

Oregon Drug Take-Back Program

Guide for Oregon Drug Take-Back Programs

Purpose

This guide is intended to assist covered manufacturers and drug take-back program operators in complying with Oregon’s Drug Take-Back Law and related rules. Oregon’s Drug Take-Back Law requires manufacturers of covered drugs sold within Oregon to participate in a statewide drug take-back program for the collection, transportation and disposal of covered drugs that is available to covered entities free of charge. Program operators, who will develop and implement such programs, must submit proposed program plans to DEQ for approval. Each plan must demonstrate that the program will provide statewide, convenient, safe, and secure collection, management, and disposal of covered drugs in compliance with the Drug Take-Back Law and all other applicable state and federal regulations.

Terms used in this guide are defined in Oregon Revised Statutes 459A.200 and 459A.209. The Drug Take-Back Law can be found in ORS 459A.200 to 459A.266, with related rules in [Oregon Administrative Rules, Chapter 340, Division 98](#).

www.oregon.gov/DEQ

DEQ is a leader in restoring, maintaining and enhancing the quality of Oregon’s air, land and water.

Section 1: Manufacturer participation

Covered manufacturers may participate in a drug take-back program as individual manufacturers, a group of manufacturers, or through a drug take-back organization.

Under ORS 459A.203(2), a covered manufacturer is not required to participate in a drug take-back program if it provides sufficient proof to DEQ that it manufactures covered drugs for fewer than 50 patients in Oregon. A manufacturer can claim this exemption by providing a statement to DEQ that the covered manufacturer currently manufactures covered drugs for fewer than 50 patients in Oregon and will notify DEQ within 30 days of beginning to manufacture covered drugs for 50 or more patients in Oregon. The statement should be accompanied by the following declaration: *I/We hereby declare under penalty of false swearing (Oregon Revised Statute 162.075 and ORS 162.085) that the above information and all of the statements, documents and attachments submitted with this claim are true and correct.* Both the statement and declaration should be signed and certified by the manufacturer's chief operating officer or equivalent.

The covered manufacturer may submit additional proof to demonstrate that it manufactures covered drugs for fewer than 50 patients in Oregon. DEQ may also request additional information. For questions about confidentiality of information submitted, please consult Section 7 of this guide. The statement may be sent to DEQ by email to drugtakeback@deq.state.or.us

DEQ will notify manufacturers of receipt of statement. DEQ will also maintain a list of covered manufacturers claiming exemption under ORS 459A.203(2) on its website that will be accessible through its Drug Take-Back Program web page at <https://www.oregon.gov/deq/Hazards-and-Cleanup/hw/Pages/drugtakeback.aspx>.

Section 2: Date for submission of initial plan

A program operator must submit an initial plan for participating in a drug take-back program to DEQ by November 1, 2020. A program operator must pay the proposed plan review fee of \$75,000 at the time of plan submission.

Section 3. Plan format

Please use Sections 3 to 5 of this Guide for the format, content and submission process for plans, including initial, updated and revised plans. The table of contents should clearly denote where each required component under the Drug Take-Back Law can be found in the plan. A plan must provide the information required under the Drug Take-Back Law in order to be approved.

Please use the outline below. The next section explains these components in greater detail.

1. Definitions
2. Financing
3. Management
4. Operation
5. Education and outreach
6. Goals
7. Closure plan
8. Coordination
9. Implementation timeline
10. Certification and attestation

Appendices:

- A. List of participating manufacturers. Include the contact information, authorized representative, and the Oregon Board of Pharmacy-issued registration number of each participating manufacturer or a statement that the manufacturer is not required to register with the Oregon Board of Pharmacy.

Registration numbers can be found at <https://orbop.mylicense.com/verification/Search.aspx?Facility=Y>.

- B. List of established authorized collectors and drop-off site locations.
- C. List of potential authorized collectors that the program operator has solicited or plans to solicit. For the initial plan to be submitted by November 1, 2020, include the contact information for existing collection sites available in Appendix A to this Guide.
- D. List of potential authorized collectors that have expressed interest to the program operator about becoming an authorized collector for the program.

Section 4. Plan content

Terms used in the plan should reflect terms in ORS 459A.200. Please include the following information in your plan, and any additional information you believe necessary, to demonstrate that your program will meet the requirements of the Drug Take-Back Law.

