**REMINDER:** Requests should be calculated on the basis of invoiced costs less any contractual payment retainage. Retainage will be reimbursed if paid into an escrow account and the public agency submits payment vouchers with the disbursement request.

DEQ will process and disburse funds payable to the loan recipient within **30** days of receiving disbursement requests, when documentation is complete. DEQ will review requests for payment and will make adjustments for, but not limited to: 1) math errors; 2) unacceptable construction; and 3) ineligible expenditures.

The Borrower shall provide DEQ with written evidence of materials and labor furnished to and performed upon the project, including, without limitation, invoices, verified contractor's pay requests, receipts, and other evidence that DEQ may require in its sole discretion (collectively, "Cost Documentation"). DEQ will disburse funds to pay Project costs only after the Borrower has provided Cost Documentation satisfactory to DEQ that such Project costs have been incurred (whether or not already paid by Borrower) and qualify for reimbursement under this Agreement and the CWSRF Program rules.

| Public Agency                 | To be completed by official representative certifying to the percent of the project completion and CWSRF funds requested.  |  |

**Attach** copies of expense documentation. This may include contractor invoices, supply invoices, payroll reports by cost center and type of work, and other documentation to support the date, amount and specific details of all expenditures. If the project or expenditure documentation is complex, a summary report may be needed to track expenditures from documentation to disbursement request amounts.

**Submit** this form to your regional project officer.

## Prohibition on Certain Telecommunication and Video Surveillance Services or Equipment in the State Revolving Fund Programs

Questions? Contact Oscar Orejel at 503.229.5850 or Oscar.orejel@deq.oregon.gov.

#### Overview

Effective immediately, regulation 2 CFR 200.216 has identified telecommunications and video surveillance producers on the System of Awards Management exclusion list.

These producers are ineligible for CWSRF funding.

### Definition of excluded equipment and services

As described in section 889 of Public Law 115-232, covered telecommunications equipment or services includes:

- Telecommunications equipment produced by Huawei Technologies Company or ZTE Corporation (or any subsidiary or affiliate of such entities).
- For the purpose of public safety, security of government facilities, physical security surveillance of critical infrastructure, and other national security purposes, video surveillance and telecommunications equipment produced by Hytera Communications Corporation, Hangzhou Hikvision Digital Technology Company, or Dahua Technology Company (or any subsidiary or affiliate of such entities).
- Telecommunications or video surveillance services provided by such entities or using such equipment.
- Telecommunications or video surveillance equipment or services produced or provided by an
  entity that the Secretary of Defense, in consultation with the Director of the National Intelligence or
  the Director of the Federal Bureau of Investigation, reasonably believes to be an entity owned or
  controlled by, or otherwise connected to, the government of a covered foreign country.

### What does this mean?

Equipment and services produced or provided by the exclusion are **not eligible** for CWSRF project cost reimbursements. All disbursement requests should be examined carefully prior to submission for reimbursement to assure they contain no costs for any of excluded entities.

It is recommended that CWSRF applicants and borrowers communicate this debarment clearly to their consultants, contractors, vendors and suppliers to assure they are aware of the excluded telecommunications suppliers, in order to avoid awarding them a contract.
