additionally, it provides CMS general information about the states planned premium and cost sharing structures and administration.

Premiums

Premium Assurances

The State assures that (check all that apply):

- The monthly premium imposed on any enrollee does not exceed the monthly premium the individual would have been required to pay had he/she been enrolled in the applicable benchmark plan as defined in the tax code.
- When determining premiums, the State has taken into account reductions in the premium resulting from the premium tax credit that the enrollee would have been paid if he/she were in the Exchange.
- It will make the amount of premiums for all standard health plans available to any member of the public either through posting on a website or upon request. Additionally, enrollees will be notified of premiums at the time of enrollment, reenrollment or when premiums change, along with ways to report changes in income that might affect premiums.

Please provide the web address or other source for public access to premiums.

Web Address:

N/A

Other Source:

N/A – Oregon will not charge monthly premiums for members enrolled in the Basic Health Program

Please describe:

1. The group(s) of enrollees subject to premiums, including any variation by FPL, and the applicable premiums.

No members will be subject to monthly premium to enroll in the BHP

2. The collection method and procedure for the payment of premiums.

No premiums will be collected

3. The consequences for an enrollee or applicant who does not pay a premium, including grace periods and re-enrollment procedures.

N/A – no monthly premiums

Cost-Sharing

Cost-Sharing Assurances

The State assures that (check all that apply):

- Cost sharing imposed on enrollees meets the standards imposed by 45 CFR 156.420(c), 45 CFR 156.420(e), 45 CFR 156.420(a)(1) and 45 CFR 156.420(a)(2).
- Cost sharing for Indians meets the standards of 45 CFR 156.420(b)(1) and (d).
- The State has not imposed cost sharing for preventive health services or items as defined in accordance with 45 CFR 147.130.
- The State has provided the amount and type of cost-sharing for each standard health plan that is applicable to every income level either on a public website or upon request to any member of the public, and specifically to applicants at the time of enrollment, reenrollment or when cost-sharing and coverage limitations change, along with ways to report changes in income that might affect cost-sharing amounts.

Please provide the web address or other source for public access to cost-sharing rules.

Web Address:

Click or tap here to enter text.

Other Source:

N/A – no co-payments or other cost sharing will be charged to BHP enrollees

Please describe:

1. The group(s) subject to cost sharing.

No groups will be subject to cost sharing

2. All copayments, co-insurance, and deductibles, by service.

No co-payments, co-insurance, or deductibles will apply to any service.

3. The system in place to monitor compliance with cost-sharing protections described above.

N/A – no cost sharing in program

DRAFT

Disenrollment Procedures for Non-Payment of Premiums

N/A

Has the state elected to offer the enrollment periods equal to the Exchange defined at 45 CFR 155.410 and 420?

Choose Yes or No

If yes, check the box on the right to indicate the state assures that it will comply with the premium grace periods standards at 45 CFR 156.270 prior to disenrollment and that it will not restrict reenrollment beyond the next open enrollment period.

If no, check the box on the right to indicate the state assures that it is providing a minimum grace period of 30 days for the payment of any required premium prior to disenrollment and that it will comply with reenrollment standards set forth in 457.570(c).

If the state is offering continuous enrollment and is imposing a premium lock-out period, the lock-out period in number of days is:

Enter number of days.

DRAFT

Section 7: Operational Assessment

The State assures that it can or will be able to:

	Full Assurance (Indicate with an "X" to signal assurance)	Contingent Assurance (Indicate with an "X" to signal assurance)
Eligibility and Renewals		
Accept an application online, via paper and via phone and provide in alternative formats in accordance with 42 CFR §600.310(b).	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Return an accurate and timely eligibility result for all BHP eligible applicants.	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Process a reported change and redetermine eligibility.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Comply with the ex-parte renewal process.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Issue an eligibility notice and share such notice with CMS.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Issue a renewal notice and share such notice with CMS.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Ability to terminate/disenroll from BHP for a variety of reasons, such as reaching age 65, obtaining MEC.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Issue termination/disenrollment notice to enrollees.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Benefits and Cost-Sharing [N/A]		
Exempt American Indians from Cost-sharing.	<input type="checkbox"/>	<input type="checkbox"/>
Apply appropriate cost-sharing amounts to enrollees subject to cost-sharing limits.	<input type="checkbox"/>	<input type="checkbox"/>
Premium Payment and Plan Enrollment

Receipt and apply the premium payment correctly. [N/A]	<input type="checkbox"/>	<input type="checkbox"/>
Notify enrollee of health plan choices and complete plan enrollment.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Issue a health plan disenrollment notice.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Coordinate enrollment with other Insurance Affordability Programs		
Transfer accounts and provide notification in accordance with 42 CFR 600.330(c) through (e).	<input checked="" type="checkbox"/>	<input type="checkbox"/>

Contingency Descriptions

Please describe the contingency or dependency that limit full assurance.