1. Definitions

Include any intended definition for terms used in the plan not already defined in ORS 459A.200 to 459A.266.

2. Financing

- a. Describe how the program will cover all costs associated with the proposed drug take-back program through participating covered manufacturers.
- b. Include an estimated budget for providing the statewide program, broken down by administrative costs, collection and disposal costs, and communication costs.
- c. Describe the program operator's experience in operating drug take-back programs or experience in handling pharmaceutical waste.
- d. Describe financial health of program operator.

3. Management

Describe how the program's overall day-to-day management will be handled, including management of contracts, record keeping, reporting, and compliance oversight of service providers. Include a statement or commitment that program will be managed to ensure program compliance with all relevant and applicable state and federal laws and regulations. Identify and provide the contact information for key personnel responsible for running various aspects of the program, including the authorized representative.

4. Operation

Describe the statewide network to collect covered drugs from covered entities in Oregon.

a. Collection system

Describe how the program will meet the requirements for a collection network under ORS 459A.209, 459A.215, 459A.218, and 459A.221, including, but not limited to:

- i. **Solicitation of potential authorized collectors**
 - 1) Describe the program operator's process for identifying, soliciting, and responding to potential authorized collectors, including efforts to include existing drug collection sites in Appendix A to this Guide in the program's network.
 - 2) Affirm that all authorized collector agreements, per ORS 459A.215(2), will require the authorized collector to comply with all state and federal laws and rules governing the keeping of covered drugs, as identified by the Oregon Board of Pharmacy by rule.

ii. Drop-off sites

Describe how the program will meet the convenience requirements of ORS 459A.209(2)(i). Include in detail the geographical distribution of drop-off sites in a county or population center and how they will provide equitable and reasonably convenient access to all residents of that county or population center, including access for minority,

lower-income, rural, and other historically underserved communities. Under ORS 459A, “population center” means a city or town and the unincorporated area of the county that is within a 10-mile radius from the center of the city or town. DEQ interprets “city” and “town” to mean an incorporated city and town, respectively, in Oregon. Appendix B to this Guide provides an estimate of the number of drop-off sites required under ORS 459A.209 based on the Population Research Center at Portland State University’s Certified Population Estimates as of July 1, 2019, available at <https://www.pdx.edu/population-research/population-estimates>.

- 1) Describe how the program’s policies and procedures will ensure that drop-off sites will provide safe and secure operations required in ORS 459A.218.
- 2) Include secure repository and inner liner specifications.
- 3) Describe repository collection system standards.
- 4) Describe the general repository service schedule and how it will ensure that repositories avoid reaching capacity and that covered drugs are transported for disposal in a timely manner.
- 5) Describe prompt service procedures for repositories that are full prior to scheduled service date.
- 6) Describe how the program operator will provide at least quarterly maintenance and cleaning of collection repositories.
- 7) Describe how an authorized collector may notify the program operator of need for additional collections at the drop-off site or other issues with collection repositories. Include response times for reported issues.
- 8) Demonstrate that repository signage prominently displays a toll-free telephone number where covered entities can speak to a live person about the drug take-back program and a website where a covered entity may provide feedback to the program operator about the program.
- 9) Describe how the program operator will ensure that drop-off sites at long-term care facilities will be available for use only to individuals who reside or have resided at those facilities, as required under ORS 459A.218(2)(f).
- 10) Describe how the program will maintain its network of drop-off sites to continuously ensure convenient service in every county in Oregon, such as by:
 - a) Soliciting and entering into agreements at least annually with all willing potential authorized collectors for the purpose of collecting covered drugs under the drug take-back program;
 - b) Conducting outreach to minority, low-income, rural and other historically underserved communities; and
 - c) Evaluating the need for additional drop-off sites based on population growth on an annual basis.
- 11) Describe how the program operator, in case of an unplanned event, such as a flood, earthquake, or fire, will ensure the security and integrity of drop-off sites, including:
 - a) The process for an authorized collector to report such incidents and the program operator to respond, including resolution of disagreements regarding the response;
 - b) How the program operator will promptly notify DEQ of any issues concerning the security and integrity of drop-off site repositories, including possible temporary suspension of services and any disagreement between an authorized collector and the program operator about the response to an unplanned event;
 - c) How the program operator will maintain updated information for the public through its toll-free number and website about the status of any drop-off site affected by an unplanned event.
- 12) Describe how the program operator will seek a waiver under ORS 459A.209(3) or approval of additional services and events under ORS 459A.218(3). For each county or population center, the process should include how the program operator will meet the requirements of OAR 340-098-0350.

