

New Plant Batch Worksheet – Clones/Seedlings

This worksheet is provided by the OLCC as a tool for collecting necessary information for entering new marijuana plants into CTS. Once all information is collected on this worksheet, enter the necessary tracking data into the cannabis tracking system (CTS) before starting business the next day in order to meet daily reconciliation requirements. **Use of this worksheet is not required. Completing this worksheet does not meet necessary tracking requirements.** All information must be entered into CTS.

Facility:

Facility Name:

Facility Number (in CTS):

Source:

From seed package Seed package UID: Select package in “packages” tab, click “create plantings”

Qty. of seeds used

Unit of measurement