Oregon's assurance that it will return timely eligibility results is contingent on eligibility workforce staffing and staffing of appropriate office and training supports. Oregon is currently experiencing longer-than-normal timelines for eligibility determination that cannot be processed electronically. Furthermore, prior to the launch of the BHP, Oregon will be undergoing a substantial eligibility redetermination of all Medicaid enrollees to unwind federal continuous eligibility provisions in place since early 2020.

Oregon is preparing to implement two-year continuous Medicaid eligibility, which will alleviate some of the workload currently placed on Oregon Health Authority and Oregon Department of Human Services staff. However, because preliminary enrollment forecasts suggest that Oregon will not reduce to pre-pandemic Medicaid enrollment, additional staffing will be needed to support the new Basic Health Program enrollment process. Both agencies have requested funding from the legislature for additional staff for this purpose.

In the first two years of full BHP implementation, Oregon's ability to return timely eligibility determinations for all new applicants may also be dependent on timely receipt of individuals' information from Healthcare.gov for people previously enrolled in marketplace plans who will instead move to the BHP. Oregon will work with CMS to ensure appropriate data can be transferred to ensure a timely eligibility determination for people coming directly from Marketplace coverage.

Note that Oregon's indication of contingent assurance regarding returning an accurate and timely eligibility result for all BHP applicants is with respect to timeliness, not accuracy. Oregon will rely on the ONE system to develop the BHP eligibility system, which will ensure accuracy.

Please describe any mitigation steps that will be in place and the date by which a full assurance will be possible.

Full assurance will be in place prior to Oregon's launch of the BHP, intended to occur between April and July 1, 2024 and Oregon will be hiring staff and implementing systems changes in late-2023 and 2024 to prepare for implementation.

Section 8: Standard Health Plan

This final section of the BHP Blueprint is a benefits description that allows a state to define the standard health plan(s) that will be offered under the BHP. The standard health plan is the set of benefits, including limitations on those benefits for which a state will contract. States are required by statute to offer the Essential Health Benefits (EHB) that are equally required in the Marketplace. States are also required to define those benefits using any of the base-benchmark or reference plans set forth at 45 CFR 156.100 (which could be a different base-benchmark or reference plan than is used for Marketplace or for Medicaid purposes). The benefits description below maps the base-benchmark plan to the EHB categories.

The Blueprint will not be a complete submission without the benefits description below defining the standard health plan offered under BHP.

Home health care

Source:

Base Benchmark

Explain the substitution or duplication, including indicating the substituted benefit(s) or the duplicate section 1937 benchmark benefit(s) included above under Essential Health

Benefits:

Home health care services were bundled, and mapped to the 'rehabilitative and habilitative services and devices' EHB category. The bundled services are a duplication of Home Health-Rehab services from the existing state Medicaid plan

Base Benchmark Benefit that was Substituted:

Telemedical services

Source:

Base Benchmark

Explain the substitution or duplication, including indicating the substituted benefit(s) or the duplicate section 1937 benchmark benefit(s) included above under Essential Health

Benefits:

Telemedical services were bundled, along with primary care to treat illness/injury, specialist visits and mapped to the 'ambulatory patient services' EHB category. The bundled services are a duplication of physician services from the existing state Medicaid plan

Base Benchmark Benefit that was Substituted:

Care for disease of the eye

Source:

Base Benchmark

Explain the substitution or duplication, including indicating the substituted benefit(s) or the duplicate section 1937 benchmark benefit(s) included above under Essential Health Benefits:

Care for disease of the eye were bundled, along with primary care to treat illness/injury, specialist visits and mapped to the 'ambulatory patient services' EHB category. The bundled services are a duplication of physician and optometrist (OLP) services from the existing state Medicaid plan.