iii. **Mail-back services**

Describe how the program, in providing mail-back services, will offer prepaid, preaddressed mailing envelopes to covered entities and in-home hospice providers at no cost, including:

- 1) How covered entities and in-home hospice service providers can request and get access to the mail-back service option and mail-back service supplies;
- 2) How the program will track and respond promptly to such requests;
- 3)
- 4) How the mail-back service option will be promoted so that covered entities and in-home hospice providers know they can access such services by request;
- 5) An example of the prepaid, preaddressed mailing envelopes to be offered including options for inhalers and pre-filled injector products; and
- 6) If mail-back envelopes will be offered at locations in a population center, a list of these locations and a description of how the program operator will ensure that mail-back supplies at these locations will be replenished to meet demand.

iv. **Covered drug collection events**

If providing collection events, describe in detail:

- 1) How the program operator will schedule and conduct collection events to ensure compliance with applicable regulations and protocols of the United States Drug Enforcement Administration;
- 2) How the program operator will coordinate with local solid waste management officials who have jurisdiction over the impacted area on the frequency and location of collection events;
- 3) How the program operator will notify DEQ at least 30 days before an event; and
- 4) How collection events will be promoted to residents and how residents can find collection event information on the program operator's website and through the program operator's toll-free number.

b. **Policies, procedures, and management practices**

Describe the policies, procedures, and practices the program operator will require to ensure that service providers, such as authorized collectors, transporters, disposal sites, and other vendors, will responsibly manage the collection, handling, and disposal of covered drugs under all applicable federal and state laws and rules. The description should include:

- i. The name and contact information for the program's logistics manager;
- ii. A list of vendors, transporters, and disposal facilities to be used; and
- iii. A description of policies and procedures for:
 - 1) Ensuring all persons handling or disposing of covered drugs collected under the drug take-back program will safely and securely track covered drugs from collection through final disposal and report any safety and security problems to the program operator;
 - 2) The program operator to monitor and track safety and security problems and report them to DEQ.
 - 3) Protecting patient information on drug packaging during processing, collection, transportation, and disposal of medications, and the process for tracking and addressing any issues.
 - 4) Requiring service providers to track information required for the annual reports submitted under ORS 459A.230; auditing the service providers' information from time to time for accuracy; ensuring that service providers provide to the program operator the information and records the program operator needs to satisfy the requirement of its plan; and maintaining the record needed to demonstrate compliance with the plan and any other requirements of the Drug Take-Back law and rules.
 - 5) Requiring all pharmacies participating in collection to register with the Oregon Board of Pharmacy and all authorized collectors to comply with all state and federal laws and rules governing the keeping of covered drugs, as identified by the Oregon Board of Pharmacy by rule.

5. Education and outreach

Include an outreach plan that describes public education efforts and promotion strategies in compliance with ORS 459A.227.

- a. Outline specific tools (such as signage, newsletters, in-store displays, social media, press releases, print or digital advertisements, and radio and TV spots) and how the program will implement these tools (for instance, the timing and frequency of radio ads and newsletters).
- b. Describe how identified public education strategies and tools will be adapted to meet the needs of minority, low-income, rural and other historically underserved communities.
- c. Provide copies of or links to online and written materials developed that meet requirements in ORS 459A.227(1). Describe how the materials will be readily understandable to all residents, including residents with limited English proficiency—for example, by using plain language and explanatory images.
- d. Describe communication tools and implementation methods the program will use to inform covered entities about drop-off site locations and hours of operation, mail-back and other services, and collection events.
- e. Describe work with authorized collectors on developing a readily recognizable and consistent design for repositories to be used at drop-off sites and on developing clear, standardized instructions on how to use those repositories; and provide examples of design and instructions.
- f. Describe how the program operator will coordinate with other program operators to ensure covered entities can easily identify, understand and access the services provided by all drug take-back programs that are operational in Oregon. Describe in detail the website and the toll-free number (which will include an option for covered entities to speak to a live person) that a covered entity may use to contact program operators about all drug take-back programs, provide feedback to program operators and get information about drop-off sites and the collection processes, such as information on mail-back services and collection events, of all drug take-back programs. Describe how the website and the toll-free number will be promoted to covered entities.
- g. Provide a timeline, including deliverables and milestones, for developing and conducting the biennial survey required under ORS 459A.227. Describe how the program will use survey results to improve program effectiveness.
- h. Describe how the program operator will distribute promotional written materials to retail drug outlets, hospitals with an on-site pharmacy and health care clinics with an on-site pharmacy so that they can, upon request, provide these materials to covered entities at the time that a covered drug is delivered to a covered entity.

