| <ul style="list-style-type: none"> ♦ Recognizes and supports the common business needs of juvenile justice partnership agencies. | <ul style="list-style-type: none"> ♦ Provide a statewide standard for entry of information into JJIS; ♦ Maintain confidentiality and protection of information contained in JJIS; ♦ Maintain the energy and enthusiasm of the Steering Committee and the partner agencies needed to keep JJIS vital; ♦ Seek opportunities to support business practice changes and respond to emerging business requirements; ♦ Cultivate innovative and forward thinking solutions to improve JJIS; ♦ Continue to prioritize and manage JJIS resources efficiently; ♦ Ensure consistent data integrity; ♦ Ensure consistent training of JJIS users; ♦ Ensure continuity of knowledge of both OYA and county juvenile department business practices within OYA’s Information System Department to support leadership and data integrity; and ♦ Create and implement a JJIS Steering Committee Communication Plan. |

Revisions adopted 9/20/2017

JJIS Partnership Values

Representatives of the OYA and OJDDA serve on the JJIS Steering Committee and form the JJIS partnership. The JJIS partnership:

- ♦ Represents the best interests of Oregon’s juvenile justice system as a whole;
- ♦ Is entered into in good faith by all parties with integrity and honesty, and in the spirit of mutual support and collaboration;
- ♦ Promotes the ethical use of JJIS information and uses the data with respect, professionalism, and sensitivity toward the partners whose data is represented in the information;
- ♦ Adopts and maintains the JJIS Vision and Goals, keeping them current with juvenile justice needs;
- ♦ Uses the Vision and Goals as guiding principles for JJIS decision making.

JJIS Steering Committee

The JJIS Steering Committee is the governance body providing guidance to oversight of JJIS activities. The committee represents Oregon's 36 counties, the Oregon Youth Authority, and other statewide partners.

Oversight responsibilities include monitoring appropriate use of JJIS and its data, prioritizing development of software features, making policy decisions, and authorizing access to statewide data for research and program evaluation.

The committee meets monthly to ensure that JJIS is on task to accomplish the vision and goals of the JJIS partnership.

Members (2023)

Christina McMahan, Director
Clackamas County Juvenile Department
JJIS Steering Committee Co-Chair

Rex Emery, Assistant Director
Oregon Youth Authority Business Services
JJIS Steering Committee Co-Chair

Joe Ferguson, Director
Jackson County Juvenile Department

Molly Rogers, Director
Wasco County Juvenile Department

Ray Cameron, Director
Washington County Juvenile Department

Matt Wetherell, Director
Benton County Juvenile Department

Sandra Santos, Assistant Director
Oregon Youth Authority Community Services

Jana McLellan, Assistant Director
Oregon Youth Authority Facility Services

External partners and other interested parties frequently attend meetings and participate in discussions, but do not have voting rights on committee recommendations.

OYA Staff

Steven Hoffert, Chief Information Officer
Oregon Youth Authority Information Services

Sachin Prajapati, Manager
JJIS Development & Reports, OYA Information Services

Douglas Thomas, Manager
JJIS Policy & Implementation, OYA Information Services

JJIS Data and Evaluation Subcommittee

The JJIS Data and Evaluation Subcommittee is a standing committee of the JJIS Steering Committee, contributing to local and statewide research initiatives, program and system evaluations, and policy recommendations regarding the use of data. The subcommittee supports the juvenile justice system by ensuring consistency, accuracy and appropriateness of the data, guiding the development of routine and annual reports and statistics, and interpreting relevant data analyses

Introduction

Oregon's juvenile justice community is committed to providing effective and efficient services to promote public safety, ensuring justice for victims, and preventing youth from repeating criminal behavior. Understanding the recidivism rate for youth referred to the juvenile justice system is one way to measure juvenile crime and the impact of intervention efforts around the state.

Definition of recidivism for this report:

“As a measure of public safety, recidivism is defined as a new criminal referral.

A criminal referral is a law enforcement report to a juvenile department alleging one or more felony or misdemeanor acts (offenses).”

Contents of this report

This report contains statewide and county-specific measures of recidivism for 2020 based on the measurement of criminal activity as a gauge of community safety. The report selects youth who had a criminal referral in 2020 and tracks them for the following 36 months. To track all youth who had a referral in 2020 for a full 36-month period, the report requires 2022 referral data to be complete.

All data for this report comes from Oregon's Juvenile Justice Information System (JJIS). There are no outside data sources used and includes only criminal referrals from the State of Oregon.

Findings and Limitations

Summary Findings:

- Total statewide youth in the 2020 cohort are 4,642.
- The overall 36-month statewide recidivism rate is 34.0%.
 - The 36-month statewide chronic recidivism rate (3 or more subsequent referrals) is 10.2%.

Limitations of a 36-Month Tracking Period:

In Oregon, criminal offenses after the age of 18 are processed by the adult system, not by local county juvenile departments. As a result, youth who are age 15, 16, or 17 at the beginning of the tracking period will not have a full 36-months of juvenile referral data available to evaluate.

For example,

- Youth who are 15 can be tracked for at least 24 months but will reach the age of 18 prior to a full 36 months of tracking in JJIS.
- Youth who are 16 can be tracked for at least 12 months but will reach the age of 18 prior to a full 36 months of tracking in JJIS.
- Youth who are 17 will reach the age of 18 during the first year of the tracking period, so will have less than 12 months of tracking in JJIS.

Because of the shortened tracking periods for 15, 16, and 17-year-olds described above, the rates reflected in this report underestimate recidivism.

Notes about the information

Counts: Data is grouped by the county where the referral originated. The report counts the total number of youth who had a criminal referral originating in that county in the reporting year. The report sorts the results into two primary groups:

- **No Subsequent Referrals** – youth who had no subsequent referrals during the following 36 months.
- **Subsequent Referrals** – youth who had one or more subsequent referrals during the following 36 months. This group is further divided into two groups:
 - Youth with 1-2 Subsequent Referrals.
 - Youth with 3 or more Subsequent Referrals.

Percentages: Percentages are rounded to the nearest whole number and therefore may not add up to 100%.

Demographics: The JJIS Steering Committee recognizes that reporting race, ethnicity, sex, and gender in JJIS may not accurately represent everyone, due in part to a need to comply with federal reporting requirements. We respect all individuals, but also acknowledge and regret we cannot capture how individuals may self-identify in these areas.

- **Race and Ethnicity:** The JJIS Steering Committee defined Race/Ethnicity reporting categories based on available data. Race is recorded by the juvenile department based on police reports and youths' self-reporting. These reports categorize youth by the race that is recorded in JJIS unless the recorded ethnicity is Hispanic. When the recorded ethnicity is Hispanic, the youth is categorized as Hispanic, regardless of race.
- **Sex:** The options for reporting sex are Male, Female, Non-Binary, and Unknown. There are current state and national discussions about new ways to document sex that are respectful and inclusive of all. The JJIS Steering Committee will continue to engage in those discussions and make updates in this area as available.

Readers are cautioned against making comparisons between counties. Many factors can influence recidivism rates including the size of the county (small numbers can vary significantly), local laws and practices, and local law enforcement resources.