Base Benchmark Benefit that was Substituted:

Foot care

Source:

Base Benchmark

Explain the substitution or duplication, including indicating the substituted benefit(s) or the duplicate section 1937 benchmark benefit(s) included above under Essential Health

Benefits:

Foot care services were bundled, along with primary care to treat illness/injury, specialist visits and mapped to the 'ambulatory patient services' EHB category. The bundled services are a duplication of physician and podiatrist (OLP) services from the existing state Medicaid plan.

Base Benchmark Benefit that was Substituted:

Medical contraceptives

Source:

Base Benchmark

Explain the substitution or duplication, including indicating the substituted benefit(s) or the duplicate section 1937 benchmark benefit(s) included above under Essential Health

Benefits:

Medical contraceptives services were bundled, along with primary care to treat illness/injury, specialist visits and mapped to the 'ambulatory patient services' EHB category. The bundled services are a duplication of family planning services from the existing state Medicaid plan.

Base Benchmark Benefit that was Substituted:

Emergency room-facility

Source:

Base Benchmark

Explain the substitution or duplication, including indicating the substituted benefit(s) or the duplicate section 1937 benchmark benefit(s) included above under Essential Health

Benefits:

Emergency room - facility services were bundled, along with emergency room visits and mapped to the 'emergency services' EHB category. The bundled services are a duplication of Emergency Hospital -Outpatient services from the existing state Medicaid plan.

Base Benchmark Benefit that was Substituted:

Emergency room-Physician

Source:

Base Benchmark

Explain the substitution or duplication, including indicating the substituted benefit(s) or the duplicate section 1937 benchmark benefit(s) included above under Essential Health

Benefits:

Emergency room-physician services were bundled, along with primary care to treat illness/injury, specialist visits and mapped to the 'emergency services' EHB category. The bundled services are a duplication of emergency-physician services from the existing state Medicaid plan.

Base Benchmark Benefit that was Substituted:
Emergency medical transportation

Source:
Base Benchmark

Explain the substitution or duplication, including indicating the substituted benefit(s) or the duplicate section 1937 benchmark benefit(s) included above under Essential Health

Benefits:

Emergency medical transportation were bundled, along with emergency room visits and mapped to the 'emergency services' EHB category. The bundled services are a duplication of Emergency medical transportation-Outpatient hospital from the existing state Medicaid plan.

Base Benchmark Benefit that was Substituted:
Inpatient medical and surgical care

Source:
Base Benchmark

Explain the substitution or duplication, including indicating the substituted benefit(s) or the duplicate section 1937 benchmark benefit(s) included above under Essential Health

Benefits:

Inpatient medical and surgical care were bundled, along with inpatient hospital visits and mapped to the 'hospitalization' EHB category. The bundled services are a duplication of inpatient hospital services from the existing state Medicaid plan.

Base Benchmark Benefit that was Substituted:
Bariatric surgery

Source:
Base Benchmark

Explain the substitution or duplication, including indicating the substituted benefit(s) or the duplicate section 1937 benchmark benefit(s) included above under Essential Health

Benefits:

Bariatric surgery services were bundled, along with Inpatient medical and surgical care and mapped to the 'hospitalization' EHB category. The bundled services are a duplication of inpatient hospital services from the existing state Medicaid plan.

Base Benchmark Benefit that was Substituted:
Anesthesia

Source:
Base Benchmark

Explain the substitution or duplication, including indicating the substituted benefit(s) or the duplicate section 1937 benchmark benefit(s) included above under Essential Health

Benefits:

Anesthesia services were bundled, along with Inpatient medical and surgical care and mapped to the 'hospitalization' EHB category. The bundled services are a duplication of inpatient hospital and physician-inpatient from the existing state Medicaid plan.

Base Benchmark Benefit that was Substituted:

Breast reconstruction (non-cosmetic)

Source:

Base Benchmark

Explain the substitution or duplication, including indicating the substituted benefit(s) or the duplicate section 1937 benchmark benefit(s) included above under Essential Health

Benefits:

Breast reconstruction (non-cosmetic) services were bundled, along with Inpatient medical and surgical care and mapped to the 'hospitalization' EHB category. The bundled services are a duplication of inpatient hospital and physician-inpatient services from the existing state Medicaid plan.