6. Goals

Describe goals for amount of drugs collected. The description can address how the amount collected may change over time, based on factors, such as increased public awareness or changes in prescribing behavior, that influence the amount of unwanted drugs collected and available for collection. Describe goals for fostering full public awareness, including a goal for fostering public awareness in minority, low-income, rural or other historically underserved communities. Describe how the program operator will measure achievement of goals and report results to DEQ in annual reports. Describe a process for updating goals to address information from surveys and other sources that address factors influencing the goals.

7. Closure plan

Provide financial assurance, proof of liability insurance, and a closure plan to settle affairs in the event of dissolution or cessation of the program. The closure plan may describe how the program operator will notify DEQ by email of its intent to close the program and how the program operator will maintain a minimum ending fund balance to ensure that the program can continue to service drop-off sites, provide mail-back services, hold events as needed to provide convenience, maintain or transfer contracts, update information to the public through its toll-free number and website, and

retain auxiliary staff to help maintain minimum operational requirements for at least six months from the date of its closure notification to DEQ.

8. Coordination

If a program will provide services jointly with another program, describe how the programs will coordinate those services (including oversight of service providers, allocation and reporting of collections, program promotion). Each program is responsible for meeting the Drug Take-Back Law's requirements and cannot delegate that responsibility to another program.

- a. Identify all drop-off sites, events, collection services and service providers, such as authorized collectors, in the program's network that will be shared through contracts with another program. For each shared service or event, identify which program has contracted with the authorized collector (i.e., the contracting program). The contracting program should further list all other programs that will share those services or events through contracts with the contracting program.
- b. Describe how recordkeeping and reporting systems will accurately track and report data as required in Recordkeeping (below) for all shared drop-off sites, events and other services.
- c. Please include a statement in the plan that:
 - i. Any agreement with a drug take-back program that your program relies on to provide any service necessary for DEQ's approval of your plan under ORS 459A.209 requires that all services provided to your program pursuant to that agreement will comply with the terms of the other drug take-back program's plan and all applicable federal and state laws and regulations, including the Drug Take-Back Law.
 - ii. The program, upon request, will provide a copy of the agreements to DEQ. Do not include copies of the agreements with other programs unless specifically requested.

9. Implementation timeline

Provide an implementation timeline with deliverables and milestones for initiating program operations of the drug take-back program. For plans submitted by November 1, 2020, programs must be operational by July 1, 2021. After that, DEQ's intent is to accept new initial plans between July 1, 2022, and July 31, 2022, in accordance with the schedule for review set forth in ORS 459A.209(7). For plans submitted in 2022, programs must be operational by July 1, 2023.

10. Certification and attestation

Please provide:

- a. Contact information for the program's authorized representative, including name, address, phone number, and email address.
- b. The program operator's Employer Identification Number.
- c. The following certifying statement with the signature of the program's authorized representative: *I/We hereby declare under penalty of false swearing (Oregon Revised Statute 162.075 and ORS 162.085) that the above information and all of the statements, documents and attachments submitted with this claim are true and correct.*

Section 5: Plan format, submittal, and DEQ review process

1. Use any templates, lists, letters or forms provided.
2. Submit electronic file to drugtakeback@deq.state.or.us. A program operator should submit the program plan as a searchable electronic file. A program operator should additionally submit its lists of participating manufacturers, potential authorized collectors, and authorized collectors and drop-off sites as separate spreadsheet files. A program operator may be required to submit paper copies at DEQ's request. Please consult Section 9 for guidance on submitting information you consider confidential.

