

Summary of Levels of Dioxins in Residential Yards

| Soil Concentration | Number of Yards |
|----------------------------|-----------------|
| Above 40 ppt | 7 |
| Between 4.7 ppt and 40 ppt | 22 |
| Below 4.7 ppt | 6 |

Levels of Significance for Dioxins in Soil

This level of significance thermometer represents the level of dioxin in soil measured in parts per trillion (ppt). All significance levels assume swallowing contaminated soil.