Base Benchmark Benefit that was Substituted:

Blood transfusions

Source:

Base Benchmark

Explain the substitution or duplication, including indicating the substituted benefit(s) or the duplicate section 1937 benchmark benefit(s) included above under Essential Health

Benefits:

Blood transfusions services were bundled, along with Inpatient medical and surgical care and mapped to the 'hospitalization' EHB category. The bundled services are a duplication of inpatient hospital and physician-inpatient services from the existing state Medicaid plan.

Base Benchmark Benefit that was Substituted:

Hospice/respice care

Source:

Base Benchmark

Explain the substitution or duplication, including indicating the substituted benefit(s) or the duplicate section 1937 benchmark benefit(s) included above under Essential Health

Benefits:

Hospice / respice care services were bundled, along with primary care to treat illness/injury, specialist visits and mapped to the "Ambulatory patient services" EHB category. The bundled services are a duplication of hospice services from the existing state Medicaid plan.

Base Benchmark Benefit that was Substituted:

Pre- & postnatal care

Source:

Base Benchmark

Explain the substitution or duplication, including indicating the substituted benefit(s) or the duplicate section 1937 benchmark benefit(s) included above under Essential Health

Benefits:

Pre- & postnatal care services were bundled, along with Maternity services and mapped to the 'maternity and newborn care' EHB category. The bundled services are a duplication of maternity care-physician, maternity care-nurse practitioner, maternity care-nurse midwife services from the existing state Medicaid plan.

Base Benchmark Benefit that was Substituted:

Delivery & inpatient maternity services

Source:

Base Benchmark

Explain the substitution or duplication, including indicating the substituted benefit(s) or the duplicate section 1937 benchmark benefit(s) included above under Essential Health

Benefits:

Delivery & inpatient maternity services were bundled, along with Maternity services and mapped to the 'hospitalization' EHB category. The bundled services are a duplication of inpatient hospital services from the existing state Medicaid plan.

Base Benchmark Benefit that was Substituted:

Inpatient hospital-mental/behavioral health

Source:

Base Benchmark

Explain the substitution or duplication, including indicating the substituted benefit(s) or the duplicate section 1937 benchmark benefit(s) included above under Essential Health

Benefits:

Inpatient hospital - mental/behavioral health services were bundled, and mapped to the 'Mental Health and substance use disorder services, including behavioral health treatment' EHB category. The bundled services are a duplication of Inpatient hospital-MH/SUD, physician-MH/SUD, nurse practitioner-MH/SUD, services from the existing state Medicaid plan.

Base Benchmark Benefit that was Substituted:

Outpatient hospital-mental/behavioral health

Source:

Base Benchmark

Explain the substitution or duplication, including indicating the substituted benefit(s) or the duplicate section 1937 benchmark benefit(s) included above under Essential Health

Benefits:

Outpatient hospital - mental/behavioral health services were bundled, and mapped to the 'Mental Health and substance use disorder services, including behavioral health treatment' EHB category. The bundled services are a duplication of Outpatient hospital-MH/SUD, physician services-MH/SUD and nurse practitioner-MH/SUD services from the existing state Medicaid plan.

Base Benchmark Benefit that was Substituted:

Inpatient hospital-chemical dependency

Source:

Base Benchmark

Explain the substitution or duplication, including indicating the substituted benefit(s) or the duplicate section 1937 benchmark benefit(s) included above under Essential Health

Benefits:

Inpatient hospital - chemical dependency services were bundled and mapped to the 'Mental Health and substance use disorder services, including behavioral health treatment' EHB category. The bundled services are a duplication of Inpatient hospital-MH/SUD, physician services-MH/SUD and nurse practitioner-MH/SUD services from the existing state Medicaid plan.

Base Benchmark Benefit that was Substituted: Source:
Outpatient hospital-chemical dependency Base Benchmark

Explain the substitution or duplication, including indicating the substituted benefit(s) or the duplicate section 1937 benchmark benefit(s) included above under Essential Health Benefits:

Outpatient hospital - chemical dependency services were bundled and mapped to the 'Mental Health and substance use disorder services, including behavioral health treatment' EHB category. The bundled services are a duplication of Outpatient hospital-MH/SUD, physician services-MH/SUD and nurse practitioner-MH/SUD services from the existing state Medicaid plan.