3. DEQ will make submitted plans available for public comment. DEQ will review a submitted plan by the schedule in ORS 459A.209(7) and inform the authorized representative by email whether the plan is approved, conditionally approved, or rejected.
4. If a program operator is submitting a revised plan, the revised plan should contain any changes to the initial plan in track changes or otherwise clearly noted.

Section 6: Annual reporting requirements

1. Submission

Beginning 2022, a drug take-back program must provide a report to DEQ by November 1 of each year that details the program's development, implementation and operation in the previous fiscal year.

2. Report content

Please provide all the information outlined in ORS 459A.230.

- a. In the list of covered manufacturers participating in the drug take-back program, note if a covered manufacturer participated only for a portion of the fiscal year.
- b. Describe how the program performed in meeting the goals identified in the approved plan. If collection goals were not met, describe likely reasons, including information from survey results and other factors that may affect the amounts collected and amounts available for collection, such as changes in prescribing practices. If public awareness goals were not met, describe how the program will modify its promotion and outreach activities to better achieve widespread awareness among Oregon residents and health care professionals about where and how to return covered drugs to the drug take-back program. Samples of promotional materials can be included in an appendix.
- c. Aggregate the program's annual expenditures by the following categories:
 - i. Administrative costs. A total for all administrative costs must include, but is not limited to:
 - 1) Contracted and employed personnel overhead costs;
 - 2) Legal fees;
 - 3) Local and state business licensing fees;
 - 4) Local, state, and federal taxes;
 - 5) Property costs, including rentals;
 - 6) Utilities, phone, and internet; and
 - 7) General equipment and supplies.
 - ii. Collection and disposal costs. A total for all collection and disposal costs must include, but is not limited to:
 - 1) Collection, transportation, and disposal of drugs;
 - 2) Purchase, maintenance, and replacement of collection repositories;
 - 3) Compensation, including payments, incentives, reimbursement, discounts, rebates, and other financing arrangements, provided to authorized collectors, if separate from personnel costs in Category 1; and
 - 4) Production, distribution, and postage of mail-back envelopes.
 - iii. Communication costs. A total for all communication costs must include, but is not limited to:
 - 1) Advertising;
 - 2) Marketing;
 - 3) Website creation and maintenance; and
 - 4) Operation of a toll-free phone number.
- d. Optional: DEQ is also interested in hearing about other noteworthy accomplishments or improvements your program achieved during the year, your concerns or suggestions for

improving the Drug Take-Back Program and any trends observed, lessons learned or other issues that might inform the Drug Take-Back Program.

3. Format

The authorized representative must submit the items below:

- a. One electronic copy in a format that allows for searching and electronic commenting.
- b. Any reporting templates provided by DEQ.
- c. The following certifying statement with the signature of the program's authorized representative: *I/We hereby declare under penalty of false swearing (Oregon Revised Statute 162.075 and ORS 162.085) that the above information and all of the statements, documents and attachments submitted with this claim are true and correct.*

Section 7: Confidentiality

DEQ will protect any information you identify as confidential to the extent required by ORS 459A.254 and allowed under the Oregon Public Records Law ([ORS 192.311 to 192.478](#)). This includes information or records that DEQ may request for program oversight and audit purposes. You must clearly mark the information as confidential and submit it as follows:

1. If you provide the information by mail: Label the information in the document as "Confidential." Place it in a separate, sealed envelope marked "Confidential."
2. If you provide the information by email: Do NOT include the information in the body of the email. Attach the information as a separate document labeled as "Confidential." Mark the email as "Confidential" in the subject line and body of the email.

Alternative formats

DEQ can provide documents in an alternate format or in a language other than English upon request. Call DEQ at 800-452-4011 or email deqinfo@deq.state.or.us.

Appendix B: Estimated Number of Drop-Off Sites Required Under ORS 459A.209

ORS 459A.209(2) requires one drop-off site in each county in Oregon and per population center, plus an additional drop-off site for every 50,000 residents of the city or town located within a population center. A population center means a city or town and the unincorporated area of the county that is within a 10-mile radius from the center of the city or town. The drop-off site for a county may be the same drop-off site as the drop-off site for a population center.

Population estimates for cities and towns are taken from the Population Research Center at Portland State University's Certified Population Estimates as of July 1, 2019, available at <https://www.pdx.edu/population-research/population-estimates>.