Base Benchmark Benefit that was Substituted: Source:
Detoxification Base Benchmark

Explain the substitution or duplication, including indicating the substituted benefit(s) or the duplicate section 1937 benchmark benefit(s) included above under Essential Health

Benefits:

Detoxification services were bundled and mapped to the 'Mental Health and substance use disorder services, including behavioral health treatment' EHB category. The bundled services are a duplication of inpatient hospital, outpatient hospital, physician services and nurse practitioner services and the mental health and substance use disorder section from the existing state Medicaid plan.

Base Benchmark Benefit that was Substituted: Source:
Inpatient rehabilitation Base Benchmark

Explain the substitution or duplication, including indicating the substituted benefit(s) or the duplicate section 1937 benchmark benefit(s) included above under Essential Health

Benefits:

Inpatient rehabilitation services were bundled, and mapped to the 'Rehabilitative and habilitative services and devices' EHB category. The bundled services are a duplication of inpatient hospital, rehabilitative section from the existing state Medicaid plan.

Base Benchmark Benefit that was Substituted: Source:
Physical, speech & occupational therapy Base Benchmark

Explain the substitution or duplication, including indicating the substituted benefit(s) or the duplicate section 1937 benchmark benefit(s) included above under Essential Health

Benefits:

Physical, speech & occupational therapy (outpatient) services were bundled, and mapped to the 'Rehabilitative and habilitative services and devices' EHB category. The bundled s services are a duplication of Physical, speech & occupational therapy from the existing state Medicaid plan.

Base Benchmark Benefit that was Substituted: Source:
Durable medical equipment Base Benchmark

Explain the substitution or duplication, including indicating the substituted benefit(s) or the duplicate section 1937 benchmark benefit(s) included above under Essential Health

Benefits:

Durable medical equipment were bundled, and mapped to the 'Rehabilitative and habilitative services and devices' EHB category. The bundled services are a duplication of home health-medical supplies from the existing state Medicaid plan.

Base Benchmark Benefit that was Substituted:
Prosthetics

Source:
Base Benchmark

Explain the substitution or duplication, including indicating the substituted benefit(s) or the duplicate section 1937 benchmark benefit(s) included above under Essential Health

Benefits:

Prosthetics were bundled and mapped to the 'Rehabilitative and habilitative services and devices' EHB category. The bundled services are a duplication of prosthetic devices and home health-Rehab/Hab from the existing state Medicaid plan.

Base Benchmark Benefit that was Substituted:
Orthotics

Source:
Base Benchmark

Explain the substitution or duplication, including indicating the substituted benefit(s) or the duplicate section 1937 benchmark benefit(s) included above under Essential Health

Benefits:

Orthotics were bundled, and mapped to the 'Rehabilitative and habilitative services and devices' EHB category. The bundled services are a duplication of prosthetic devices and home health-Rehab/Hab from the existing state Medicaid plan.

Base Benchmark Benefit that was Substituted:
Hearing aids

Source:
Base Benchmark

Explain the substitution or duplication, including indicating the substituted benefit(s) or the duplicate section 1937 benchmark benefit(s) included above under Essential Health

Benefits:

Hearing aids were bundled, and mapped to the 'Rehabilitative and habilitative services and devices' EHB category. The bundled services are a duplication of physical, speech & occupational therapy, language disorders section from the existing state Medicaid plan.

Base Benchmark Benefit that was Substituted:
Cochlear implants

Source:
Base Benchmark

Explain the substitution or duplication, including indicating the substituted benefit(s) or the duplicate section 1937 benchmark benefit(s) included above under Essential Health

Benefits:

Cochlear Implants were bundled, and mapped to the 'Rehabilitative and habilitative services and devices' EHB category. The bundled services are a duplication of prosthetic devices, physical, speech & occupational therapy, language disorders section from the existing state Medicaid plan.

Base Benchmark Benefit that was Substituted:

Lab test, x-ray services & pathology

Source:

Base Benchmark

Explain the substitution or duplication, including indicating the substituted benefit(s) or the duplicate section 1937 benchmark benefit(s) included above under Essential Health

Benefits:

Lab tests, x-ray services, & pathology were bundled, and mapped to the 'Laboratory services' EHB category. The bundled services are a duplication of Laboratory and X-ray section from the existing state Medicaid plan.

Base Benchmark Benefit that was Substituted:

Imaging/diagnostics (e.g., MRI,CT,PET scan)

Source:

Base Benchmark

Explain the substitution or duplication, including indicating the substituted benefit(s) or the duplicate section 1937 benchmark benefit(s) included above under Essential Health

Benefits:

Imaging / diagnostics (e.g., MRI, CT ,PET scan) were bundled, and mapped to the 'Laboratory services' EHB category. The bundled services are a duplication of Laboratory and X-ray section from the existing state Medicaid plan.

Base Benchmark Benefit that was Substituted:

Genetic testing

Source:

Base Benchmark

Explain the substitution or duplication, including indicating the substituted benefit(s) or the duplicate section 1937 benchmark benefit(s) included above under Essential Health

Benefits:

Genetic testing services were bundled and mapped to the 'Laboratory services' EHB category. The bundled services are a duplication of Laboratory and X-ray section from the existing state Medicaid plan.

Base Benchmark Benefit that was Substituted:

Preventive services

Source:

Base Benchmark

Explain the substitution or duplication, including indicating the substituted benefit(s) or the duplicate section 1937 benchmark benefit(s) included above under Essential Health

Benefits:

Preventive care services were bundled and mapped to the 'Preventive and wellness services and chronic disease management' EHB category. The bundled services are a duplication of Preventive services from the existing state Medicaid plan.

Base Benchmark Benefit that was Substituted:

Smoking/Tobacco cessation program

Source:

Base Benchmark

Explain the substitution or duplication, including indicating the substituted benefit(s) or the duplicate section 1937 benchmark benefit(s) included above under Essential Health

Benefits:

Smoking/Tobacco cessation program were bundled and mapped to the 'Ambulatory patient services' EHB category. The bundled services are a duplication of tobacco cessation sections from the existing state Medicaid plan.

Base Benchmark Benefit that was Substituted:

Eyeglasses

Source:

Base Benchmark

Explain the substitution or duplication, including indicating the substituted benefit(s) or the duplicate section 1937 benchmark benefit(s) included above under Essential Health

Benefits:

Eyeglasses were bundled and mapped to the 'Rehabilitative and habilitative services and devices' EHB category. The bundled services are a duplication of eyeglasses section from the existing state Medicaid plan.

Base Benchmark Benefit that was Substituted:

Dentures

Source:

Base Benchmark

Explain the substitution or duplication, including indicating the substituted benefit(s) or the duplicate section 1937 benchmark benefit(s) included above under Essential Health Benefits:

Dentures were bundled and mapped to the 'Rehabilitative and habilitative services and devices' EHB category. The bundled services are a duplication of dentures section from the existing state Medicaid plan.

Base Benchmark Benefit that was Substituted:

Skilled nursing

Source:

Base Benchmark

Explain the substitution or duplication, including indicating the substituted benefit(s) or the duplicate section 1937 benchmark benefit(s) included above under Essential Health

Benefits:

Skilled Nursing were bundled, and mapped to the 'Rehabilitative and habilitative services and devices' EHB category. The bundled services are a duplication of Skilled Nursing Facility section from the existing state Medicaid plan.

Base Benchmark Benefit that was Substituted:

Outpatient hospital

Source:

Base Benchmark

Explain the substitution or duplication, including indicating the substituted benefit(s) or the duplicate section 1937 benchmark benefit(s) included above under Essential Health

Benefits:

Outpatient hospital - facility services were bundled, and mapped to the 'Outpatient hospital' EHB category. The bundled services are a duplication of Hospital - Outpatient services from the existing state Medicaid plan.

Base Benchmark Benefit that was Substituted:

Organ & tissue transplants

Source:

Base Benchmark

Explain the substitution or duplication, including indicating the substituted benefit(s) or the duplicate section 1937 benchmark benefit(s) included above under Essential Health

Benefits:

Organ & tissue transplants were bundled, along with Inpatient medical and surgical care and mapped to the 'hospitalization' EHB category. The bundled services are a duplication of inpatient hospital services from the existing state Medicaid plan.

Base Benchmark Benefit that was Substituted:

Newborn child coverage

Source:

Base Benchmark

Explain the substitution or duplication, including indicating the substituted benefit(s) or the duplicate section 1937 benchmark benefit(s) included above under Essential Health

Benefits:

Newborn services are billed separately through the newborn's Medicaid ID, newborns will not be covered by BHP.

Other 1937 Covered Benefits that are not Essential Health Benefits
